

NOTICE DATE: June 6, 2006

NOTICE TYPE: Notice of System Change (PRR)

SHORT DESCRIPTION: ERCOT Implementation of PRR 659 - Reporting of ERCOT Replacement Reserve Service Procurements

INTENDED AUDIENCE: QSE Settlement and Operations Personnel

DAY AFFECTED: June 6, 2006

LONG DESCRIPTION:

ERCOT has implemented PRR659 by posting a new Replacement Reserve Service Daily Report to the ERCOT Website. This report now contains the identity of units selected for Local Replacement as well as their Low Sustainable Limits, the hours of deployments, the binding Transmission constraints, the amount of Zonal RPRS Deployed and the MCPC. This report is available on or before the second (2nd) Business Day after each Operating Day.

Monthly reports showing the quantity of RPRS procured by hour for system capacity based on the Day Ahead estimate of total ERCOT Load versus the quantity of RPRS that, in hindsight, would have been the proper amount to procure based on actual average adjusted metered Load will be posted in the same location. This report is available by the 20th day of the following month.

ADDITIONAL INFORMATION: An example of the new daily report is attached and posted daily at the following location:
