

The Electric Reliability Council of Texas (ERCOT) is a nonprofit organization that ensures reliable electric service for 90 percent of the state of Texas. The grid operator is regulated by the Public Utility Commission of Texas and the Texas Legislature.

ERCOT has four primary responsibilities:

- Maintain system reliability.
- Facilitate a competitive wholesale market.
- Facilitate a competitive retail market.
- Ensure open access to transmission.

More than
26 million
customers in the
ERCOT region

- 1,800+ active market participants that generate, move, buy, sell or use wholesale electricity
- 82,000+ megawatts (MW) of expected capacity for summer 2020 peak demand
- 680+ generating units, excluding PUNs
- Transmission projects endorsed in 2020 total \$598.6 million
- 46,500+ miles of high-voltage transmission

- Wind Generation record: 21,375 MW (June 28, 2020)
- Wind Penetration record: 59.30 percent (May 2, 2020)
- 24,976 MW of installed wind capacity as of June 2020, the most of any state in the nation
- 3,095 MW of utility-scale installed solar capacity as of June 2020
- 153 MW of installed battery storage as of June 2020

74,820 MW

Record peak demand

1 MW of electricity can power
about 200 Texas homes during
periods of peak demand.

384 billion kilowatt-hours of energy were used in 2019, a 2 percent increase compared to 2018.

The Electric Reliability Council of Texas (ERCOT) manages the flow of electric power to more than 26 million Texas customers — representing about 90 percent of the state’s electric load. As the independent system operator for the region, ERCOT schedules power on an electric grid that connects more than 46,500 miles of transmission lines and 680+ generation units. It also performs financial settlement for the competitive wholesale bulk-power market and administers retail switching for nearly eight million premises in competitive choice areas. ERCOT is a membership-based 501(c)(4) nonprofit corporation, governed by a board of directors and subject to oversight by the Public Utility Commission of Texas and the Texas Legislature. Its members include consumers, cooperatives, generators, power marketers, retail electric providers, investor-owned electric utilities, transmission and distribution providers and municipally-owned electric utilities.
