# Kevin Gresham

**Vice President, Government Relations & External Affairs**
**RWE Renewables Americas LLC**

Independent Generator Segment

Kevin Gresham is Vice President of Government Relations and External Affairs for RWE Renewables Americas LLC and has more than 30 years of electric industry experience.

Mr. Gresham directs RWE's governmental relations, federal and state regulatory activities, and external affairs across North America. He was recently appointed to the Department of Commerce's Renewable Energy and Energy Efficiency Advisory Committee. In addition, Mr. Gresham serves as Vice Chair of the Solar Energy Industries Association's Federal Affairs Committee and on The Wind Coalition's Executive Committee. He also participates in the American Wind Energy Association's (AWEA) legislative, public affairs, and transmission committees.

Mr. Gresham previously chaired the AWEA State Policy Central Region Caucus and served on the Texas Renewable Energy Industries Board of Directors. He also has served on the ERCOT Technical Advisory Committee and as chairman of the ERCOT Protocol Revision Subcommittee for nine years. He has been very active in ERCOT market development since the late 1990s, including the design of the current ERCOT nodal market.

Prior to joining RWE, he was Director of RTO Policy for RRI Energy, where he was involved in PJM, MISO, California, and the West. Mr. Gresham has a master of business administration from Houston Baptist University and a bachelor's degree in Mass Communications from Illinois State University.
