Call Open Session to Order and Announce Proxies (Agenda Item 1)

Michehl Gent, ERCOT Acting Board Chairman, called the meeting to order at approximately 10:14 a.m., pointed out the Antitrust Admonition and determined a quorum was present. Chairman Gent noted that Deryl Brown, Segment Alternate for the Independent Retail Electric Provider Segment, was attending the meeting in place of Marcie Zlotnik and that Danny Bivens, Alternate Representative for the Office of Public Utility Counsel and Residential Consumer Segment, was attending the meeting in place of Sherry Givens.

Chairman Gent took the Agenda Items in the following order for scheduling convenience.

Consent Agenda (Agenda Item 2)

The following items were presented for approval in the Consent Agenda:

- Agenda Item 3a – May 17, 2010 Special Board of Directors Meeting Minutes;
- Agenda Item 3b – May 18, 2010 Board of Directors Meeting Minutes;
- Agenda Item 3c – May 27, 2010 Special Joint Nominating Committee and Board of Directors Meeting Minutes;
- Agenda Item 11a – Protocol Revision Request (PRR) 849;
- Agenda Item 11b – Nodal Protocol Revision Requests (NPRRs) 210, 212, 217, 222 and 223; and
- Agenda Item 11c – Retail Market Guide Revision Request (RMGRR) 087.

A.D. Patton moved to approve the above-noted items on the Consent Agenda. Calvin Crowder seconded the motion.

Andrew Dalton made a friendly amendment to remove Agenda Item 11b (that is, NPRRs 210, 212, 217, 222 and 223) from the Consent Agenda for further discussion during the meeting.

Dr. Patton and Mr. Crowder accepted the friendly amendment to remove Agenda Item 11b (that is, NPRRs 210, 212, 217, 222 and 223) from the Consent Agenda. The motion passed by unanimous voice vote with no abstentions.

Approval of Board Meeting Minutes (Agenda Items 3, 3a, 3b and 3c)

The minutes of the May 17, 2010 Special Board of Directors Meeting, the May 18, 2010 Board of Directors Meeting, and May 27, 2010 Special Joint Nominating Committee and Board of Directors Meeting were all approved as part of the Consent Agenda under Agenda Item 2.

Chief Executive Officer (CEO) Update (Agenda Item 4)

Trip Doggett, ERCOT Interim President and CEO, reviewed the CEO Update presentation with the Board members and responded to their questions.
Barry T. Smitherman, Public Utility Commission of Texas (Commission) Chairman, requested a one-page summary description of the operational requirements and lessons learned from having 7,000 megawatts of wind on the grid. Mr. Doggett agreed to provide such a summary and noted that he would include descriptions of the available reserves and any additional extraordinary operational steps necessary to have additional reserves based on the forecast.

Calvin Opheim, ERCOT Manager of Load Forecasting and Analysis, answered additional questions from Board members regarding economic and weather impacts on load forecasting.

Mr. Doggett recognized ERCOT employees Thelma Garza and Karen Farley, Chair and Vice Chair of ERCOT’s Community Involvement Committee, respectively and applauded all ERCOT employees who participate in ERCOT’s community volunteer efforts (such as, Meals on Wheels and Habitat for Humanity). Chairman Gent also thanked Ms. Garza and Ms. Farley for their volunteer efforts.

Operating Reports

Financial Summary Report (Agenda Item 5)

Chairman Gent invited comments or questions regarding the Financial Summary Report, but there were none.

Market Operations Report (Agenda Item 6)

Chairman Gent invited comments or questions regarding the Market Operations Report. Betty Day distributed a Market Operations Report supplemental update to the Board members and provided a brief overview of the update. There were no questions on the Market Operations Report.

Information Technology (IT) and Facilities Report (Agenda Item 7)

Chairman Gent invited comments or questions regarding the IT and Facilities Report. Richard Morgan, ERCOT Vice President and Chief Information Technology Officer, and Mike Cleary, ERCOT Senior Vice President and Chief Technology Officer, responded to Board members’ questions regarding the IT and Facilities Report.

Grid Operations and Planning Report and Reliability Must Run (RMR) Exit Strategy for City of Garland Spencer Unit 5 (Agenda Items 8 and 8a)

Chairman Gent invited comments or questions regarding the Grid Operations and Planning Report. Kent Saathoff, ERCOT Vice President of System Planning and Grid Operations, responded to Board members’ questions regarding the Grid Operations and Planning Report.
Mr. Saathoff reviewed the proposed RMR Exit Strategy for City of Garland Spencer Unit 5 with the Board.

Clifton Karnei disclosed to the Board that three of the transmission projects noted by Mr. Saathoff in relation to the proposed RMR Exit Strategy are those of his employer, Brazos Electric Cooperative, Inc. He noted that, although these transmission projects were part of prior long-term plans, he would recuse himself from the vote on this matter in an abundance of caution.

The Board members discussed the proposed RMR Exit Strategy.

Mr. Crowder moved to approve the RMR Exit Strategy for City of Garland Spencer Unit 5 as presented. Mr. Dalton seconded the motion.

Upon Commissioner Donna Nelson’s arrival to the meeting, Chairman Smitherman called an open meeting of the Commission to order to consider matters which have been duly posted with the Texas Secretary of State for June 15, 2010.

The motion passed by unanimous voice vote with two abstentions (Mr. Karnei and Dr. Patton).

Special Nodal Program (SNP) Committee Report (Agenda Item 9) and Nodal Update (Agenda Item 10)

Bob Helton, SNP Committee Chairman, reported that the SNP Committee met during the prior day and considered in part the following matters:

- Nodal Program status;
- Program risks;
- Market readiness update;
- Financial review; and
- Strategic and Organizational Assessment of ERCOT, as presented by Market Reform.

Mr. Cleary responded to Board members’ questions regarding these matters and the Nodal Update. In response to Dr. Patton’s comments regarding the defects to be resolved prior to Nodal Go-Live, Mr. Cleary committed to providing additional detail of these issues in future Nodal Updates.

Calvin Crowder inquired about the role of the Nodal Advisory Task Force (NATF) and other committees and work groups, particularly as it relates to ERCOT staff involvement. Brad Jones, Chair of the Technical Advisory Committee (TAC), noted that TAC was supportive of changes proposed by ERCOT staff to have TAC subcommittees work through issues and a process through NATF before advancing them to ERCOT subject matter experts (SMEs). This discussion was continued later in the meeting.
The discussion of these Agenda Items continued later in the meeting.

**Strategic and Organizational Assessment of ERCOT (Agenda Item 15)**

Todd Bessemer and Tim Becker of Market Reform presented their firm’s Strategic and Organizational Assessment of ERCOT to the Board members, which included the same materials reviewed on the prior day at the SNP Committee meeting with the addition of a few slides to address questions posed by the SNP Committee members at the prior day’s meeting. Mr. Bessemer, Mr. Becker and Mr. Doggett responded to questions by the Board members regarding this presentation.

Mr. Doggett requested that the Board members pay particular attention to the Overarching Issues slide of the presentation. He advised that there are certain key assumptions that are more within ERCOT’s control and there are others that would need to be mitigated which are out of ERCOT’s control. He noted that ERCOT would be requesting the assistance of the Commission for such mitigation.

The discussion of this Agenda Item continued after lunch.

**Lunch (Agenda Item 12)**

The meeting adjourned for lunch at approximately 12:10 p.m. and reconvened at approximately 12:47 p.m.

**Strategic and Organizational Assessment of ERCOT (Agenda Item 15) – Continued**

Mr. Bessemer and Mr. Becker continued their presentation. During the presentation, Mr. Bessemer presented an updated slide on full-time equivalent (FTE) staffing that calibrated Market Reform and ERCOT’s independent recommendations as requested by Chairman Smitherman during the SNP Committee meeting on the prior day. Mr. Bessemer, Mr. Becker, Mr. Doggett and Mr. Cleary responded to questions and comments by the Board members and Commissioner Nelson regarding this presentation.

**Special Nodal Program (SNP) Committee Report (Agenda Item 9) and Nodal Update (Agenda Item 10) – Continued**

In response to Mr. Crowder’s earlier inquiry about ERCOT’s management of its resources and SMEs, Mr. Cleary advised that ERCOT supported focusing all matters through NATF since such a process avoided the possibility of providing preferential treatment to Market Participants and encouraged disseminating information to all Market Participants equally at the same time.

Mr. Dalton proposed that the Board consider all Nodal Program matters in the future rather than the SNP Committee. The Board members discussed this matter. Chairman Gent requested that Mr. Doggett provide the Board with a recommendation on this matter at the July Board meeting.
Technical Advisory Committee (TAC) Report (Agenda Items 11, 11a, 11b, 11c, 11d, 11e and 11f)

Chairman Gent invited Mr. Jones, TAC Chair, to provide a report on recent TAC activities.

Mr. Dalton requested that TAC identify all NPRRs into three categories – those critical for Nodal Go-Live, those which have “cosmetic” changes necessary to synchronize with the software, and those which are intended for the “parking deck”. Mr. Jones noted that there is a process for the ERCOT CEO determination for those NPRRs necessary for Nodal Go-Live, that most NPRRs are worked out with ERCOT staff for those with minimal or no impact to Nodal Go-Live, and that the remaining NPRRs would fall into the category of the parking deck.

Proposed Effective Date: Upon Texas Nodal Market Implementation.

CEO Determination: Necessary prior to the Texas Nodal Market Implementation Date.
ERCOT Impact Analysis: No budgetary impact prior to the Texas Nodal Market Implementation Date (to support uplift of DAM defaults, ERCOT will utilize the ‘Miscellaneous Invoice’ as a work-around. There will be a cost impact after the Texas Nodal Market Implementation Date.
