Kent Saathoff, ERCOT Vice President of System Planning and Grid Operations, provided an update on an Energy Emergency Alert which occurred on Saturday, May 15, 2010. Mr. Saathoff and John Dumas, ERCOT Manager of Supply Integration and Grid Applications, answered the Board members’ questions regarding this matter and the Grid Operations and Planning Report. Chairman Smitherman requested that Mr. Saathoff and Dan Woodfin, ERCOT Director of System Planning, coordinate with him at a later date on a review of the Gillespie-to-Newton line, the Clear Springs-to-Salado project, the Twin Buttes-to-Brown reconfiguration, and any other related projects that could relieve some of the transfer capability originally envisioned by the Gillespie-to-Newton line.

Mr. Woodfin agreed to determine whether the Commission approval was necessary for such a change.
**Transmission Planning Discussion (Agenda Item 11)**

Bill Magness, ERCOT Interim Vice President and General Counsel, noted that, at the April 20, 2010 Board meeting, Mr. Helton requested a policy discussion of the issues related to transmission project review in the Regional Planning Group process. Mr. Magness added that the Transmission Planning Discussion agenda item was intended to satisfy Mr. Helton’s request and that this agenda item was posted as a voting item in the event that the Board wanted to take action, such as, providing instruction to the Technical Advisory Committee (TAC) on this matter. Mr. Magness clarified that this agenda item was not intended to address the specific matter of ERCOT’s independent review of the Comanche Peak Congestion Mitigation proposal under the Regional Planning Group Charter and that any issues related to such review would be instead appropriately addressed through the alternative dispute resolution process provided under the Protocols.

**Lunch (Agenda Item 14)**

The meeting adjourned for lunch at approximately 12:05 p.m. and was reconvened by Michehl Gent, Board Vice Chairman, at the request of Chairman Newton, at approximately 12:50 p.m.

Mr. Cleary noted ERCOT’s engagement of economists to review the manner in which the market will operate after Nodal goes live and to identify any potential issues in the market. Mr. Dreyfus commented that he believed a risk review was appropriate, but that the risk review not evolve into a market design review (particularly prior to the Market Participants’ having the opportunity to experience the market). Mr. Dreyfus further emphasized that he would like the Independent Market Monitor to be highly engaged – if not the lead, then in a leadership position in this effort. Mr. Cleary continued his presentation to the Board members and responded to further questions.

Brandon McElfresh, ERCOT Senior IT Internal Auditor, provided a market readiness update to the Board members.
