Request for Proposal for ERCOT 765 kV Network Reactive Power Study

Date of Release: Nov 24, 2026

1. General Information

1.1. Request for Proposal (RFP) Objective

The objective of ERCOT in this procurement is to identify and contract with a qualified Respondent to perform a comprehensive reactive power, voltage performance, voltage stability and dynamic stability of the planned ERCOT 765 kV network and the electrically adjacent 345 kV system. The work shall identify deficiencies and provide technically actionable, feasible mitigation recommendations for reliable energization and operation of the 765 kV network.

Electric Reliability Council of Texas (ERCOT) will be using Workday Strategic Sourcing (WSS) to manage the submission process for this RFP.

In order to participate, each respondent is required to create a free supplier account with Workday Strategic Sourcing by accessing the following link and following the instructions for new account creation.

https://ercot.us.workdayspend.com/rfps/public/1309595

Once registered, you can view details and ask questions (via the WSS message center) to ERCOT within the WSS platform. You will also be able to invite additional team members to collaborate, and submit your RFP response.

1.2. ERCOT Point of Contact

The sole point of contact for inquiries concerning this RFP is:

diana.wang@ercot.com

All communications relating to this RFP must be directed to the specified ERCOT Point of Contact. All other communications between a Respondent and ERCOT staff concerning this RFP are prohibited. Failure to comply with this section may result in ERCOT's disqualification of the proposal.

1.3. Procurement Timeline

Procurement Timeline	
RFP Release Date	11/24/2026
Notice of Intent to Propose Due	12/4/2026
Respondent Questions Due	12/9/2026
Response to Respondent Questions Sent	12/17/2026
Respondent Proposals Due	1/12/2027
Respondent Presentations (if needed)	TBD
