COMES NOW, the Electric Reliability Council of Texas, Inc. (ERCOT) and hereby seeks approval of its revised Amended and Restated Bylaws (Bylaws), as approved on May 16, 2007 by the ERCOT Board of Directors and on June 14 2007 by the Corporate Members of ERCOT via mail-in vote in lieu of a special meeting.1 One hundred forty-two Corporate Members voted in favor of the new Bylaws, with no votes in opposition. A red-lined document showing the proposed Bylaw revisions is attached as Attachment A to this Petition.

ERCOT proposes to adopt these revised Amended and Restated Bylaws primarily to enable the creation and operation of the Texas Regional Entity (TRE), an independent division of ERCOT established to perform certain investigatory, enforcement, and compliance functions in the ERCOT region pursuant to the Delegation Agreement between the North American Electric Reliability Corporation (NERC) and TRE, a copy of which is attached as Attachment B. The revised Bylaws also include a handful of non-TRE-related Bylaw revisions; these additional revisions were limited in number due to the importance of obtaining final approval quickly, and ERCOT included only those that ERCOT believes to be both important and non-controversial. All proposed revisions are listed in Section IV below.

ERCOT respectfully requests that the Commission assign a docket number to this matter; set an expedited procedural schedule; and approve ERCOT’s revised Amended and Restated Bylaws.

---

1 Section 12.1(c) of the Bylaws allows the Board to seek Membership approval of Bylaw revisions without a meeting, consistent with Section 13.8 of the Bylaws. Section 13.8 of the Bylaws states that any action permitted to be taken at a meeting of the Corporate Members can be taken without a meeting, if the number of Corporate Members that would be required for a favorable vote on the action express their consent, in writing, to taking that action without a meeting. Section 12.1(d), in turn, describes the requirements for a favorable vote of the Corporate Members: two-thirds affirmative votes from at least four of the seven membership segments (Cooperative; Independent Generator; Independent Power Marketer; Independent REP; Investor Owned Utility; Municipal; and Consumer), with the “two-thirds” for the Consumer Segment being counted as simple-majority affirmative votes from any two of the three consumer sub-segments (Residential, Commercial, and Industrial).
I. Statement of Jurisdiction and Authority

The Commission has jurisdiction over this matter pursuant to Public Utility Regulatory Act (PURA) §39.151(g), which states that ERCOT's "bylaws or protocols must be approved by the [C]ommission and must reflect the input of the [C]ommission."²

II. Identification of Applicant

The name and address of the petitioner is the Electric Reliability Council of Texas, Inc., 7620 Metro Center Drive, Austin, Texas 78744.

The name, address, telephone and facsimile numbers of petitioner's authorized representatives is as follows:

III. Background

On November 17, 2006, consistent with: (a) the Energy Policy Act of 2005 (EPAct) provision that added new section 215 of the Federal Power Act (the FPA); and (b) the Federal Energy Regulatory Commission's (FERC) certification of NERC as the electric reliability

organization (ERO), ERCOT submitted a proposed Regional Entity (RE) Delegation Agreement to NERC that would allow the TRE to become the RE for the ERCOT Region, and would also allow the TRE to perform investigatory and compliance functions relating to ERCOT’s Protocols, which exist under Texas state law as prescribed in PURA and until this time have been performed by ERCOT’s Compliance Division.

On November 29, 2006, NERC made a compliance filing with FERC consisting of a pro forma Delegation Agreement providing for the delegation of certain ERO functions and duties to various REs, including TRE. NERC’s filing also included a draft Delegation Agreement specific to the proposed relationship between NERC and the TRE (the TRE Delegation Agreement). On April 19, 2007, FERC issued an order approving the delegation of certain activities from NERC to TRE within the ERCOT Region pursuant to the TRE Delegation Agreement. On May 16, 2007, the ERCOT Board approved the creation of the TRE and authorized the acting Chief Compliance Officer (CCO) of the TRE to sign the TRE Delegation Agreement.

NERC filed the fully executed TRE Delegation Agreement with FERC on May 18, 2007. In that filing, NERC noted that ERCOT Membership approval and Commission approval would still be required, and NERC committed to informing FERC once those approvals were in place.

IV. Summary of Bylaws Changes

The Board- and Member-approved changes to the ERCOT Bylaws are fully redlined in Attachment A. Briefly, these revisions include:

- Article 1 – Offices: Adding new section 1.3 to describe TRE’s office location;

---

5 See id.

7 See Final Filed Regional Delegation Agreement Between NERC and Texas Regional Entity, a Division of ERCOT, at 3, available online at ftp://www.nerc.com/pub/sys/all_updl/ero/rdar/TRE-RDA-5-18-07.pdf.

Article 3 – Members: Revising section 3.3(b) to requiring ERCOT Members to share information at the TRE’s request to further the TRE’s activities, consistent with PUCT and NERC rules relating to confidentiality;

Article 3 – Members: Revising section 3.4 to allow a Member to petition for waiver of ERCOT membership fees, as required by FERC;

Article 3 – Members: Revising section 3.6(a) to provide that, as with the Board and TAC, no Member may simultaneously hold seats on either of those bodies and on the TRE’s new Regional Standards Committee (RSC);

Article 3 – Members: Revising section 3.7(e) to allow the TRE’s Standards Development Process to establish an alternate means of obtaining a quorum at a Corporate Members’ meeting, as required by FERC;

Article 4 – Board of Directors: Revising section 4.6(b) to add public notice requirements for RSC meetings that are identical to Board-meeting notice requirements, with exceptions for “urgent matters” that are also identical to the Board’s urgent-matter exceptions;

Article 4 – Board of Directors: Revising section 4.10 to add “management and oversight of the TRE” as a non-delegable duty of the Board;

Article 6 – TRE: Adding this entire Article, which explains the TRE’s responsibilities and duties, its independence, its management affairs, its employment practices, and the manner in which the Board shall evaluate its performance.

Article 7 – Chief Executive Officers: Adding new section 7.2, which describes the role and duties of the TRE Chief Compliance Officer (CCO) in the same manner as existing sections do for the CEO and other Officers;

Article 8 – Officers: Revising renumbered sections 8.1 and 8.2 to include the CCO as an Officer; prohibit the CCO from holding another office simultaneously; and mandate that, as with the CEO, the CCO shall be elected by the Board to serve a term of not more than one year;

Article 10 – Expenses, Books and Records: Revising section 10.2 to require that the TRE’s expenses be accounted for separately;

Article 10 – Expenses, Books and Records: Revising section 10.3 to require that a separate budget for the TRE be prepared each fiscal year;

Article 10 – Expenses, Books and Records: Revising section 10.6, requiring that the separate financial statements of the TRE be reviewed or audited annually;

See April 19 Order ¶¶ 240 and 243 at pp. 77-78.

See id. ¶¶ 248-49 at p. 80.
Article 13 – Amendments: Revising section 13.1(d)(4) to note that future Bylaw amendments will not take effect until NERC or FERC permission is obtained, if NERC or FERC permission is required under the TRE Delegation Agreement;

Improving the Bylaws in certain straightforward ways that are unrelated to the TRE but that ERCOT does not believe to be controversial:

i. Article 4 – Board of Directors: Revising section 4.1 to define the term “Board;”

ii. Article 4 – Board of Directors: Revising section 4.3(b)(2)(ii) to clarify and strengthen the independence requirements for Unaffiliated Directors;

iii. Article 4 – Board of Directors: Revising section 4.10 to clarify that the Board possesses the right to terminate the ERCOT CEO’s employment;

iv. Article 12 – Notices: Revising section 12.1 to clarify that the notice requirements for Members, Directors, Officers and others also include notice given to ERCOT committee and subcommittee members;

v. Correcting internal references that have changed as a result of the Bylaws revisions, such as in section 4.3(b)(4) (changing “12.1(d)” to “13.1(d)’); and

vi. Correcting preexisting typographical errors, such as an extra “s” in section 5.1(g).

V. Merits of the Bylaws Changes

First and foremost, these Amended and Restated Bylaws comply with the delegation of authority to the TRE to conduct certain investigatory, enforcement, and compliance functions under the NERC-TRE Delegation Agreement. The Amended and Restated Bylaws are intended to clarify and modify provisions to include the TRE, as a functionally separate and independent division of ERCOT, and TRE-related requirements.

Second, the various cleanup changes comport with good governance practices, such as clarifying the Board’s authority to terminate the ERCOT CEO’s employment and strengthening the independence that an “unaffiliated” Director must have from potential biases.

VI. Expedited Consideration/Suggested Procedural Schedule

In order to conform the Bylaws to the TRE Delegation Agreement, ERCOT, its Board and its Members have acted as quickly as reasonably possible to consider and approve these changes to ERCOT’s Bylaws. The proposed revisions have been fully vetted by these groups, and they are necessary to comply with FERC orders and NERC requirements. As in prior
Commission dockets relating to ERCOT Bylaws revisions – specifically, Docket Nos. 22061, 24932, 26861, and 32025 – there is no need for party interventions, discovery, or evidentiary hearings in this Docket. Indeed, because FERC has already approved the form and substance of the TRE-specific Bylaw revisions and instructed that they be adopted, it is not at all clear that a party to this Commission docket could alter or limit those revisions without seeking prior approval from FERC. For all of these reasons, comments and briefing are the appropriate means for interested parties to participate in this proceeding.

Because ERCOT is required to inform NERC and FERC as soon as possible that its revised Bylaws have become effective, ERCOT respectfully requests that the Commission schedule this matter so that final consideration can be given no later than the July 31, 2007, Open Meeting. In keeping with that schedule, ERCOT respectfully proposes the following procedural schedule:

- July 6, 2007: Publication of Notice in the Texas Register
- July 17, 2007: Initial Comments
- July 24, 2007: Reply Comments
- July 31, 2007: Commission Action

VII. Notice

For notice of this Petition, ERCOT suggests the following notice:

- *Texas Register* notice by the Commission identifying this Petition and setting forth the procedural schedule (such notice to appear in the July 6, 2007, Texas Register);
- E-mail notice by ERCOT to the e-mail exploder lists for the ERCOT Board, TAC, and all TAC subcommittees, to be issued by ERCOT as soon as the Commission adopts a procedural schedule but in no event later than July 6, 2007;
- Posting of this Petition prominently on ERCOT’s web site;
- Written notice (first-class U.S. mail or facsimile) to be sent by ERCOT as soon as the Commission adopts a procedural schedule but in no event later than July 6, 2007, to parties in Docket No. 31824 (*Application of the Electric Reliability Council of Texas for Approval of the ERCOT System Administration Fee*).
VIII. Prayer

ERCOT respectfully requests that the Commission issue an order approving its revised Amended and Restated Bylaws, as described herein, and granting ERCOT any such additional relief to which ERCOT may be entitled.

Respectfully submitted,

ATTORNEYS FOR THE ELECTRIC RELIABILITY COUNCIL OF TEXAS, INC.

CERTIFICATE OF SERVICE

I, Michael G. Grable, attorney for ERCOT, certify that a copy of this document was served in this proceeding on June 21, 2007, in the following manner: by facsimile or first-class U.S. mail.

Lori Cobos
ATTACHMENT A

[Draft] AMENDED AND RESTATED BYLAWS

OF

ELECTRIC RELIABILITY COUNCIL OF TEXAS

(A Texas Non-Profit Corporation)

May 15, 2006

[2007]
ARTICLE 1
OFFICES

Section 1.1 Principal Office. The principal office of Electric Reliability Council of Texas, Inc. ("ERCOT") shall be located at such place in Texas as the ERCOT Board of Directors (the "Board") may determine. Additional offices may be established and maintained at such place or places as the Board may from time to time designate.

Section 1.2 Registered Office and Registered Agent. ERCOT will maintain a registered office and a registered agent in Texas. The Board may change the registered office and the registered agent as permitted in the Texas Non-Profit Corporation Act.

Section 1.3 Texas Regional Entity Division. ERCOT will maintain separate facilities or a separate office within ERCOT's existing facilities in which a division called the Texas Regional Entity Division ("TRE") will function independently of the rest of the company for purposes of developing and enforcing federally mandated reliability standards within the ERCOT Region (the "Delegated Authority" as defined below). If the TRE maintains offices within ERCOT's facilities, it shall be required to pay ERCOT a fair market rate of rent.

ARTICLE 2
DEFINITIONS

For purposes of these Bylaws, the following definitions apply:

1. **Affiliate.** This includes an entity (e.g. a person or any type of organization) in any of the following relationships: (i) an entity that directly or indirectly owns or holds at least five percent of the voting securities of another entity, (ii) an entity in a chain of successive ownership of at least five percent of the voting securities of another entity, (iii) an entity which shares a common parent with or is under common influence or control with another entity or (iv) an entity that actually exercises substantial influence or control over the policies and actions of another entity. Evidence of influence or control shall include the possession, directly or indirectly, of the power to direct or cause the direction of the management and/or policies and procedures of another, whether that power is established through ownership or voting of at least five percent of the voting securities or by any other direct or indirect means. In cases where the level of control or influence is disputed, the Board shall have discretion to determine whether or not the entities are Affiliates of one another. Membership in ERCOT shall not create an affiliation with ERCOT.

2. **Consumers.** Any entity meeting the definition for Residential Consumers, Commercial Consumers or Industrial Consumers as set forth in this Article.

3. **Commercial Consumers.** A commercial consumer or an organization representing the interests of commercial consumers in the ERCOT Region: (a) **Small Commercial Consumer** - A commercial consumer having a peak demand of 1000 kilowatts or less (or an organization representing such consumers); (b) **Large Commercial Consumer** - A
commercial consumer having a peak demand of greater than 1000 kilowatts (or an organization representing such consumers). An entity applying for ERCOT membership as either a Small Commercial Consumer or a Large Commercial Consumer is ineligible if that entity has interests in the electric industry in any other capacity than as an end-use consumer or represents the interests of another entity that has interests in the electric industry in any other capacity than as an end-use consumer, such as but not limited to, aggregators, power marketers, retail electric providers, transmission or distribution companies, cooperatives, municipals, or generators and the interest is of such an extent or nature that its decisions might be affected or determined by it. In the case of an organization representing interests of commercial consumers, the organization may have members who have interests in the electric industry provided that such members do not control, or have the ability to control, the activities of the consumer organization. Additionally, in order to qualify for Membership, the organization’s membership must represent at least one million MWh of annual electric consumption in the ERCOT Region. The three Board Consumer Directors have the right to determine by majority vote of the Consumer Directors whether any applicant or member is ineligible, as described above, to become or remain a member of the Consumer Segment.

4. **Cooperative.** An entity operating in the ERCOT Region that is:
   a. a corporation organized under Chapter 161 of the Texas Utilities Code or a predecessor statute to Chapter 161 and operating under that chapter;
   b. a corporation organized as an electric cooperative in a state other than Texas that has obtained a certificate of authority to conduct affairs in the State of Texas;
   c. a cooperative association organized under Tex. Rev. Civ. Stat. 1396-50.01 or a predecessor to that statute and operating under that statute; or
   d. a River Authority as defined in Tex. Water Code §30.003.

5. **Delegated Authority.** The authority delegated by NERC to the TRE to propose and enforce Reliability Standards in the ERCOT Region, pursuant to the Federal Act.

6. **Entity.** An Entity includes an organization and all of its Affiliates.

7. **ERCOT Protocols.** The document adopted by ERCOT and approved by the Public Utility Commission of Texas (“PUCT”), as amended from time to time that contains the scheduling, operating, planning, reliability, and settlement policies, rules, guidelines, procedures, standards, and criteria of ERCOT.

8. **ERCOT Region.** The geographic area and associated transmission and distribution facilities that are not synchronously interconnected with electric utilities operating outside the jurisdiction of the Public Utility Commission of Texas.

10. **Unaffiliated Director.** A Director who is unaffiliated with a Market Participant as qualified under Section 4.3(b).

11. **Independent Generator.** Any entity that is not a Transmission and Distribution Entity ("T&D") or Affiliate of a T&D Entity and that (i) owns or controls generation capable of operating at least 10 MW in the ERCOT Region, or (ii) is preparing to operate and control generation of at least 10 MW, in the ERCOT Region, and has approval of the appropriate governmental authority, has any necessary real property rights, has given the connecting transmission provider written authorization to proceed with construction and has provided security to the connecting transmission provider.

12. **Independent Power Marketer.** Any entity that is not a T&D Entity or Affiliate of a T&D Entity and is registered at the PUCT as a Power Marketer to serve in the ERCOT Region.

13. **Independent REP.** Any entity that is certified by the PUCT to serve in the ERCOT Region as a Retail Electric Provider ("REP") under Public Utility Regulatory Act ("PURA") §39.352 and that is not an Affiliate of a T&D Entity.

14. **Industrial Consumers.** An industrial consumer is a consumer with at least one meter with average monthly demand greater than 1 megawatt consumed within the ERCOT Region engaged in an industrial process.

15. **Investor Owned Utility ("IOU").**
   a. An investor-held, for-profit "electric utility" as defined in PURA §31.002(6) that (a) operates within the ERCOT Region, (b) owns 345 KV interconnected transmission facilities in the ERCOT Region, (c) owns more than 500 pole miles of transmission facilities in the ERCOT Region, or (d) is an Affiliate of an entity described in (a), (b) or (c);

   b. A public utility holding company of any such electric utility.

16. **Market Participant.** For purposes of these Bylaws, a Market Participant is (i) any entity that engages in any activity that is in whole or in part the subject of the ERCOT Protocols and has, or should have, a contract regarding such activities with ERCOT or (ii) any entity that qualifies for ERCOT membership.

17. **Member.** The Member or the Member’s appointed representative as the context so requires.
18. **Municipal.** An entity operating in the ERCOT Region that owns or controls transmission or distribution facilities, owns or controls dispatchable generating facilities, or provides retail electric service and is either:

   a. a municipally owned utility as defined in PURA §11.003 or
   
   b. a River Authority as defined in Tex. Water Code §30.003.

19. **NERC.** The North American Electric Reliability Corporation, which has been authorized by the Federal Energy Regulatory Commission ("FERC") as the Electric Reliability Organization ("ERO") under the Federal Act.

20. **PUCT.** The Public Utility Commission of Texas, which is the Texas state agency that has responsibility and oversight of the activities conducted by ERCOT.

21. **Reliability Standards.** The standards adopted by NERC which set forth the reliability requirements for planning and operating the North American bulk electric system, as specifically applicable to the ERCOT Region.

22. **Residential Consumers.** The appointed Board Director representing residential consumer interests, an organization or agency representing the interests of residential consumers in the ERCOT Region, or the Residential Consumer Technical Advisory Committee ("TAC") Representative. An entity applying for ERCOT membership as a Residential Consumer is ineligible if that entity has interests in the electric industry in any other capacity than as an end-use consumer or represents the interests of another entity that has interests in the electric industry in any other capacity than as an end-use consumer, such as but not limited to, aggregators, power marketers, retail electric providers, transmission or distribution companies, cooperatives, municipals, or generators. The three Board Consumer Directors have the right to determine by majority vote of the Consumer Directors whether any applicant or member is ineligible, as described above, to become or remain a member of the Consumer Segment.

23. **Segment Alternate.** An elected designated alternate Board representative who can attend meetings in the absence of a Director and vote on the absent Director’s behalf in the event that such Director cannot attend a Board meeting. Each Segment Alternate must meet all qualifications of a Director and shall receive all Board materials.

24. **Texas Regional Entity Division ("TRE").** The functionally separate and independent division of ERCOT that is responsible for performing the activities and functions required: (i) pursuant to the Delegated Authority and (ii) for compliance monitoring and enforcement of the ERCOT Protocols.

25. **Transmission and Distribution Entity.** Any entity that is an IOU, Cooperative or Municipal that owns or controls transmission and/or distribution facilities including at
least 200 pole miles of such facilities in the ERCOT Region or any entity that is a “retail electric utility,” as defined in PURA §37.001, operating in the ERCOT Region.

ARTICLE 3
MEMBERS

Section 3.1 Membership.

(a) Members must qualify in one of the following segments as defined in Article 2:

(1) Cooperative;

(2) Independent Generator;

(3) Independent Power Marketer;

(4) Independent REP (For the purposes of Segment classification, an aggregator, if such Member does not fit in any other classification, shall participate as an Independent REP);

(5) Investor Owned Utility;

(6) Municipal; or,

(7) Consumer – three subsegments: Commercial, Industrial, and Residential. The Commercial Consumer subsegment is further divided into Large and Small Commercial Consumers.

(b) Except for the Consumer Segment, Members must have an actual financial interest in the retail or wholesale electric market in the ERCOT Region and be able to do business in one of these markets. A Member must maintain its registration or certification by the PUCT to the extent it is required to do so by statute or PUCT rule.

(c) The Board may adopt and amend Member application procedures.

Section 3.2 Membership Types and Voting Rights. ERCOT Members may be Corporate Members, Associate Members, or Adjunct Members as hereinafter described:

(a) Corporate Members – shall have the rights and obligations as described in these Bylaws including the right to vote on all matters submitted to the general membership (such as election of Directors, election of TAC Representatives and amendments to the Articles of Incorporation and these Bylaws).

(b) Associate Members – shall have the rights and obligations as described in these Bylaws excluding the right to vote on any matter submitted to the general Membership (such as
election of Directors, election of TAC Representatives and amendments to the Articles of
Incorporation and these Bylaws).

(c) **Adjunct Members** – may be approved for Adjunct Membership by the Board if such
entity does not meet the definitions and requirements to join as a Corporate or Associate
Member. Adjunct Members shall have no right to vote on any matter submitted to the
general Membership nor any right to be elected or appointed to the ERCOT Board, TAC
or any subcommittee of the Board or TAC. Adjunct Members shall be bound by the same
obligations as other Members of ERCOT.

Section 3.3 Obligations of All Members.

(a) Each Member must comply with any applicable planning and operating criteria,
procedures and guides adopted by or under the direction of the Board to maintain electric
system reliability, coordinate planning and promote comparable access to the
transmission system by all users.

(b) Consistent with applicable laws and regulations, Members must share information at
ERCOT’s or TRE’s request as necessary for the furtherance of ERCOT or TRE activity
and consistent with PUCT and NERC rules relating to confidentiality.

Section 3.4 Annual Member Services Fees. ERCOT provides various services, as determined by
the Board, to its Members. In return for such services, each Member shall pay its Annual
Member Services Fees within thirty (30) days after receipt of ERCOT’s annual statement of such
fees. Failure to do so shall constitute such Member as being in arrears. Except as provided below,
Annual Member Service Fees for Corporate Members shall be $2,000. Annual Member Service
Fees for Associate Members shall be $500. Annual Member Service Fees for Adjunct Members
shall be $500. The Annual Member Service Fees for Residential and Commercial Consumer
Members shall be $100 for Corporate Membership and $50 for Associate Membership; provided
that there will be no charge for Annual Member Service Fees for associations that qualify for
Commercial Consumer Membership. Office of Public Utility Counsel (“OPUC”) and the
appointed Residential Consumer TAC Representative(s) shall be eligible to be Corporate
Members without the payment of Annual Member Service Fees. Any Member may request that
the Member’s Annual Member Service Fees be waived for good cause shown.

Section 3.5 Representation. Each Member shall appoint a representative to receive notices from
ERCOT and shall give to the ERCOT Chief Executive Officer (“CEO”) or his designee in
writing (signed by a duly authorized representative of the Member) the name of the person thus
appointed. For Corporate Members, such appointed representative shall also act on behalf of the
Corporate Member at all meetings of the Corporate Members.

Section 3.6 Participation.
(a) No Entity shall simultaneously hold more than one Corporate Membership or more than one Associate Membership. Any Entity may also simultaneously have a maximum of one seat on each of the following: the Board, TAC, and the Regional Standards Committee.

(b) Except for Adjunct Members, Members must qualify for Membership in a Segment. Entities may join ERCOT in any Segment in which they qualify for Membership provided that an Entity may join as a Corporate Member in only one Segment. In the event that an Entity qualifies for more than one Segment, such Entity may join such other Segments as an Associate Member upon payment of the Associate Annual Member Services Fees for each Segment in which such Entity desires to participate as an Associate Member. Once an Entity has elected to be a Corporate Member of a Segment, the Entity must continue to vote in that Segment for a minimum of one (1) year. If, at any point, an Entity no longer meets the qualifications for the Segment so elected, the Entity may not vote in that Segment; however, that Entity may then immediately elect to become a Corporate Member in any Segment for which it does qualify. Except as otherwise provided in these Bylaws, an Associate Member may be selected by the Corporate Members of a Segment in which the Associate Member participates to serve as a voting member of the Board, TAC or any subcommittee of the Board or TAC.

(c) Subject to any specific provisions in these Bylaws or the Articles of Incorporation, each Corporate Member in good standing is entitled to one vote on each matter submitted to a vote of the Corporate Members. A Corporate Member in good standing is one that is not in arrears for payment of its Annual Member Services Fees for a Corporate Membership or payment of any other fees owed to ERCOT unless in good faith disputed, is not in breach of any contract with ERCOT, and is not suspended or expelled as of the record date of the meeting. Corporate Members that are not in good standing are not entitled to vote on any matters until they have regained good standing.

Section 3.7 Meetings of the Corporate Members.

(a) Corporate Members shall meet at least annually on a date and at a place to be established by the Board (“Annual Meeting”). Except for appointed Directors, the representatives of the Corporate Members shall confirm the members of the Board at the Annual Meeting, and conduct such other business as may be properly brought before them.

(b) Special meetings of the Corporate Members may be called by the Board.

(c) Written or printed notice of any meeting of the Corporate Members shall be delivered to each Member at least three weeks prior to the date of the meeting. Notice to Members of such meetings shall be by mail or facsimile. Notice shall include an agenda explaining the purpose of the meeting and any business upon which the Corporate Members will be requested to vote.
(d) The record date for determining Corporate Members entitled to notice shall be on the Friday which is at least thirty days but not more than thirty-six days prior to the meeting date.

(e) Representation at any meeting of ERCOT of at least fifty-one percent (51%) of the Corporate Members, in person or by proxy, shall constitute a quorum for the transaction of business at such meeting. Except as otherwise provided in these Bylaws and in the Texas Regional Entity Standards Development Process, an act of fifty-one percent (51%) of the Corporate Members shall be the act of the Corporate Members.

Section 3.8 Sanction, Suspension, Expulsion, or Termination of Members. No Member, either a Member organization or a Member representative, may be sanctioned, expelled or suspended, and no Membership or Memberships in ERCOT may be terminated or suspended except pursuant to a procedure that is fair and reasonable and is carried out in good faith. The Board may, by resolution, establish a procedure to terminate, expel, suspend, or sanction a Member. In the event that the Board does not adopt procedures, the following procedures shall apply:

Written notice. An intent to terminate, expel or suspend a Member shall be preceded by twenty (20) days written notice of the date when a hearing will be held to determine whether the Member shall be expelled, suspended, terminated or sanctioned. Such notice shall set forth the reasons therefor. Said notice must be given by first class or certified mail sent to the last address of the Member to be expelled, suspended, terminated or sanctioned, as shown in ERCOT's records.

Hearing. An opportunity shall be provided for the Member to be heard, orally and in writing. The Member shall be entitled to have counsel present at and to participate in the hearing at his, her or its own expense, and to present and cross-examine any witnesses. The hearing shall be conducted at the next meeting of the Board for which there is time to give proper notice.

Liability. A Member who has been sanctioned, expelled, terminated or suspended shall be liable to ERCOT for fees as a result of obligations incurred or commitments made prior to sanction, expulsion, termination or suspension.

Challenges. Any proceeding challenging an expulsion, suspension, sanction or termination, including a proceeding in which defective notice is alleged, must be commenced within one year after the effective date of the expulsion, suspension, sanction or termination. Any such proceeding before the Board will be subject to the hearing requirements described in (b) of this section.

Section 3.9 Resignation. Any other provision of these Bylaws notwithstanding, any Member may withdraw from participation in the activities of ERCOT at any time upon written notice to the CEO, whereupon it shall cease to be a Member, shall cease to be entitled or obligated to
participate in the activities of the Board, TAC or any subcommittee of the Board or TAC and shall have no further obligations as a Member; provided, however, that if such notice is given more than thirty (30) days after such Member's receipt of its statement of fees and expenses for a fiscal year, the Member shall be obligated to pay its Annual Member Services Fees for the full fiscal year within which such termination is effective.

Section 3.10 Reinstatement. A former Member may submit a written request for reinstatement of Membership. The Board may choose to reinstate Membership on any reasonable terms that the Board deems appropriate.

Section 3.11 Property Ownership and Control. Subject to applicable laws, rules, regulations, agreements, and ERCOT Protocols, each Member shall retain sole control of its own facilities and the use thereof, and nothing in these Bylaws shall require a Member to construct or dedicate facilities for the benefit of any other electric system or allow its facilities to be used by any other Member, or to construct or provide any facilities for its own use, and nothing herein shall be deemed to impair the ability or right of any Member to take such actions or to fail to act, as it deems necessary or desirable, with respect to the management, extension, construction, maintenance and operation of its own facilities, present and future. A Member has no interest in specific property of ERCOT and waives the right to require a partition of any ERCOT property.

ARTICLE 4
BOARD OF DIRECTORS

Section 4.1 Powers. The affairs of ERCOT shall be managed by the Board, ("Board").

Section 4.2 The Board. The Board shall include a total of sixteen (16) Directors apportioned among the Segments as follows:

(a) One (1) Independent REP and one (1) Segment Alternate
(b) One (1) Independent Generator and one (1) Segment Alternate
(c) One (1) Independent Power Marketer and one (1) Segment Alternate
(d) One (1) IOU and one (1) Segment Alternate
(e) One (1) Municipal and one (1) Segment Alternate
(f) One (1) Cooperative and one (1) Segment Alternate
(g) Three (3) Consumers: the Public Counsel, representing Residential Consumers and Small Commercial Consumers, as an ex officio voting member, one (1) Large Commercial, and one (1) Industrial

(h) Five (5) Unaffiliated Directors

(i) The CEO as an ex officio voting member

(j) The Chair of the PUCT as an ex officio non-voting member

Section 4.3 Selection, Tenure, and Requirements of Directors and Segment Alternates.

(a) Selection of Market Participant Directors and Segment Alternates:

(1) For Consumer Directors, the following shall apply: The Director from the Commercial Consumer subsegment shall be selected by the Large Commercial Consumer Corporate Members and must be an employee of a Large Commercial Consumer which is either a Large Commercial Consumer Member of ERCOT or a member of an organization that is a Large Commercial Consumer Member of ERCOT. If there are no Large Commercial Consumer Corporate Members, then the current Large Commercial Consumer Director shall appoint the Large Commercial Consumer Director. The Industrial Consumer Director shall be elected by the Corporate Members of that subsegment.

(2) Within each Market Participant elected Segment, only Corporate Members of the Membership Segment described for the available Board seat shall be allowed to elect a Director and a Segment Alternate for that seat.

(3) The Board shall establish procedures for the election and appointment of new Directors, Segment Alternates and Representatives of TAC. A Segment may choose an alternate election procedure for the year by an affirmative vote of at least sixty-seven percent (67%) of members of that Segment.

(4) Each Market Participant Director and each Segment Alternate, except as provided above for the Commercial Consumer Director, must be an employee of a Member. Unless otherwise provided in these Bylaws, if an employee of a Member is elected or appointed to serve on the Board, such person is only eligible to serve in such capacity so long as he or she is an employee of the same Member or organization as he or she was at the time of such election or appointment.

(b) Selection of Unaffiliated Directors:

(1) The Nominating Committee shall consist of all of the voting Directors, other than the CEO.
The Nominating Committee shall retain an executive search firm to locate and present candidates with the required qualifications. Qualifications for Unaffiliated Directors shall be as follows:

(i) Experience in one or more of these fields: senior corporate leadership; professional disciplines of finance, accounting, engineering or law; regulation of utilities; risk management; and information technology.

(ii) Independence of any Market Participant in the ERCOT Region. Requirements of such independence include, but are not limited to, the following:

a. Unaffiliated Directors or family members (any spouse, parent, spouse of a parent, child or sibling, including step and adoptive relatives and household member) shall not have current or recent ties (within the last two years) as a director, officer or employee of a Market Participant or its Affiliates.

b. Unaffiliated Directors or family members (any spouse, parent, spouse of a parent, child or sibling, including step and adoptive relatives and household member) shall not have direct business relationships, other than retail customer relationships, with a Market Participant or its Affiliates.

c. To the extent that an Unaffiliated Director or family member (any spouse, parent, spouse of a parent, child or sibling, including step and adoptive relatives) living in the same household or any other household member owns stocks or bonds of Market Participants, these must be divested or placed in a blind trust prior to being seated on the Board.

d. Unaffiliated Directors shall not have any relationship that would interfere with the exercise of independent judgment in carrying out the responsibilities of an ERCOT board member, including the Delegated Authority.

(iii) Residence in the State of Texas preferred.

(iv) Other criteria as approved by the Board.

The Nominating Committee shall interview the qualified candidates and select, by at least a two-thirds majority, an Unaffiliated Director(s) (as such seat is vacant) to present to ERCOT Membership for its approval.
(4) The Membership shall vote by Segment as described in Section 213.1(d) in favor or against the proposed Unaffiliated Director(s) during the same time period as election of the Market Participant Directors. A proposed Unaffiliated Director(s) that is approved by at least four out of seven Segments shall become an Unaffiliated Director(s). Upon approval of the Membership, the proposed Unaffiliated Director(s) shall be filed with the PUCT for approval.

(5) Pending PUCT approval, the Membership-approved Unaffiliated Director(s) shall be seated at the Annual Meeting. Should the PUCT not approve the Unaffiliated Director(s), the seated Director(s) shall remain seated until a new Unaffiliated Director(s) is elected and approved in accordance with the process set forth above.

(c) Terms. The term for all Market Participant Directors shall be for one year. Any Market Participant Director may be reappointed or reelected for consecutive terms. The term for all Unaffiliated Directors shall be staggered three year terms unless changed by Amendment to these Bylaws. An Unaffiliated Director may be reelected for up to two consecutive terms. Notwithstanding the forgoing, in 2005, three of the five Unaffiliated Directors will be seated, serving subject to the final approval of the PUCT. Of these three, one position shall be for a term of two years and two positions shall be for three year terms.

(d) Director Voting Weights. All voting Directors shall have a single vote each.

(e) Alternates and Proxies. Directors serving in Segments with a Segment Alternate may not designate other alternate representatives and may not designate another Director as a proxy unless their Segment Alternate is unavailable. Unaffiliated Directors may designate another Director as a proxy if unable to attend a Board meeting. Consumer and ex officio Directors may designate a proxy or an alternate representative who may attend meetings and vote (if applicable) in the absence of such Director.

Section 4.4 Chair and Vice Chair. Annually, the Board shall elect, from the Board’s membership, by an act of the Board as set forth in Section 4.7, a Chair and a Vice Chair. Beginning no later than September 1, 2006, the Chair shall be one of the Unaffiliated Directors. The CEO shall not be qualified to act as the Vice Chair.

Section 4.5 Vacancies and Removal. A vacancy will occur if the Director elected or appointed is no longer employed by the Entity for which the Director was employed at the time of his/her election or appointment. A vacancy will also occur through any other resignation of a Director from the Board. A Director may be removed with or without cause at any time by whomever had the right to appoint such Director, or if elected, by an affirmative vote of sixty percent (60%) of the Members allowed to elect that Director. In addition, the Board may remove a Director for cause, upon at least seventy-five percent (75%) affirmative votes of the eligible, remaining voting Directors. The right to elect Directors may not be assigned, sold, pledged or transferred in any manner. A vacancy may be filled only by the persons authorized to elect or appoint such
Director. Any Director so chosen shall hold office until his successor is duly elected or appointed and qualified or until his earlier resignation, ineligibility or removal.

Section 4.6 Meetings.

(a) The Board shall meet at least quarterly, with at least one meeting occurring in conjunction with the Annual Meeting of the Members. Additional meetings of the Board shall be held at such time and at such place as may from time to time be determined by the Board. Special meetings of the Board may be called by the Chair, Vice Chair, or the CEO or his designee.

(b) Notice stating the purpose, business to be transacted, place, date and hour of any meeting of the Board or any Board subcommittee where at least one Board Director is present shall be given to each Director and made available electronically to the public on the Internet not less than one week before the date of the meeting; provided, however, the Board may meet on urgent matters on such shorter notice, not less than 2 hours, as the person or persons calling such meeting reasonably may deem necessary or appropriate for urgent matters (emergency conditions threatening public health or safety, or a reasonably unforeseen situation). Notice of the agenda, place, date, and hour of any meeting of the RSC shall be made available electronically to the public on the Internet not less than one week before the day of the meeting; provided however, the RSC may meet on urgent matters on such shorter notice, not less than 2 hours, as the person or persons calling such meeting reasonably may deem necessary or appropriate for urgent matters (emergency conditions threatening public health or safety, or a reasonably unforeseen situation).

(c) The Board and its subcommittees having at least one Director may meet by teleconference to consider urgent matters in accordance with Section 4314.8. The Board must ratify any action taken on notice of less than one week or by teleconference at its next regularly scheduled meeting.

(d) The Board shall promulgate procedures allowing public access to meetings of the Board and Board subcommittees and allowing for members of the public to provide comment on the matters under discussion at public portions of meetings of the Board and subcommittees.

(e) Meetings of the Board or Board subcommittees shall be open to the public provided that the Board or Board subcommittee on which at least one Board Director sits may, at its discretion, exclude any persons who are not Directors from any meeting or portion of any meeting held in Executive Session, including for purposes of voting. An Executive Session shall be held at the discretion of the Board or Board subcommittee for sensitive matters including, but not limited to, confidential personnel information, contracts, lawsuits, deliberation of purchase of real property, competitively sensitive information, deployment or implementation of security devices or other information related to the security of ERCOT's regional electrical network and discussion of any matters on which the Board receives legal advice from its attorney(s) in which the Texas Disciplinary Rules...
of Professional Conduct impose on the attorney(s) a duty to preserve confidentiality, including but not limited to anticipated or pending litigation, administrative agency contested cases, and other regulatory matters.

(f) The Secretary shall keep minutes of every Board meeting.

Section 4.7 Quorum; Action by Directors. Except as may be otherwise specifically provided by law, the Articles of Incorporation or these Bylaws, at all meetings of the Board, fifty percent (50%) of the seated Directors shall constitute a quorum for the transaction of business. The act of at least sixty-seven percent (67%) affirmative votes of the eligible voting Directors shall be the act of the Board, unless the act of a greater number is otherwise required by law, the Articles of Incorporation, or these Bylaws. If a quorum shall not be present at any meeting of the Board, the Directors present may adjourn the meeting.

Section 4.8 Subcommittees. The Board shall confirm the Representatives of TAC and may appoint subcommittees as it deems necessary and appropriate to conduct the business of ERCOT. The designation of subcommittees and the delegation thereto of authority shall not operate to relieve the Board or any individual Director of any responsibility imposed upon it or him by law. Any non-Director who becomes a member of TAC or a subcommittee shall have the same responsibility with respect to TAC or such subcommittee as a Director who is a member thereof.

Section 4.9 Other Appointments. If requested by the North American Electric Reliability Council ("NERC"), the Board shall elect, from among its members, persons to serve on the NERC Stakeholders Committee. The selection of the representatives shall require an act of the Board as set forth in Section 4.7. If more than one representative is requested, such representatives shall be from different Segments.

Section 4.10 Duties. It shall be the duty of the Board to initiate any specific action required, in their opinion, to fulfill the purposes of ERCOT as stated in the Articles of Incorporation, within the limitations of the Articles of Incorporation, applicable law, and these Bylaws. Such action may be taken by the Board, by such subcommittee(s) as may be formed by the Board, the CEO as directed by the Board or by individuals appointed by the Board provided that the following actions of the Board may not be delegated: (a) approval of the Budget (as defined in Section 9.1.3); (b) approval of the employment and terms for the CEO, as well as termination of CEO’s employment; (c) ratification of other officers of ERCOT; (d) annual selection of a qualified public accounting firm ("Auditor") to audit the financial statements of ERCOT; (e) approval of the initiation of any non-routine filing to a regulatory agency that requests regulatory action; and (f) initiation of any lawsuit; and (g) management and oversight of the TRE. The Board shall adopt policies regarding the delegation of the following actions: (a) the acquisition of real property; (b) the sale of ERCOT assets; (c) the execution of contracts; (d) large purchases; and (e) borrowing money or establishing a line of credit in the name of ERCOT.

ARTICLE 5
TECHNICAL ADVISORY COMMITTEE
Section 5.1 TAC Representatives.

(a) For the purposes of this section, membership in the TAC shall be divided in accordance with the definitions of the Segments described in Section 3.1. TAC shall be comprised of the following ("Representatives"): 

(1) Representatives of four Members elected from each of the six Segments listed in Section 3.1.

(2) For the Consumer Segment, Corporate Members of each subsegment shall elect its Representatives. For any subsegment in which there are no Corporate Members, the Consumer Director of that subsegment shall appoint such Representatives. For the Residential, Commercial and Industrial subsegments, the TAC Representative seats are as follows:

(i) Two Representatives of Industrial Consumers
(ii) One Representative of Small Commercial Consumers
(iii) One Representative of Large Commercial Consumers
(iv) One Representative of Residential Consumers
(v) The Public Counsel or his or her designee as an ex officio voting member

(b) Each TAC Representative shall be entitled to one vote on matters submitted to TAC.

(c) Fifty-one percent (51%) of the eligible, seated Representatives of TAC shall constitute a quorum for the transaction of business. Affirmative votes of sixty-seven percent (67%) of the eligible, seated Representatives of TAC shall be the act of TAC.

(d) Each Segment may choose to participate in "Participatory Voting" as described herein. If a Segment chooses to engage in Participatory Voting, each TAC Representative elected by that Segment shall be required to present the decision of the Corporate Members of that Segment. A Corporate Member may delegate an employee or agent other than the Member representative described in Section 3.5 to vote on its behalf for purposes of Participatory Voting. If a Corporate Member of a Segment using Participatory Voting is unable or does not wish to attend a TAC meeting, that Member may deliver a written proxy, at any time prior to the start of the meeting at which it will be voted, to a Participatory Voting delegate of any Member of the same Segment. A Corporate Member delegate in attendance at a TAC meeting may give a written proxy to a Participatory Voting delegate of any Member of the same Segment during such meeting.
(e) All TAC Representatives shall be appointed or elected annually by the Corporate Members of their respective Segments. The term for all TAC Representatives shall be one year. Any TAC Representative may be reappointed or reelected for consecutive terms, without limitation. A vacancy shall be filled by the same means used to elect or appoint the previous TAC Representative. No Entity shall participate in more than one Segment of TAC. The Representatives of TAC shall elect from amongst themselves a Chair and Vice Chair subject to confirmation by the Board.

(f) Each person (other than the Residential Consumers Representative) serving on TAC or any subcommittee thereof must be an employee or agent of a Member. Unless otherwise provided in these Bylaws, if an employee or agent of a Member is elected or appointed to serve on TAC or any subcommittee thereof, such person is only eligible to serve in such capacity so long as he or she is an employee or agent of the same Member as he or she was at the time of such election or appointment.

(g) In the event that a Small Commercial Consumer Representative cannot be identified to serve on TAC, that seat may be filled by any other Commercial Consumer representative appointed by the Consumer Director of the same subsegment provided that such representative represents at least one consumer in the ERCOT Region. Any Representative of the Consumer Segment appointed to TAC by a Consumer Director, if not otherwise a Member of ERCOT, shall be allowed to vote on TAC without the payment of the Annual Member Services Fees. An appointed Commercial Consumer TAC Representative is eligible to serve in such capacity so long as he or she is an employee or representative of the same company as he or she was at the time of such appointment.

Section 5.2 Functions of TAC. TAC shall have the authority to create subcommittees, task forces and study groups (“subcommittees”). TAC shall determine the eligibility requirements, quorum requirements and voting structure for each subcommittee. TAC shall (a) through its subcommittees make such studies and plans as it deems appropriate to accomplish the purposes of ERCOT, the duties of its subcommittees and the policies of the Board, (b) report the results of such studies and plans to the Board as required by the Board, (c) review and coordinate the activities and reports of its subcommittees, (d) make such recommendations to the Board as it deems appropriate or as required by the Board, (e) perform such other duties as directed by the Board and (f) make recommendations regarding ERCOT expenditures and projects. In accordance with ERCOT procedures and applicable law and regulations, certain guidelines, criteria and other actions approved by TAC may be effective upon approval by TAC; provided however, that such actions are reported to the Board for review and nothing herein shall affect the ability of the Board to independently consider such guidelines, criteria and actions, and to take such action with respect thereto as the Board deems appropriate, including revocation and remand with instructions.

Section 5.3 Meetings. TAC and its subcommittees shall meet as often as necessary to perform their duties and functions. All meetings of TAC and its subcommittees shall be called by their respective chairmen and all such meeting notices shall be sent in writing to each member at least
one week prior to the meeting, unless an emergency condition should suggest otherwise (such emergency to be by mutual consent of a majority of the seated Representatives of TAC or subcommittee). Any Member may request notification of any such meetings and may have an employee or a TAC-approved representative for that Member attend as an observer. Each Representative of TAC may designate in writing an alternate representative who may attend meetings in the absence of the Representative and vote on the Representative's behalf.

Section 5.4 Other Appointments. If requested by NERC, TAC shall elect representatives to the various NERC committees and associated subcommittees, task forces, and working groups. The selection of TAC representatives to NERC shall require an act of TAC as set forth in Section 5.1(c). If more than one representative is requested, TAC should consider selecting representatives from different Segments.

ARTICLE 6
CHIEF EXECUTIVE OFFICER
TEXAS REGIONAL ENTITY

Section 6.1 CEO. TRE Responsibilities and Duties. The Board shall hire a CEO who, under the Board’s supervision and direction, shall carry on the general affairs of the ERCOT. The CEO TRE shall be a member of the staff of ERCOT and functionally independent division within ERCOT which shall be a voting Director. It shall be his or her duty to approve the expenditure of the monies appropriated by the Board for proposing, developing, implementing and enforcing Reliability Standards in accordance with the Budget approved by the Board. The CEO shall make an annual report and periodic reports to the Board concerning the activities of ERCOT. The CEO shall serve as President of ERCOT. He or she shall comply with all orders of the Board. All agents and employees shall report, and be responsible, to the CEO. He or she shall perform such other duties as may be determined from time to time by the Board.

Delegated Authority. The TRE shall also be responsible for investigating compliance with and enforcing violations of the ERCOT Protocols (“ERCOT Compliance”), so long as the ERCOT Compliance activities do not conflict with the Delegated Authority. The TRE shall develop policies, processes, standards, and procedures to implement the Delegated Authority and the ERCOT Compliance activities. The TRE shall form a Reliability Standards Committee (“RSC”), comprised of members from all ERCOT Segments, to propose, receive, consider, authorize, and vote on Reliability Standards and Reliability Variances, in accordance with the Texas Regional Entity Standards Development Process and procedures. All proposed ERCOT-specific Reliability Standards and Reliability Variances requests must be approved by the Board, prior to being submitted to NERC.

Section 6.2 TRE Independence. The TRE and its employees shall function independently of the other divisions, departments and employees of ERCOT. TRE employees shall be responsible for creating and monitoring a separate budget to be submitted to the Board for approval and then to
the North American Electric Reliability Corporation ("NERC") for approval, pursuant to a Delegation Agreement ("TRE Budget"). The portion of the TRE Budget which is for activities that are not related to the Delegated Authority but are for ERCOT Compliance activities will be approved by the PUCT. Except for ERCOT Compliance activities and any extraordinary activities that are specifically approved by NERC in the TRE Budget, the TRE shall be funded separately by NERC. The TRE shall (i) maintain separate books and records to account for its finances, separating income and expenditures for the Delegated Authority and the ERCOT Compliance Activities and (ii) pay a fair market rate for any goods and services obtained from ERCOT, or if a fair market rate is not readily determinable without undue effort or expense, at least the out-of-pocket cost incurred by ERCOT in respect thereof. The ERCOT acknowledges that the TRE Chief Compliance Officer and the TRE staff will conduct investigations into and will prosecute enforcement actions regarding the matters within the scope of the TRE’s responsibilities and duties, including investigations and prosecutions of ERCOT.

Section 6.3 TRE Management. The business and affairs of the TRE shall be managed directly by the Board, or a subcommittee thereof, to insure independence of the TRE from the other ERCOT operations and activities, including the ERCOT Independent System Operator functions. The Board shall hire a Chief Compliance Officer ("CCO") who, under its supervision and direction, shall carry on the general affairs of the TRE as the chief executive officer. The CCO shall be independent of any market participant, and shall be an independent member of the staff of ERCOT, reporting exclusively to the Board. The Board shall only hire a CCO after consulting the PUCT Commissioners and Executive Director, and obtaining the approval of the PUCT Executive Director. The Board may also appoint a financial director, who will report to the CCO, with responsibility for overseeing the budgeting, finance and accounting functions necessary for the independent operation of the TRE. The TRE may retain outside advisors as it deems necessary. The CCO shall have the sole authority to retain or terminate such outside counsel and other advisors as the CCO may deem appropriate in his or her sole discretion. The CCO shall have the sole authority to approve related fees and retention terms for such advisors, in accordance with the TRE Budget. The CCO shall make an annual report and periodic reports to the Board concerning the activities and expenditures of the TRE, and the TRE shall have its separate financial statements reviewed or audited annually. The CCO shall ensure that the TRE files all required reports with NERC. CCO shall, in cooperation with the financial director of the TRE, monitor the expenditure of the monies received by the TRE to ensure that such are deployed in accordance with the TRE Budget, as approved by the Board and NERC.

Section 6.4 TRE Employees. To the fullest extent practicable under applicable law, the TRE and the CCO shall be responsible for hiring, firing and compensating all TRE employees. TRE employees shall be compensated from the TRE budget. If permissible, and consistent with the Board’s and CCO’s compensation policies for the TRE employees, such employees may participate in insurance and other benefits extended to ERCOT employees, provided that the TRE reimburses ERCOT for the full cost of providing such benefits. The TRE is authorized to employ attorneys, and all such attorneys shall report to the CCO and shall have ethical and other obligations solely to the TRE and not to ERCOT. Such attorneys are expressly authorized and required to provide advice to the CCO and TRE regarding the Delegated Authority and ERCOT Compliance activities, including investigations and enforcement actions involving ERCOT.
Such attorneys are specifically authorized to assist with the prosecution of enforcement actions relating to the Delegated Authority or ERCOT Compliance activities.

Section 6.5 Evaluation of TRE Performance. The Board shall monitor the TRE and CCO’s performance, establish and review the CCO’s compensation and provide annual, or at its election, more frequent, evaluations. The Board may receive and will consider input from the PUCT regarding the compliance and enforcement activities of the CCO and the TRE. It shall be the CCO’s duty, in cooperation with the financial director of the TRE, to monitor the expenditure of the monies received by the TRE to ensure that such are deployed in accordance with the TRE Budget, as approved by the Board, PUCT and NERC. The Board will consider input from the PUCT regarding the compliance and enforcement activities and performance of the CCO and TRE. Neither the CCO nor any TRE employee may be retaliated against by ERCOT or its Board for investigating or participating in any enforcement activities pursuant to the Delegated Authority. The Board may not terminate, discipline, or demote the CCO or any TRE employees, advisors or contractors because of compliance or enforcement activities conducted in good faith.

ARTICLE 7
CHIEF EXECUTIVE OFFICERS

Section 7.1 CEO. The Board shall hire a Chief Executive Officer ("CEO") who, under the Board’s supervision and direction shall carry on the general affairs of ERCOT. The CEO shall be a member of the staff of ERCOT and shall be a voting Director. It shall be his or her duty to approve the expenditure of the monies appropriated by the Board in accordance with the Budget approved by the Board. The CEO shall make an annual report and periodic reports to the Board concerning the activities of ERCOT. The CEO shall serve as President of ERCOT. He or she shall comply with all orders of the Board. All agents and employees of ERCOT shall report, and be responsible, to the CEO, except for the CCO and other employees, contractors, and advisors of the TRE. The CEO shall perform such other duties as may be determined from time to time by the Board.

Section 7.2 CCO. The Board shall hire a Chief Compliance Officer ("CCO") who, under the Board’s supervision and direction shall carry on the affairs of the TRE. The CCO shall comply with all orders of the Board and will coordinate with the NERC regarding activities relating to the Delegated Authority and with PUCT regarding ERCOT Compliance activities. All employees and contractors of the TRE shall report and be responsible, to the CCO. The CCO shall be responsible for employment-related decisions for all employees of the TRE that are not appointed by the Board and shall provide input to the Board with respect to TRE employees appointed by the Board. The CCO shall perform such other duties as may be determined from time to time by the Board, for the benefit of the TRE. The Board may only terminate, discipline, not renew, or demote the CCO after consulting the PUCT Commissioners and Executive Director, and obtaining the approval of the PUCT Executive Director.
ARTICLE 8
OFFICERS

Section 38.1 General. The officers of ERCOT shall consist of a President, one or more Vice Presidents, a Secretary, a CCO of the TRE, and such officers and assistant officers as the Board may create. The CEO shall serve as President of ERCOT. Any two (2) or more offices may be held by the same person, except the offices of President and Secretary or CCO. A subcommittee duly designated may perform the functions of any officer and the functions of two or more officers may be performed by a single subcommittee.

Section 38.2 Tenure. The CEO of ERCOT and the CCO of TRE shall be elected and the other officers of ERCOT shall be ratified by the Board at such time and in such manner and for such a term not exceeding one (1) one year, as shall be determined from time to time by the Board. Any officer may be re-elected or re-ratified for consecutive terms, without limitation. All officers of ERCOT shall hold office until their successors are chosen and qualified or until their earlier resignation or removal. Any officer elected or appointed may be removed by the persons authorized to elect or appoint such officer whenever in their judgment the best interests of ERCOT will be served thereby.

ARTICLE 89
TRANSACTIONS OF CORPORATION

Section 89.1 Deposits and Checks. All of ERCOT’s funds will be deposited to the credit of ERCOT in banks, trust companies, or other depositaries that the Board approves.

Section 89.2 Potential Conflicts of Interest.

Each Director, TAC Representative and subcommittee member shall have an affirmative duty to disclose to the Board, TAC or subcommittee (as the case may be) any actual or potential conflicts of interest of the Director, TAC Representative or subcommittee member or his employer where, and to the extent that, such conflicts or potential conflicts directly or indirectly affect any matter that comes before the Board, TAC or subcommittee, as the case may be. A Director with a direct interest in a matter, personally or via his employer, or by having a substantial financial interest in a person with a direct interest in a matter, shall recuse himself from deliberations and actions on the matter in which the conflict arises and shall abstain on any vote on the matter and not otherwise participate in a decision on the matter. A direct interest is a specific interest of a person or entity in a particular matter, provided that an interest that is common to entities in a Director’s Market Segment or a general interest of some or all Market Participant Directors in a matter does not constitute direct interest. Any disclosure of a direct interest by a Director shall be noted in the minutes of the Board meeting at which the direct interest is disclosed. Mere attendance at the meeting, without participating in discussion of the issue raising the potential conflict, shall not constitute participation.
ERCOT may not make any loan to a Director or officer of ERCOT. A Member, Director, TAC Representative, officer, or subcommittee member of ERCOT may lend money to, and otherwise transact business with, ERCOT except as otherwise provided by these Bylaws, the Articles of Incorporation, and applicable law. Such a person transacting business with ERCOT has the same rights and obligations relating to those matters as other persons transacting business with ERCOT. ERCOT may not borrow money from, or otherwise transact business with, a Member, Director, TAC Representative, officer, or subcommittee member of ERCOT unless the transaction is described fully in a legally binding instrument and is in ERCOT's best interests. ERCOT may not borrow money from, or otherwise transact business with, a Member, Director, officer, TAC Representative or subcommittee member of ERCOT without full disclosure of all relevant facts and without the Board's approval, not including the vote of any person having a personal interest in the transaction.

Section 89.3 Prohibited Acts. As long as ERCOT exists, no Member, Director, officer, or subcommittee member of ERCOT may:

(a) Do any act in violation of these Bylaws.

(b) Do any act in violation of a binding obligation of ERCOT except with the Board's prior approval.

(c) Do any act with the intention of harming ERCOT or any of its operations.

(d) Receive an improper personal benefit from the operation of ERCOT.

(e) Use ERCOT's assets, directly or indirectly, for any purpose other than carrying on ERCOT's business.

(f) Wrongfully transfer or dispose of ERCOT property, including intangible property such as good will.

(g) Use ERCOT's name (or any substantially similar name) or any trademark or trade name adopted by ERCOT, except on behalf of ERCOT in the ordinary course of its business or as a reference to the ERCOT region.

(h) Disclose any of ERCOT's or Members' business practices, trade secrets, or any other confidential or proprietary information not generally known to the business community to any person not authorized to receive it.

(i) Take any action, without written notice to Members and reasonable time for Members to respond, that would cause another ERCOT Member that is not a "public utility" under the Federal Power Act or ERCOT itself to become a "public utility" under the Federal Energy Regulatory Commission ("FERC") rules or become subject to any plenary jurisdiction of FERC.
Violations of these prohibited acts may lead to sanction, suspension, expulsion or termination after a hearing as described in Article 3 of these Bylaws.

ARTICLE 910
EXPENSES, BOOKS AND RECORDS

Section 910.1 Member Representatives' Expenses and Compensation of Certain Directors and TAC Representatives.

(a) Except as described below, ERCOT shall not bear the personal and travel expenses of each person who serves as a representative of a Member or as a Director, TAC Representative or subcommittee member. Except as provided below, no such person shall receive any salary or other compensation from ERCOT.

(b) The Board shall have the authority to fix the compensation of its Unaffiliated Directors who may be paid a fixed sum plus travel expenses for attendance at each meeting of the Board, or a stated compensation as a member thereof, or any combination of the foregoing. Unaffiliated Directors, who are members of standing or special committees, may be allowed like compensation and travel expenses for attending committee meetings. Unaffiliated Directors and Consumer Directors may be reimbursed for registration, travel, lodging and related expenses for training activities.

(c) The Board shall fix the compensation for the appointed Residential Consumer TAC Representative for attendance at each meeting of the Board, TAC, TNT, or any standing or special committee of such on an annual basis. Any Residential Consumer TAC Representative shall not be an agent of ERCOT for any purpose and shall not be considered to be serving at ERCOT's request, even though compensated by ERCOT.

Section 910.2 ERCOT Expenses. The expenses of ERCOT shall include, but not be limited to, administrative expenses, operational costs and debt service. The expenses of the TRE shall be accounted for separately.

Section 910.3 Budget. A budget (the "Budget") for ERCOT for the ensuing fiscal year shall be adopted by the Board. The Budget, including cost of liability insurance, for ERCOT for each fiscal year shall be compiled by the CEO and submitted to the Board. To be effective, the Budget must be approved by an act of the Board as set forth in Section 4.7. The representatives of each Member shall be promptly notified of the Budget following adoption of the Budget by the Board. A separate budget for the TRE ("TRE Budget") shall be prepared each fiscal year, in accordance with the Delegation Agreement.

Section 910.4 Loans and Guarantees. Neither participation in the activities of ERCOT nor any provision of these Bylaws or of the Articles of Incorporation shall be deemed to constitute a pledge or loan of the credit of any Member for the benefit of ERCOT or a guarantee by any Member of any obligation of ERCOT.
**Section 910.5 Access to Books and Records.** All Members of ERCOT will have access to the books and records of the organization, including financial statements and budgets; however, the Board shall establish procedures by which a Member, upon written demand stating the purpose of the demand may examine and copy the books and records of ERCOT. If necessary to protect the confidential information of ERCOT, a Member requesting examination of ERCOT’s books and records may be required to sign a confidentiality and non-disclosure agreement before viewing such information. The procedures shall include policies that provide reasonable protection against the unnecessary disclosure of information related to individual employees, including their compensation.

**Section 910.6 Audit.** At least annually, an audit of the financial statements of ERCOT shall be performed by the Auditor approved by the Board. In addition, the separate financial statements of the TRE will be reviewed or audited annually. The Auditor’s opinion and the audited financial statements will be made available to all Members as described in Section 910.5.

**Section 910.7 Fiscal Year.** The fiscal year of ERCOT shall be from January 1 through the following December 31, or as otherwise fixed by resolution of the Board.

**ARTICLE 1011 INDEMNIFICATION**

**Section 1011.1 Indemnification.** EACH PERSON WHO AT ANY TIME SHALL SERVE, OR SHALL HAVE SERVED, AS A DIRECTOR, OFFICER, EMPLOYEE OR AGENT OF ERCOT, OR ANY PERSON WHO, WHILE A DIRECTOR, OFFICER, EMPLOYEE OR AGENT OF ERCOT, IS OR WAS SERVING AT ITS REQUEST AS A DIRECTOR, OFFICER, PARTNER, VENTURER, PROPRIETOR, TRUSTEE, EMPLOYEE, AGENT OR SIMILAR FUNCTIONARY OF ANOTHER FOREIGN OR DOMESTIC CORPORATION, PARTNERSHIP, JOINT VENTURE, SOLE PROPRIETORSHIP, TRUST, EMPLOYEE BENEFIT PLAN OR OTHER ENTERPRISE, SHALL BE ENTITLED TO INDEMNIFICATION AS, AND TO THE FULLEST EXTENT, PERMITTED BY ARTICLE 1396-2.22A OF THE TEXAS NON-PROFIT CORPORATION ACT OR ANY SUCCESSOR STATUTORY PROVISION, AS FROM TIME TO TIME AMENDED, SUCH ARTICLE OR SUCCESSOR PROVISION, AS SO AMENDED, BEING INCORPORATED IN FULL IN THESE BYLAWS BY REFERENCE. THE FOREGOING RIGHT OF INDEMNIFICATION SHALL NOT BE DEEMED EXCLUSIVE OF ANY OTHER RIGHTS TO WHICH THOSE TO BE INDEMNIFIED MAY BE ENTITLED AS A MATTER OF LAW OR UNDER ANY AGREEMENT, VOTE OF DISINTERESTED DIRECTORS, OR OTHER ARRANGEMENT.

**ARTICLE 1112 NOTICES**

**Section 1112.1 Form.** Unless otherwise provided in these Bylaws, any notice required by these Bylaws to be given to a Member, Director, committee or subcommittee member, TAC Representative, member of a subcommittee of TAC, or officer of ERCOT must be given by at least two of the following methods: mail, facsimile, email, or website posting. If mailed, a notice...
is deemed delivered when deposited in the mail addressed to the person at his or her address as it appears on the corporate records, with postage prepaid. A person may change his or her address in the corporate records by giving written notice of the change to the CEO.

| Section 4412.2 Signed Waiver of Notice. Whenever any notice is required by law or under ERCOT's Articles of Incorporation or these Bylaws, a written waiver signed by the person entitled to receive such notice is considered the equivalent to giving the required notice. A waiver of notice is effective whether signed before or after the time stated in the notice that was to be given. |

| Section 4412.3 Waiver of Notice by Attendance at a Meeting. Attendance at a meeting shall constitute a waiver of notice of such meeting, except where attendance is for the express purpose of objecting to the transaction of any business on the ground that the meeting is not lawfully called or convened. |

| Section 4412.4 Objection. If any person, who is a voting member of a group holding a meeting, reasonably objects to the transaction of business regarding a specific issue, or issues, at a meeting on the grounds that the meeting is not properly called or convened or that the issue, or issues, was improperly noticed, the issue or issues in question may not be addressed at that meeting. The Chair of such meeting shall determine if such objection is reasonable. |

ARTICLE 4213
AMENDMENTS

| Section 4213.1 Amendments to these Bylaws. Subject to the provision that no amendment to these Bylaws may limit the rights of a Member to resign from Membership, these Bylaws may be amended, altered, or repealed by the voting Segments through the following procedure: |

| (a) Any Corporate Member suggesting amendments to these Bylaws must submit a proposal of the amendment, including any necessary supporting documents, to the CEO. |

| (b) The CEO shall place the proposal on the agenda for a Board meeting in the time and manner prescribed by the Board. |

| (c) If the proposal is approved by an act of the Board as set forth in Section 4.7, the Board shall place the proposal on the agenda of the next Annual Meeting of the Corporate Members unless the Board in its discretion calls a Special Meeting of the Corporate Members to vote on the proposal or determines to seek Membership approval without a meeting as provided in Section 4314.8. |

| (d) Corporate Members must vote to enact the Board-approved amendment by the following voting procedure: |

| (1) For the purposes of voting on Bylaws, each Segment shall have one whole vote. |
(2) Except for the Consumer Segment, an affirmative vote of at least two-thirds of the Corporate Members of a Segment present constitutes an affirmative vote by that Segment.

(3) For purposes of voting on Bylaws amendments, the Consumer Segment shall be subdivided into the following Consumer subgroups:

(i) Residential Consumers
(ii) Commercial Consumers
(iii) Industrial Consumers

An affirmative vote of the majority of the Corporate Members within a Consumer subgroup shall constitute an affirmative vote of that subgroup. An affirmative vote of at least two of the three Consumer subgroups shall constitute an affirmative vote of the Consumer Segment.

(4) An affirmative vote by at least four of the seven Segments shall be necessary to amend these Bylaws. If permission for any amendment is required by NERC or FERC under the Delegation Agreement, the required permission must be obtained before such amendment is effective.

Section 1213.2 Amendments to the Articles of Incorporation. In accordance with the procedures set forth in Article 1396-4.02 of the Texas Non-Profit Corporation Act, an affirmative vote of at least two-thirds of all Corporate Members shall be required to amend the Articles of Incorporation.

ARTICLE 1314
MISCELLANEOUS PROVISIONS

Section 1314.1 Legal Authorities Governing Construction of Bylaws. These Bylaws shall be construed under Texas law. All references in these Bylaws to statutes, regulations, or other sources of legal authority will refer to the authorities cited, or their successors, as they may be amended from time to time.

Section 1314.2 Legal Construction. Any question as to the application or interpretation of any provision of these Bylaws shall be resolved by the Board. To the greatest extent possible, these Bylaws shall be construed to conform to all legal requirements and all requirements for obtaining and maintaining all tax exemptions that may be available to nonprofit corporations. If any Bylaw provision is held invalid, illegal, or unenforceable in any respect, the invalidity, illegality, or unenforceability will not affect any other provision, and these Bylaws will be construed as if they had not included the invalid, illegal, or unenforceable provision.
Section 1314.3 Headings. The headings used in these Bylaws are for convenience and may not be considered in construing these Bylaws.

Section 1314.4 Number and Gender. All singular words include the plural, and all plural words include the singular. All pronouns of one gender include reference to the other gender.

Section 1314.5 Parties Bound. These Bylaws will bind and inure to the benefit of the Members, Directors, TAC Representatives, officers, subcommittee members, employees, and agents of ERCOT and their respective administrators, legal representatives, successors, and assigns except as these Bylaws otherwise provide.

Section 1314.6 Quorum, Proxies and Seated Members. Written proxies may be used for meetings of the Board, TAC or any subcommittees of the Board or TAC in accordance with any relevant provisions in these Bylaws and the Texas Non Profit Corporation Act. For any meeting of the Board, TAC or any subcommittee of the Board or TAC, a Segment Alternate or designated alternate representative, where permitted by these Bylaws, attending in place of a member shall be counted towards a quorum, while proxies shall not be counted towards a quorum. For any meeting of the Corporate Members, proxies shall count towards a quorum. "Seated" members of the Board, TAC, and subcommittees shall mean members, or their designated alternate representatives when serving in their stead (if applicable), that are currently serving, having been selected in accordance with these Bylaws, regardless of attendance at meetings. Vacant positions shall not be considered "Seated" members.

Section 1314.7 Abstentions. For purposes of voting on the Board or TAC, Directors or TAC Representatives who abstain from voting shall not have their votes included in the total number of votes from which the requisite percentage of affirmative votes is required for action. In the event of such abstentions, however, for a vote to become an act of the Board or TAC, there must be an affirmative vote of (i) the requisite percentage of the remaining non-abstaining votes of seated members and (ii) at least 50% of the total members. Absentees do not affect calculation of a quorum. Absences do not decrease the number of votes required for action.

Section 1314.8 Actions Without a Meeting and Meetings by Telephone. Unless otherwise provided by law, any action required or permitted to be taken at any meeting of the Corporate Members, TAC Representatives or any subcommittee of TAC may be taken without a meeting, if a consent in writing, setting forth the action to be taken, is signed by a sufficient number of Corporate Members, TAC Representatives or subcommittee members as would be necessary to take that action at a meeting at which all of the Corporate Members or subcommittee members were present and voted. Corporate Members, Directors (for urgent matters in accordance with Section 4.6), TAC Representatives or subcommittee members may participate in and hold a meeting by means of a conference telephone or other similar communications equipment by means of which all persons participating in the meeting can hear each other, and participation in a meeting pursuant to this Section shall constitute presence in person at such meeting, except where a person participates in the meeting for the express purpose of objecting to the transaction of any business on the ground that the meeting is not lawfully called or convened.
Section 1314.9 Effective Date. The effective date of these Amended and Restated Bylaws is May 15, 2006, provided that the Board may implement transition procedures before the effective date in order to ensure a smooth transition to the structure described in these Bylaws.

000036
The North American Electric Reliability Corporation ("NERC"), in compliance with paragraph 5 of the Commission's Order issued April 19, 2007 in this docket\(^1\), submits its executed delegation agreement with the Texas Regional Entity ("TRE"), a Division of the Electric Reliability Council of Texas ("ERCOT"). In paragraph 5, the Commission directed NERC to file, within 30 days, its executed delegation agreement with the TRE. Paragraph 5 also stated that the executed delegation agreements will become effective upon filing with the Commission. In addition, NERC is requesting approval of a revised version of Exhibit B to the delegation agreement with TRE from the version of Exhibit B that was filed with the Commission on November 29, 2006. Exhibit B to the delegation agreement has been revised to be consistent with the bylaws of ERCOT that were approved by the ERCOT Board on May 16, 2007.

I. **COMPLIANCE FILING OF DELEGATION AGREEMENT WITH TRE**

Attachment 1 to this filing is the executed delegation agreement between NERC and TRE, dated May 16, 2007, with Exhibits A through E. The delegation agreement and Exhibits A and C through E are identical to the proposed delegation agreement and exhibits that NERC originally filed with the Commission on November 29, 2006. As discussed in section II below, Exhibit B has been revised from the version filed on November 29, 2006, to be consistent with bylaws of ERCOT that were approved by the ERCOT Board on May 16, 2007.

In the April 19 Order, the Commission directed that several changes be made to the delegation agreement between NERC and TRE, and also directed that changes be made to NERC's *pro forma* delegation agreement and to NERC's Compliance Monitoring and

\(^1\) *Delegation Agreement Between the North American Electric Reliability Corporation and Texas Regional Entity, a Division of ERCOT*, 119 FERC ¶61,060 (2007) ("April 19 Order").
Enforcement Program (which is to be adopted in each regional entity delegation agreement subject to such deviations as are set forth in Exhibit D to the delegation agreement and approved by the Commission). NERC and TRE (and, with respect to those changes directed by the Commission that are of general applicability, the other regional entities) are working to implement the changes ordered by the Commission. As directed in paragraph 5 of the April 19 Order, NERC will file a complete set of responsive filings, including a revised delegation agreement with TRE, by October 16, 2007 (i.e., 180 days following the April 19 Order).

II. REQUEST FOR APPROVAL OF REVISED EXHIBIT B TO AGREEMENT

NERC also requests approval of revised Exhibit B to the delegation agreement with TRE, which differs in several respects from Exhibit B to the proposed delegation agreement with TRE that was filed with the Commission on November 29, 2006. Attachment 2 is a redlined version of Exhibit B showing the changes from the Exhibit B that was filed with the Commission on November 29, 2006.

Exhibit B to the delegation agreement as filed with the Commission on November 29, 2006, was based on amended and restated ERCOT bylaws that provided for creation and operation of TRE as a division of ERCOT. (Those amended and restated ERCOT bylaws were included as TRE supplemental information in the November 29, 2006 filing.) As of November 29, 2006, the amended and restated ERCOT bylaws had not been approved by the ERCOT Board, membership or (as required for ERCOT) the Public Utility Commission of Texas ("PUCT"). The amended and restated ERCOT bylaws were approved by the ERCOT Board on May 16, 2007, with several changes from the ERCOT bylaws included with the November 29, 2006 filing. Those changes are reflected in Exhibit B to the TRE delegation agreement submitted with this filing. ERCOT is submitting the amended and restated bylaws for approval
of its membership at a special meeting called for June 22, 2007. Assuming membership approval is obtained, ERCOT will then submit the amended and restated bylaws to the PUCT for approval. NERC will make a supplemental filing in this docket to advise the Commission when the amended and restated ERCOT bylaws have been approved by the ERCOT membership and the PUCT.

The changes to the amended and restated ERCOT bylaws from those included with the November 29, 2006 filing are minor and technical in nature, and do not affect the compliance of ERCOT and the TRE with the governance requirements of the pro forma delegation agreement. Following are the changed provisions as reflected in revised Exhibit B (as noted above, these changes are shown in redline on Attachment 2 to this filing):

- On page 2 of Exhibit B, under Criterion 2, in Section 6.1 of the ERCOT bylaws, the word “authorize” has been added. (“The TRE shall form a Reliability Standards Committee (“RSC”), comprised of members from all ERCOT Segments, to propose, receive, consider, authorize, and vote on Reliability Standards and Reliability Variances, in accordance with the Texas Regional Entity Standards Development Process and procedures.”)

- On page 3 of Exhibit B, under Criterion 2, in Section 6.3 of the ERCOT bylaws, the words “who will report to the CCO” have been added with reference to the financial director of TRE. (“The Board may also appoint a financial director who will report to the CCO, with responsibility for overseeing the budgeting, finance and accounting functions necessary for the independent operation of the TRE.”)

- On page 6 of Exhibit B, under Criterion 3, in Section 3.4 of the ERCOT bylaws (regarding Annual Member Service Fees), the following sentence has been added: “Any Member may request that the Member’s Annual Member Service Fees be waived for good cause shown.”

NERC believes that with these revisions to the ERCOT bylaws, the TRE continues to meet the governance requirements for receiving a delegation of authority from NERC, including in particular the governance requirements specified in Criterion 2 and Criterion 3 of Exhibit B to the pro forma delegation agreement.
Accordingly, NERC respectfully requests the Commission (i) to accept this filing as compliance with paragraph 5 of the April 19 Order, and (ii) to approve revised Exhibit B to the delegation agreement between NERC and TRE.

Respectfully submitted,

/s/ Rick Serael

Attorney for
North American Electric Reliability Corporation
DELEGATION AGREEMENT BETWEEN
NORTH AMERICAN ELECTRIC RELIABILITY CORPORATION
AND TEXAS REGIONAL ENTITY – A DIVISION OF ELECTRIC RELIABILITY
COUNCIL OF TEXAS, INC.

DELEGATION AGREEMENT ("Agreement") made this 16th day of May 2007,
between the North American Electric Reliability Corporation ("NERC"), an organization
certified by the Federal Energy Regulatory Commission ("Commission") pursuant to Section
215(c) of the Federal Power Act to establish and enforce Reliability Standards for the bulk power
system, and the Texas Regional Entity – a Division of Electric Reliability Council of Texas, Inc.
("Texas RE"), an organization established to develop and enforce Reliability Standards within
the geographic boundaries identified on Exhibit A to this Agreement, and for other purposes.
NERC and Texas RE may be individually referred to herein as "Party" or collectively as
"Parties."

WITNESSETH

WHEREAS, Subtitle A of the Electricity Modernization Act of 2005 added Section 215
to the Federal Power Act (16 U.S.C. § 824n) (hereafter "the Act") and, among other things,
provides for the establishment of an electric reliability organization ("ERO") to develop and
enforce Reliability Standards applicable to all owners, operators, and users of the bulk power
system;

WHEREAS, the Commission has adopted regulations for the implementation of the Act
set forth at Chapter I, Title 18, Code of Federal Regulations, Part 39, as adopted by Commission
Order No. 672 in Docket No. RM05-30-000 on February 3, 2006; (114 FERC ¶ 61,104;
hereafter "Order 672");

WHEREAS, the Commission has certified NERC as the ERO that will, in accordance
with the Act, establish and enforce Reliability Standards for the bulk power system, subject to
certain delegation provisions described below;
WHEREAS, the Act recognizes the international interdependency of electric reliability within North America and envisions the ERO and such applicable Regional Entities as international organizations;

WHEREAS, the Act and Section 39.8 of the Commission’s regulations provide for the delegation by the ERO of authority to propose and enforce Reliability Standards to regional entities such as Texas RE provided that:

(A) The Regional Entity is governed by —
   (i) an independent board;
   (ii) a balanced stakeholder board; or
   (iii) a combination independent and balanced stakeholder board.

(B) The Regional Entity otherwise satisfies the provisions of Section 215(c)(1) and (2) of the Act; and

(C) The agreement promotes effective and efficient administration of bulk power system reliability;

WHEREAS, certain Regional Entities are organized on an Interconnection-wide basis and are therefore entitled to the presumption set forth in the Act that: “[t]he ERO and the Commission shall rebuttably presume that a proposal for delegation to a Regional Entity organized on an Interconnection-wide basis promotes effective and efficient administration of bulk power system reliability and should be approved”;

WHEREAS, the Act further provides that the ERO shall rebuttably presume that a proposal from a Regional Entity organized on an Interconnection-wide basis for a Reliability Standard or modification to a Reliability Standard to be applicable on an Interconnection-wide basis is just, reasonable, and not unduly discriminatory or preferential, and in the public interest;

WHEREAS, Texas RE is organized on an Interconnection-wide basis and therefore is entitled to the rebuttable presumptions accorded such an entity;
WHEREAS, NERC will work through Texas RE to carry out certain of its activities in furtherance of its responsibilities as the electric reliability organization under the Act; and

WHEREAS, NERC has concluded that Texas RE meets all requirements of the Act, the Commission’s regulations, and the NERC Rules of Procedure as approved by the Commission (“NERC Rules”) necessary to qualify for delegation;

NOW, THEREFORE, in consideration of the mutual covenants and agreements herein contained, NERC and Texas RE, agree as follows:

1. **Definitions.** The capitalized terms used in this Agreement shall be defined as set forth in the Act, the Commission’s regulations, or the NERC Rules or, if not so defined, shall be defined as follows:

   (a) **Breach** means (i) the failure of a Party to perform or observe any material term, condition or covenant of the Agreement or (ii) a representation in Section 2 of the Agreement shall have become materially untrue.

   (b) **Cross-Border Regional Entity** means a Regional Entity that encompasses a part of the United States and a part of Canada or Mexico.

   (c) **Delegated Authority** means the authority delegated by NERC to Texas RE to propose and enforce Reliability Standards pursuant to the Act.

   (d) **Texas RE Rules** means the bylaws, a rule of procedure or other organizational rule or protocol of Texas RE.

   (e) **Reliability Standard** means a requirement approved by the Commission under Section 215 of the Federal Power Act to provide for reliable operation of the bulk power system. The term includes requirements for the operation of existing bulk power system facilities, including cyber security protection, and the design of planned additions or modifications to such facilities to the extent necessary for reliable operation of the bulk power system; but the term does not include any requirement to enlarge such facilities or to construct new transmission capacity or generation capacity.
2. **Representations.**

   (a) For purposes of its Delegated Authority, Texas RE hereby represents and warrants to NERC that:

   (i) Texas RE is and shall remain during the term of this Agreement validly existing and in good standing pursuant to all applicable laws relevant to this Agreement and that no applicable law, contract or other legal obligation prevents it from executing this Agreement and fulfilling its obligations hereunder. Texas RE is governed in accordance with its bylaws by a combination independent and balanced stakeholder board. Pursuant to these bylaws, no two industry sectors can control any Texas RE decision and no single industry sector can veto any Texas RE decision. The relevant portions of such bylaws are attached hereto as Exhibit B\(^1\), and as so attached are in full force and effect. No other such corporate governance documents are binding upon Texas RE.

   (ii) As set forth in Exhibit C hereto\(^2\), Texas RE has developed a standards development procedure, which provides the process that Texas RE may use to develop Regional Reliability Standards and Regional Variances that are proposed to NERC for adoption.

   (iii) As set forth in Exhibit D hereto\(^3\), Texas RE has developed a regional compliance enforcement program, which provides for the enforcement of Reliability Standards within its geographic boundaries.

   (b) NERC hereby represents and warrants to Texas RE that:

   (i) It is and shall remain during the term of this Agreement validly existing and in good standing pursuant all applicable laws relevant to this Agreement and that no applicable law, contract or other legal obligation prevents it from executing this Agreement and fulfilling its obligations hereunder; and

   (ii) It has been certified as the ERO by the Commission pursuant to the Act.

---

\(^1\) The Exhibit B from each Regional Entity shall meet the requirements contained in Exhibit B to this pro forma Agreement.

\(^2\) The Exhibit C from each Regional Entity shall meet the requirements contained in Exhibit C to this pro forma Agreement.

\(^3\) The Exhibit D from each Regional Entity shall meet the requirements contained in Exhibit D to this pro forma Agreement.
3. **Covenants.**

   (a) During the term of this Agreement, Texas RE shall maintain and preserve its qualifications for delegation pursuant to the Act and shall not amend the Texas RE Rules without NERC's approval, which shall not be unreasonably withheld or delayed and which shall, in the case of a Regional Entity organized on an Interconnection-wide basis, be governed by the presumptions provided for in Section 215(d)(2) and (e)(4)(C) of the Act, and be subject to any required Commission approval.

   (b) During the term of this agreement, NERC shall maintain its qualification and status as the ERO pursuant to the Act and, subject to the provisions of Sections 16 and 17 of this Agreement, NERC shall not adopt amendments to the NERC Rules that conflict with the rights, obligations or programs of Texas RE under this Agreement without first obtaining the consent of Texas RE, which consent shall not be unreasonably withheld or delayed.

   (c) During the term of this agreement, NERC and Texas RE shall adhere to and require that all participants in their respective activities under this Agreement follow and comply with the NERC Antitrust Compliance Guidelines.

4. **Delegation of Authority.**

   (a) Based upon the representations, warranties and covenants of Texas RE in Sections 2 and 3 above, the corporate governance documents set forth in Exhibit B, the standards development process set forth in Exhibit C, and the regional compliance enforcement program set forth in Exhibit D, NERC hereby delegates authority, pursuant to Section 215(e)(4) of the Act, to Texas RE for the purpose of proposing Reliability Standards to NERC, as set forth in Section 5 of this Agreement, and enforcing Reliability Standards, as set forth in Section 6 of this Agreement, within the geographic boundaries set forth on Exhibit A. No further redelegation of authority or responsibility, in total or in part, under this Agreement is allowed without NERC’s express consent.

   (b) For Cross-Border Regional Entities, the authority delegated by this Agreement shall extend only to the portion of the region identified on Exhibit A that is within the United States. Any delegation of authority by governmental authorities in Canada or Mexico shall be governed by a separate agreement and is outside the scope of this Agreement; provided,
however, that both Texas RE and NERC shall endeavor to ensure that this Agreement and such separate agreements are compatible.

(c) As a condition to this delegation of authority and subject to the provisions of section 16 of this Agreement, Texas RE shall comply with the applicable provisions of NERC’s Certificate of Incorporation, Bylaws, Rules of Procedure, and Reliability Standards, as from time to time adopted, approved, or amended.

5. **Reliability Standards.**

(a) In connection with its Delegated Authority, Texas RE shall be entitled to:

(i) propose Reliability Standards, Regional Variances, or modifications thereof to NERC, which shall be considered by NERC through an open and inclusive process for proposing and adopting Reliability Standards that affords Texas RE reasonable notice and opportunity to be heard; and

(ii) develop Regional Reliability Standards and Regional Variances through Texas RE’s process as set forth in Exhibit C. Proposals approved through Texas RE’s process shall be reviewed by the NERC Board of Trustees after NERC provides notice and an opportunity for interested persons to comment. In the case of a proposal from a Regional Entity organized on an Interconnection-wide basis, comments shall be limited to the factors identified in NERC Rule 313, section 3.1 as it may be amended from time to time. The NERC board of trustees shall promptly thereafter consider such proposed Regional Reliability Standard or Regional Variance, applying the rebuttable presumption described in subsection 5(b) if the proposed Regional Reliability Standard or Regional Variance is from a Regional Entity organized on an Interconnection-wide basis, and either approve the proposed standard and submit it to the Commission for approval, or disapprove it in writing setting forth its reasons. Texas RE may appeal any disapproval of a proposed Regional Reliability Standard or Regional Variance to the Commission.

(b) Pursuant to Section 215(d)(3) of the Act, NERC shall rebuttably presume that a proposal from a Regional Entity organized on an Interconnection-wide basis for a Regional Reliability Standard or Regional Variance or modification thereof to be applicable on an Interconnection-wide basis is just, reasonable, and not unduly discriminatory or preferential, and in the public interest. Any person challenging such proposal from the Texas RE shall have the
burden of proof. NERC shall not find that this presumption has been rebutted except based upon substantial evidence that has been disclosed to, and been subject to comment by, the Texas RE during NERC’s review of the proposal.

6. **Enforcement.**

(a) In connection with its delegated authority pursuant to this Agreement, Texas RE shall enforce Reliability Standards (including Regional Reliability Standards and Regional Variances) within the geographic boundaries set forth in Exhibit A through the compliance enforcement program set forth in Exhibit D. NERC and Texas RE agree that this program meets all applicable requirements of the Act, Order 672 and the Commission’s regulations, including, *inter alia*, the requirement for an audit program pursuant to Section 39.7(a) of the Commission’s regulations, the assessment of penalties pursuant to Section 39.7(c) through 39.7(g) of the Commission’s regulations and the requirements for due process. Texas RE may not change its compliance enforcement program set forth in Exhibit D absent NERC’s approval, which shall not be unreasonably withheld or delayed. Subject to the rights and limitations of Sections 16 and 17 of this Agreement, Texas RE agrees to comply with the NERC Rules in implementing this program.

(b) Texas RE shall report promptly to NERC any self-reported violation or investigation of a violation or an alleged violation of a Reliability Standard and its eventual disposition. Such report shall include the owner’s, operator’s, or user’s name, which Reliability Standard or Reliability Standards were violated or allegedly violated, when the violation or alleged violation occurred, other pertinent facts about the violation including circumstances surrounding the violation with any known risk to the bulk power system, when the violation was or will be mitigated, the name of a person knowledgeable about the violation or alleged violation to serve as a point of contact with the Commission, and any other information required by NERC compliance program procedures. NERC shall promptly forward such report to the Commission. NERC and Texas RE shall cooperate in filing such periodic summary reports as the Commission shall from time to time direct on violations of Reliability Standards and summary analyses of such violations.
(c) Each violation or alleged violation shall be treated as nonpublic until the matter is filed with the Commission as a notice of penalty or resolved by an admission that the owner, operator, or user of the bulk power system violated a Reliability Standard or by a settlement or other negotiated disposition. However, any hearing conducted by the Public Utility Commission of Texas (PUCT) concerning an alleged violation in the ERCOT power region shall be conducted as a public hearing and any evidence or other submissions concerning the hearing, except for information that is confidential or privileged under law, shall be publicly available. Following the hearing, the PUCT shall issue its recommendation on the appropriate resolution of the allegations in a written document that will be publicly available. Notwithstanding the foregoing, the disposition of each violation or alleged violation that relates to a Cybersecurity Incident or that would jeopardize the security of the bulk power system if publicly disclosed shall be nonpublic unless the Commission directs otherwise.

(d) All appeals of penalties imposed by Texas RE shall be filed with NERC, in accordance with the NERC Rules.

(e) Texas RE shall maintain the capability to conduct investigations of potential violations of Reliability Standards and to conduct such investigations in a confidential manner.

(f) Texas RE shall maintain a program of proactive enforcement audits including procedures for spot-checks of self-reported compliance and periodic audits of all responsible entities as defined in Exhibit D.

(g) As part of its compliance enforcement program, Texas RE shall maintain a conflict of interest policy that assures the integrity of such program and the independence of the compliance program staff from those subject to enforcement actions.

(h) As often as NERC deems necessary, but no less than every three years, NERC shall review Texas RE’s compliance enforcement program to ensure that: (i) the program meets all applicable legal requirements; (ii) actual practices reflect the requirements; and (iii) the program administered pursuant to the Delegated Authority promotes consistent interpretations across North America of Reliability Standards and comparable levels of sanctions and penalties to violations of Reliability Standards constituting comparable levels of threat to reliability of the bulk power system.
(i) Texas RE shall modify its compliance enforcement program as needed to reflect additions to, deletions from, or modifications of Reliability Standards and, subject to the rights and limitations of Sections 16 and 17 of this Agreement, shall modify its compliance enforcement program as needed: (i) to reflect amendments to the NERC Rules; (ii) to comply with NERC directives resulting from the review of compliance enforcement programs as provided in Section 6(h) of this Agreement; or (iii) to resolve a conflict with a function, rule, order, tariff, rate schedule, or agreement accepted, approved, or ordered by the Commission.

(j) NERC shall conduct a review with the Regional Entities that provides for the exchange of information on practices, experiences, and lessons learned in the implementation of compliance enforcement programs.

7. **Delegation-Related Services.** NERC will engage Texas RE on its behalf to carry out certain of its activities that are in furtherance of its responsibilities as the ERO under the Act or in support of delegated functions, as specified in the NERC Rules and listed on Exhibit E.

8. **Funding.** Texas RE and NERC shall ensure that the delegated functions and related activities listed on Exhibit E have reasonable and adequate funding and resources by undertaking the following:

   (a) NERC shall fund Texas RE activities necessary for Texas RE to carry out its Delegated Authority under this Agreement, including the functions listed on Exhibit E, and shall not impose any obligation or requirement regarding Delegated Authority upon Texas RE without providing appropriate funding to carry out such mandates;

   (b) Texas RE and NERC agree that costs of carrying out Texas RE's responsibilities under the Delegation Agreement will be equitably allocated among end users within the geographic boundaries described in Exhibit A and recovered through a formula based on net energy for load as set forth in Exhibit E;

   (c) NERC will ensure that the costs for its responsibilities are first allocated fairly among the interconnections and regions according to the applicability of this work to those interconnections and regions, and then equitably among the end users of the applicable interconnections and regions as appropriate. Allocation on a net energy for load basis will be presumed to satisfy this equitability requirement.
(d) NERC shall provide Texas RE with the form for budget submittal no later than April 30 of the prior year.

(e) Texas RE shall submit its annual budget for carrying out its Delegated Authority functions and related activities listed on Exhibit E, as well as all other Texas RE activities and funding to NERC no later than June 1 of the prior fiscal year such that NERC may submit its budget to the Commission 130 days in advance of the beginning of each fiscal year. The Texas RE budget submission shall include supporting materials, including Texas RE’s complete business plan and organization chart, explaining the proposed collection of all dues, fees and charges, and the proposed expenditure of funds collected in sufficient detail to justify the requested funding collection and budget expenditures, as well as the budget, supporting materials, and proposed allocation and method of collection for the costs of any approved regional advisory body. NERC shall develop, in consultation with the Regional Entities, a reasonable and consistent system of accounts, with a level of detail and record keeping comparable to the Commission’s Uniform System of Accounts and sufficient to allow the Commission to compare each Commission-approved NERC fiscal year budget with the actual results at the NERC and Regional Entity level. Texas RE shall follow NERC’s prescribed system of accounts.

(f) Texas RE’s funding system shall include reasonable reserve funding for unforeseen and extraordinary expenses and other contingencies, consistent with generally accepted accounting principles.

(g) NERC shall review and approve Texas RE’s budget for meeting its responsibilities under the Delegation Agreement.

(h) Texas RE shall submit unaudited quarterly interim financial statements in form provided by NERC no later than 20 days after the end of the fiscal quarter (March 31, June 30, September 30, and December 31).

(i) Texas RE shall submit audited financial statements annually including supporting materials in a form provided by NERC no later than 150 days after the end of the fiscal year.

(j) NERC shall have the right to review from time to time, in reasonable intervals but no less than every three years, the financial records of Texas RE in order to ensure that the documentation fairly represents in all material respects appropriate funding under this Agreement.
(k) Exhibit E to this Agreement sets forth the mechanism through which Texas RE shall offset penalty monies it receives against its next year’s annual budget for carrying out functions under this Agreement.

9. **Assignment.** This Agreement may be assigned by either Party only with the prior written consent of the other, which consent shall be granted or withheld in such non-assigning Party’s sole discretion, subject to approval by the Commission. Any assignment under this Agreement shall not relieve a Party of its obligations, nor shall a Party's obligations be enlarged, in whole or in part, by reason thereof. Texas RE may not delegate in whole or in part its Delegated Authority to any other entity; provided, however, that nothing in this provision shall prohibit Texas RE from contracting with other entities to assist it in carrying out its Delegated Authority, provided Texas RE retains control and responsibility for such Delegated Authority.

10. **Default and Cure.** Upon a Breach, the non-breaching Party shall give written notice of such Breach to the breaching Party (the “Default Notice”). Subject to a suspension of the following deadlines as specified below, the breaching Party shall have thirty (30) calendar days from receipt of the Default Notice within which to cure such Breach; provided however, that if such Breach is not capable of cure within thirty (30) calendar days, the breaching Party shall commence such cure within thirty (30) calendar days after notice and continuously and diligently complete such cure within ninety (90) calendar days from receipt of the Default Notice; and, if cured within such time, the Breach specified in such notice shall cease to exist. Subject to the limitation specified in the following sentence, if a Breach is not cured as provided in this article, or if a Breach is not capable of being cured within the period provided for herein, the nonbreaching Party shall have the right to declare a default and terminate this Agreement by written notice at any time until cure occurs, and be relieved of any further obligation hereunder. The deadlines for cure and the right to declare a default and terminate this Agreement shall be suspended during the pendency of any efforts or proceedings in accordance with Section 17 of this Agreement to resolve a dispute as to whether a Breach has occurred. The provisions of this article will survive termination of this Agreement.

11. **Term and Termination.**
(a) This Agreement shall become effective thirty (30) days after the date of issuance of a final Commission order approving this Agreement without requiring any changes to this Agreement unacceptable to either Party.

(b) The initial term of the Agreement shall be three (3) years, prior to which time NERC shall conduct an audit pursuant to subsections 6(e) and 7(i) to ensure that Texas RE continues to meet all applicable statutory and regulatory requirements necessary to maintain its eligibility for delegation. If Texas RE meets such requirements, this Agreement may be renewed for another five (5) year term. If this Agreement is not renewed or becomes subject to termination for any reason, the Parties shall work to ensure a transition of Texas RE's Delegated Authority to NERC or to another eligible entity. The termination of this Agreement shall not take effect until such transition has been effected, unless the transition period exceeds one year, at which time Texas RE may unilaterally terminate.

(c) If any provision of this Agreement, or the application thereof to any person, entity or circumstance, is held by a court or regulatory authority of competent jurisdiction to be invalid, void, or unenforceable, or if a modification or condition to this Agreement is imposed by a regulatory authority exercising jurisdiction over this Agreement, the Parties shall endeavor in good faith to negotiate such amendment or amendments to this Agreement as will restore the relative benefits and obligations of the signatories under this Agreement immediately prior to such holding, modification or condition. If either Party finds such holding, modification or condition unacceptable and the Parties are unable to renegotiate a mutually acceptable resolution, either Party may unilaterally terminate this Agreement. Such termination shall be effective one year following written notice by either Party to the other Party and to the Commission, or at such other time as may be mutually agreed by Texas RE and NERC.

(d) Notwithstanding any termination of this Agreement, provisions contained in Limitation of Liability (Section 12), No Third Party Beneficiaries (Section 13) and Confidentiality (Section 14) shall survive this Agreement in accordance with their terms until sixty (60) days following the expiration of any applicable statute of limitations.

12. **Limitation of Liability.** Texas RE and NERC agree not to sue each other or their directors, officers, employees, and persons serving on their committees and subgroups based on any act or omission of any of the foregoing in the performance of duties pursuant to this
Agreement or in conducting activities under the authority of Section 215 of the Act, other than seeking a review of such action or inaction by the Commission. NERC and Texas RE shall not be liable to one another for any damages whatsoever, including without limitation, direct, indirect, incidental, special, multiple, consequential (including attorneys’ fees and litigation costs), exemplary, or punitive damages arising out of or resulting from any act or omission associated with the performance of the Texas RE’s or NERC’s responsibilities under this Agreement or in conducting activities under the authority of Section 215 of the Act, except to the extent that the Texas RE or NERC is found liable for gross negligence or intentional misconduct, in which case Texas RE or NERC shall not be liable for any indirect, incidental, special, multiple, consequential (including without limitation attorneys’ fees and litigation costs), exemplary, or punitive damages.

13. **No Third Party Beneficiaries.** Nothing in this Agreement shall be construed to create any duty to, any standard of care with reference to, or any liability to any third party.

14. **Confidentiality.** During the course of the Parties’ performance under this Agreement, a Party may receive Confidential Information, as defined in Section 1500 of NERC’s Rules of Procedure. Except as set forth herein, the Parties agree to keep in confidence and not to copy, disclose, or distribute any Confidential Information or any part thereof, without the prior written permission of the issuing Party, unless disclosure is required by subpoena, law, or other directive of a court, administrative agency, or arbitration panel, in which event the recipient hereby agrees to provide the Party that provided the Confidential Information with prompt notice of such request or requirement in order to enable such issuing Party to (a) seek an appropriate protective order or other remedy, (b) consult with the recipient with respect to taking steps to resist or narrow the scope of such request or legal process, or (c) waive compliance, in whole or in part, with the terms of this Section. In the event a protective order or other remedy is not obtained or that issuing Party waives compliance with the provisions, the recipient agrees to furnish only that portion of the Confidential Information which the recipient’s counsel advises is legally required and to exercise best efforts to obtain assurance that confidential treatment will be accorded to such Confidential Information. In addition, each Party shall ensure that its officers, trustees, directors, employees, subcontractors and subcontractors’ employees, and agents to whom
Confidential Information is exposed are under obligations of confidentiality that are at least as restrictive as those contained herein. This confidentiality provision does not prohibit reporting and disclosure as directed by NERC, as set forth in Section 6 of this Agreement.

15. **Amendment.** Neither this Agreement nor any of the terms hereof, may be amended unless such amendment is made in writing, signed by the Parties, and filed with and approved by the Commission.

16. **Amendments to the NERC Rules.** NERC shall not adopt amendments to the NERC Rules that conflict with the rights, obligations, or programs of Texas RE under this Agreement without first obtaining the consent of Texas RE, which consent shall not be unreasonably withheld or delayed. To the extent Texas RE does not consent, NERC shall have the right to invoke the dispute resolution provisions of Section 17 and, if such effort fails to resolve the dispute, to petition the Commission to adopt the amendment to the NERC Rules. To the extent that the Commission issues an order amending or materially affecting the rights or obligations of Texas RE under this Agreement, Texas RE shall have the option, exercisable no later than 60 days after issuance of such order, to terminate this Agreement. Such termination shall be effective one year following written notice by Texas RE to NERC and the Commission, or at such other time as may be mutually agreed by Texas RE and NERC.

17. **Dispute Resolution.** In the event a dispute arises under this Agreement between NERC and Texas RE, representatives of the Parties with authority to settle the dispute shall meet and confer in good faith in an effort to resolve the dispute in a timely manner. In the event the designated representatives are unable to resolve the dispute within thirty (30) days or such other period as the Parties may agree upon, each Party shall have all rights to pursue all remedies, except as expressly limited by the terms of this Agreement. Neither Party shall have the right to pursue other remedies until the Dispute Resolution procedures of this Section 17 have been exhausted. This Section 17 shall not apply to enforcement actions against individual entities.

18. **Notice.** Whether expressly so stated or not, all notices, demands, requests, and other communications required or permitted by or provided for in this Agreement shall be given in
writing to a Party at the address set forth below, or at such other address as a Party shall designate for itself in writing in accordance with this Section, and shall be delivered by hand or reputable overnight courier:

If to NERC:
North American Electric Reliability Corporation
116-390 Village Blvd.
Princeton, NJ 08540-5721
Attn: David Hilt
Facsimile: (609) 452-9550

If to Texas RE:
Texas Regional Entity
7620 Metro Center Drive
Austin, Texas 78744
Attn: Chief Compliance Officer
Facsimile: (512) 225-7165

19. **Governing Law.** When not in conflict with or preempted by federal law, this Agreement will be governed by and construed in accordance with the laws of New Jersey without giving effect to the conflict of law principles thereof. The Parties recognize and agree not to contest the exclusive or primary jurisdiction of the Commission to interpret and apply this Agreement; provided however that if the Commission declines to exercise or is precluded from exercising jurisdiction of any action arising out of or concerning this Agreement, such action shall be brought in any state or federal court of competent jurisdiction in New Jersey. All Parties hereby consent to the jurisdiction of any state or federal court of competent jurisdiction in New Jersey for the purpose of hearing and determining any action not heard and determined by the Commission.

20. **Headings.** The headings and captions in this Agreement are for convenience of reference only and shall not define, limit, or otherwise affect any of the terms or provisions hereof.

21. **Savings Clause.** Nothing in this Agreement shall be construed to preempt or limit any authority that Texas RE may have to adopt reliability requirements or take other actions to ensure reliability of the bulk power system within the geographic boundaries described in Exhibit A that are outside the authority delegated from NERC, as long as such reliability requirements and actions are not inconsistent with Reliability Standards applicable to the region described in Exhibit A and do not result in a lessening of reliability outside the region described in Exhibit A.
22. **Entire Agreement.** This Agreement constitutes the entire agreement, and supersedes all prior agreements and understandings, both written and oral, among the parties with respect to the subject matter of this Agreement.

24. **Execution of Counterparts.** This Agreement may be executed in counterparts and each shall have the same force and effect as the original.

**NOW THEREFORE,** the parties have caused this Agreement to be executed by its duly authorized representatives, effective as of the date first above written.

NORTH AMERICAN ELECTRIC RELIABILITY CORPORATION

By: 
Name: RICHARD F. SERGER
Title: PRESIDENT & CEO
Date: May 2, 2007

TEXAS REGIONAL ENTITY – A DIVISION OF ELECTRIC RELIABILITY COUNCIL OF TEXAS, INC.

By: 
Name: Larry Grimm
Title: Acting Chief Compliance Officer
Date: May 16, 2007
EXHIBIT A – REGIONAL BOUNDARIES

The ERCOT Region is the geographic area and associated transmission and distribution facilities that are not synchronously interconnected with electric utilities operating outside the jurisdiction of the Public Utility Commission of Texas. The ERCOT Region does not interconnect synchronously across state lines to import or export power with neighboring reliability regions. The ERCOT geographic region includes 200,000 square miles, 85% of Texas load, and 75% of Texas land area (does not include the Panhandle, El Paso area, and 2 areas of East Texas). The ERCOT Region includes the following Texas cities and towns: Dallas, Ft. Worth, Houston, San Antonio, Austin, Paris, Tyler, Nacogdoches, Lufkin, Bryan, College Station, Corpus Christi, Harlingen, Brownsville, Laredo, Brownwood, San Angelo, Abilene, Midland, Odessa, Fort Stockton, Monahans, Snyder, Vernon, Wichita Falls, Denton, Garland, Greenville, Waco, Temple, Killeen, Weatherford, and Graham, as indicated on the map below.
Exhibit B – Governance

Note: Significant portions of the ERCOT bylaw provisions quoted in this Exhibit B still require final approval by the ERCOT membership and the Public Utility Commission of Texas. These provisions were approved by the ERCOT Board on May 16, 2007, and NERC and Texas RE will inform the Commission when all required approvals have been obtained.

CRITERION 1: The Regional Entity shall be governed by an independent board, a balanced stakeholder board, or a combination independent and balanced stakeholder board. (Federal Power Act § 215(e)(4)(A), 18 C.F.R. § 839.8(~)(1), Order No. 672 at ¶ 727.)

A. Texas RE is governed by a combination independent and balanced stakeholder board.

B. Section 4.2 of Texas RE's bylaws (the bylaws of Electric Reliability Council of Texas, Inc.) specify that its board shall have 16 members, as follows:

   A. Five (5) independent individuals who are unaffiliated with any electric market participant ("Unaffiliated Directors") who are each approved by the Public Utility Commission of Texas ("PUCT") for a three-year term;

   B. Six (6) electric market participant representatives (plus a segment alternate for each such representative) from each of the following market segments: independent generators, investor-owned utilities; power marketers; retail electric providers, municipally owned utilities, and cooperatives;

   C. Three (3) consumer representatives;

   D. CEO of ERCOT (as ex officio voting Director); and

   E. Chairman of the PUCT, as an ex officio non-voting Director.

C. Subsection 4.3 (b)(2) ii of Texas RE’s bylaws define the requirements of “independence” as follows:

   a. Unaffiliated Directors or family members (any spouse, parent, spouse of a parent, child or sibling, including step and adoptive relatives, and household member) shall not have current or recent ties (within the last two years) as a director, officer or employee of a Market Participant or its Affiliates.

   b. Unaffiliated Directors or family members (any spouse, parent, spouse of a parent, child or sibling, including step and adoptive relatives and any household member) shall not have direct business relationships, other than retail customer relationships, with a Market Participant or its Affiliates.

   c. To the extent that an Unaffiliated Director or family member (any spouse, parent, spouse of a parent, child or sibling, including step and adoptive relatives) living in the same household or any other household member owns stocks or bonds of Market Participants, these must be divested or placed in a blind trust prior to being seated on the Board."
d. Unaffiliated Directors shall not have any relationship that would interfere with the exercise of independent judgment in carrying out the responsibilities of an ERCOT board member, including the Delegated Authority.

D. Texas RE's bylaws achieve balance on the board because the board has representation from seven (7) segments (six (6) market segments plus consumer representatives) and five (5) independent directors, and Section 4.7 of the bylaws contains the following quorum and voting requirements:

Except as may be otherwise specifically provided by law, the Articles of Incorporation or these Bylaws, at all meetings of the Board, fifty percent (50%) of the seated Directors shall constitute a quorum for the transaction of business. The act of at least sixty-seven percent (67%) affirmative votes of the eligible voting Directors shall be the act of the Board, unless the act of a greater number is otherwise required by law, the Articles of Incorporation, or these Bylaws. If a quorum shall not be present at any meeting of the Board, the Directors present may adjourn the meeting.

CRITERION 2: The Regional Entity has established rules that assure its independence of the users and owners and operators of the bulk power system, while assuring fair stakeholder representation in the selection of its directors. Federal Power Act § 215(c)(2)(A) and (e)(4), 18 C.F.R. § 39.8(c)(2), Order No. 672 at ¶¶ 699, 700.)

A. Texas RE or its affiliate is an RTO or ISO and therefore a user, owner, or operator of bulk power system facilities. Article 6 and Section 7.2 of Texas RE's bylaws establish a strong separation between Texas RE's oversight and operations functions, as follows:

Section 6.1 TRE Responsibilities and Duties. The TRE shall be a functionally independent division within ERCOT which shall be responsible for proposing, developing, implementing and enforcing Reliability Standards in accordance with the Delegated Authority. The TRE shall also be responsible for investigating compliance with and enforcing violations of the ERCOT Protocols ("ERCOT Compliance"), so long as the ERCOT Compliance activities do not conflict with the Delegated Authority. The TRE shall develop policies, processes, standards, and procedures to implement the Delegated Authority and the ERCOT Compliance activities. The TRE shall form a Reliability Standards Committee ("RSC"), comprised of members from all ERCOT Segments, to propose, receive, consider, authorize, and vote on Reliability Standards and Reliability Variances, in accordance with the Texas Regional Entity Standards Development Process and procedures. All proposed ERCOT-specific Reliability Standards and Reliability Variances requests must be approved by the Board, prior to being submitted to NERC.

Section 6.2 TRE Independence. The TRE and its employees shall function independently of the other divisions, departments and employees of ERCOT. TRE employees shall be responsible for creating and
monitoring a separate budget to be submitted to the Board for approval and then to the North American Electric Reliability Corporation ("NERC") for approval, pursuant to a Delegation Agreement ("TRE Budget"). The portion of the TRE Budget which is for activities that are not related to the Delegated Authority but are for ERCOT Compliance activities will be approved by the PUCT. Except for ERCOT Compliance activities and any extraordinary activities that are specifically approved by NERC in the TRE Budget, the TRE shall be funded separately by NERC. The TRE shall (i) maintain separate books and records to account for its finances, separating income and expenditures for the Delegated Authority and the ERCOT Compliance Activities and (ii) pay a fair market rate for any goods and services obtained from ERCOT, or if a fair market rate is not readily determinable without undue effort or expense, at least the out-of-pocket cost incurred by ERCOT in respect thereof. The ERCOT acknowledges that the TRE Chief Compliance Officer and the TRE staff will conduct investigations into and will prosecute enforcement actions regarding the matters within the scope of the TRE's responsibilities and duties, including investigations and prosecutions of ERCOT.

Section 6.3 TRE Management. The business and affairs of the TRE shall be managed directly by the Board, or a subcommittee thereof, to insure independence of the TRE from the other ERCOT operations and activities, including the ERCOT Independent System Operator functions. The Board shall hire a Chief Compliance Officer ("CCO") who, under its supervision and direction, shall carry on the general affairs of the TRE as the chief executive officer. The CCO shall be independent of any market participant and shall be an independent member of the staff of ERCOT, reporting exclusively to the Board. The Board shall only hire a CCO after consulting the PUCT Commissioners and Executive Director, and obtaining the approval of the PUCT Executive Director. The Board may also appoint a financial director who will report to the CCO, with responsibility for overseeing the budgeting, finance and accounting functions necessary for the independent operation of the TRE. The TRE may retain outside advisors as it deems necessary. The CCO shall have the sole authority to retain or terminate such outside counsel and other advisors as the CCO may deem appropriate in his or her sole discretion. The CCO shall have the sole authority to approve related fees and retention terms for such advisors, in accordance with the TRE Budget. The CCO shall make an annual report and periodic reports to the Board concerning the activities and expenditures of the TRE, and the TRE shall have its separate financial statements reviewed or audited annually. The CCO shall ensure that the TRE files all required reports with NERC. CCO shall, in cooperation with the financial director of the TRE, monitor the expenditure of the monies received by the TRE to ensure that such are deployed in accordance with the TRE Budget, as approved by the Board and NERC.

Section 6.4 TRE Employees. To the fullest extent practicable under applicable law, the TRE and the CCO shall be responsible for hiring, firing and compensating all TRE employees. TRE employees shall be compensated from the TRE budget. If permissible, and consistent with the Board's and CCO's compensation policies for the TRE employees,
such employees may participate in insurance and other benefits extended to ERCOT employees, provided that the TRE reimburses ERCOT for the full cost of providing such benefits. The TRE is authorized to employ attorneys, and all such attorneys shall report to the CCO and shall have ethical and other obligations solely to the TRE and not to ERCOT. Such attorneys are expressly authorized and required to provide advice to the CCO and TRE regarding the Delegated Authority and ERCOT Compliance activities, including investigations and enforcement actions involving ERCOT. Such attorneys are specifically authorized to assist with the prosecution of enforcement actions relating to the Delegated Authority or ERCOT Compliance activities.

Section 6.5 Evaluation of TRE Performance. The Board shall monitor the TRE and CCO’s performance, establish and review the CCO’s compensation and provide annual, or at its election, more frequent, evaluations. The Board may receive and will consider input from the PUCT regarding the compliance and enforcement activities of the CCO and the TRE. It shall be the CCO’s duty, in cooperation with the financial director of the TRE, to monitor the expenditure of the monies received by the TRE to ensure that such are deployed in accordance with the TRE Budget, as approved by the Board, PUCT and NERC. The Board will consider input from the PUCT regarding the compliance and enforcement activities and performance of the CCO and TRE. Neither the CCO nor any TRE employee may be retaliated against by ERCOT or its Board for investigating or participating in any enforcement activities pursuant to the Delegated Authority. The Board may not terminate, discipline, or demote the CCO or any TRE employees, advisors or contractors because of compliance or enforcement activities conducted in good faith.

Section 7.2 CCO. The Board shall hire a Chief Compliance Officer (“CCO”) who, under the Board’s supervision and direction shall carry on the affairs of the TRE. The CCO shall comply with all orders of the Board and will coordinate with the NERC regarding activities relating to the Delegated Authority and with PUCT regarding ERCOT Compliance activities. All employees and contractors of the TRE shall report and be responsible, to the CCO. The CCO shall be responsible for employment-related decisions for all employees of the TRE that are not appointed by the Board and shall provide input to the Board with respect to TRE employees appointed by the Board. The CCO shall perform such other duties as may be determined from time to time by the Board, for the benefit of the TRE. The Board may only terminate, discipline, not renew, or demote the CCO after consulting the PUCT Commissioners and Executive Director, and obtaining the approval of the PUCT Executive Director.

CRITERION 3: If the Regional Entity has members, the Regional Entity has established rules that assure that its membership is open, that it charges no more than a nominal membership fee and agrees to waive the fee for good cause shown, and that membership is not a condition for participating in the development of or voting on proposed Regional
Reliability Standards. (Federal Power Act § 215(c)(2)(A) and (e)(4), 18 C.F.R. § 39.8(c)(2), Order No. 672 at ¶¶ 170-173.)

A. Texas RE has an open membership policy that permits full and fair participation of all stakeholders through their representatives, including in the development and voting on Regional Reliability Standards.

1. Membership Categories. Section 3.1 (a) of the Texas RE bylaws provides that members may qualify in one of the six market segments, if they have an actual financial interest in and are able to business in the ERCOT Region, or in the Consumer segment. Section 3.2 of the bylaws provides that members may qualify in one of three membership categories:

(a) Corporate Members – shall have the rights and obligations as described in these Bylaws including the right to vote on all matters submitted to the general membership (such as election of Directors, election of TAC Representatives and amendments to the Articles of Incorporation and these Bylaws).

(b) Associate Members – shall have the rights and obligations as described in these Bylaws excluding the right to vote on any matter submitted to the general Membership (such as election of Directors, election of TAC Representatives and amendments to the Articles of Incorporation and these Bylaws).

(c) Adjunct Members – may be approved for Adjunct Membership by the Board if such entity does not meet the definitions and requirements to join as a Corporate or Associate Member. Adjunct Members shall have no right to vote on any matter submitted to the general Membership nor any right to be elected or appointed to the ERCOT Board, TAC or any subcommittee of the Board or TAC. Adjunct Members shall be bound by the same obligations as other Members of ERCOT.

2. Membership Obligations. Section 3.3 of the bylaws provides that, (a) each Member must comply with any applicable planning and operating criteria, procedures and guides adopted by or under the direction of the Board to maintain electric system reliability, coordinate planning and promote comparable access to the transmission system by all users, and (b) consistent with applicable laws and regulations, Members must share information at ERCOT’s or TRE’s request as necessary for the furtherance of ERCOT or TRE’s activity and consistent with PUCT and NERC rules relating to confidentiality.

3. Full and Fair Participation. Section 3.6 of the bylaws provides that no Entity may simultaneously hold more than one Corporate Membership or more than one seat on the Board, TAC, or RSC and that members may join as a Corporate member in only one segment. Subsection 3.6(c) provides that each Corporate member in good standing is entitled to one vote on each matter submitted to a vote of the Corporate members.

The Texas Regional Entity Standards Development Process ("TRE SDP," see Exhibit D) provides for due process, openness, and balance in Standards development and modification. Section IV of the TRE SDP provides that any person, acting as a representative of an organization which is directly and materially affected by the operation of ERCOT’s Bulk Power System ("BPS") is allowed to request a Standard be developed or an existing Standard modified or deleted by creating a Standards Authorization Request (SAR). Section V of the TRE SDP provides that (1) any person representing an organization with a direct and material interest in
the bulk power system has a right to participate in the standards development process by: a) expressing an opinion and its basis, b) having that position considered, and c) appealing any negative decision. Section V specifically provides that, "Participation is open to all organizations that are directly and materially affected by ERCOT's BPS [Bulk Power System] reliability. There shall be no undue financial barriers to participation. Participation shall not be conditioned upon membership in ERCOT, and shall not be unreasonably restricted on the basis of technical qualifications or other such requirements. Meetings of SDTs [Standards Drafting Teams] are open to ERCOT's Membership and to others and all proposed SARs and Standards are posted for comment on the Texas RE Website."

B. Texas RE charges no more than a nominal membership fee and agrees to waive the fee for good cause shown. Section 3.4 of the bylaws provides for the following fees:

Annual Member Service Fees for Corporate Members shall be $2,000.
Annual Member Service Fees for Associate Members shall be $500.
Annual Member Service Fees for Adjunct Members shall be $500. The Annual Member Service Fees for Residential and Commercial Consumer Members shall be $100 for Corporate Membership and $50 for Associate Membership; provided that there will be no charge for Annual Member Service Fees for associations that qualify for Commercial Consumer Membership or for other associations or persons, upon good cause shown. Office of Public Utility Counsel ("OPUC") and the appointed Residential Consumer TAC Representative(s) shall be eligible to be Corporate Members without the payment of Annual Member Service Fees. Any Member may request that the Member's Annual Member Service Fees be waived for good cause shown.

CRITERION 4: The Regional Entity has established rules that assure balance in its decision-making committees and subordinate organizational structures and assure no two industry sectors can control any action and no one industry sector can veto any action. (Federal Power Act § 215(c)(2)(A) and (e)(4), 18 C.F.R. § 39.8(c)(2), Order No. 672 at ¶ 728.)

A. Texas RE’s bylaws, procedural rules, and protocols assure balance in decision-making committees and subordinate organizational structures in how such groups are structured.

Section 6.1 of the bylaws provides that the Texas RE shall form a Reliability Standards Committee ("RSC"), comprised of members from all ERCOT Segments, to propose, consider and vote on Reliability Standards and Reliability Variances, in accordance with the Texas Regional Entity Standards Development Process and procedures. All proposed ERCOT-specific Reliability Standards and Reliability Variances requests and must be approved by the Board, prior to being submitted to NERC.

B. Texas RE’s bylaws, procedural rules, and protocols assure balance in decision-making committees and subordinate organizational structures in how such groups make decisions.

Step 1 of the TRE SDP provides that any entity that is directly or materially impacted by the operation of the Bulk Power System within the geographical footprint of the ERCOT Region may request the development, modification, or deletion of an ERCOT Standard or Regional
Variance. The RSC, comprised of the seven Segments, will consider and determine which requests will be assigned for development, modification, or deletion (Article II and Step 1 of the TRE SDP). Step 6A of the TRE SDP provides that all members may vote on proposed new standards, standard revisions, or standard deletions ("Standards" herein), and at least one member from five of the seven segments must vote to constitute a quorum. Step 6A further provides that each Segment shall receive one Segment Vote, the representative of each voting member shall receive an equal fraction of its Segment Vote, and if a draft Standard receives 4.67 affirmative votes during the 15 day voting period, the RSC will forward the Standard to the board for a vote. Step 6B of the TRE SDP provides that, if a Standard does not timely receive 4.67 affirmative votes, the Standard may be remanded for further work and reposted for a second comment period before a second vote. The board may approve, remand to RSC or disapprove a proposed Standard.

C. Texas RE's bylaws, procedural rules, and protocols assure no two industry sectors can control any action and no one industry sector can veto any action. The RSC is comprised of representatives from each Segment. The TRE SDP requires five (5) of the seven (7) Segments to constitute a quorum for a vote on a proposed Standard. (Step 6A of TRE SDP). Even if a proposed Standard does not receive a 4.67 or greater affirmative vote during a second voting period, the RSC will forward the Standard and implementation plan to the board.

CRITERION 5: The Regional Entity has established rules that provide reasonable notice and opportunity for public comment, due process, openness, and balance of interests in exercising its duties. (Federal Power Act § 215(c)(2)(D) and (e)(4), 18 C.F.R. § 39.8(c)(2).)

Texas RE's bylaws, procedural rules, and protocols provide reasonable notice and opportunity for public comment, due process, openness, and balance of interests in exercising its duties, as follows:

A. Notice of Meetings. Section 4.6(a) of the bylaws requires the board to meet at least quarterly, with at least one meeting occurring in conjunction with the annual meeting of the members. Section 4.6(b) requires notice of any meeting of the board or any board subcommittee where at least one board director is present be given to each Director and made available electronically to the public on the Internet not less than one week before the date of the meeting; provided, however, the board may meet on urgent matters on such shorter notice, not less than 2 hours, as the person or persons calling such meeting reasonably may deem necessary or appropriate for urgent matters (emergency conditions threatening public health or safety, or a reasonably unforeseen situation). Section 4.6 (e) also provides that notice of the agenda, place, date, and hour of any meeting of the RSC be made available electronically to the public on the Internet not less than one week before the date of the meeting; provided that, RSC may meet on urgent matters on such shorter notice, not less than 2 hours, in the event of urgent matters.

B. Public Meetings. Section 4.6(e) of the bylaws requires that meetings of the board or board subcommittees be open to the public, although they, at their discretion, exclude any persons who are not directors from any meeting or portion of any meeting held in Executive Session, including for purposes of voting. Executive session is limited to matters involving sensitive matters including, but, confidential personnel information, contracts, lawsuits, deliberation of purchase of real property, competitively sensitive information, deployment or implementation of security devices or other information related to the security of ERCOT's regional electrical network and discussion of any matters on which the Board receives legal advice from its attorneys. Section 4.6(d) of the bylaws requires the board to promulgate procedures allowing...
public access to meetings of the board and board subcommittees and allowing for members of
the public to provide comment on the matters under discussion at public portions of meetings of
the board and subcommittees.

C. **Available Minutes.** Section 4.6(f) of the bylaws requires the Secretary to keep minutes for all
Board meetings.

D. **Bylaws Amendment.** Section 13.1 (d) (4) of the bylaws provides that an affirmative vote by
at least four of the seven Segments is necessary to amend the bylaws, and, if permission for
any amendment is required by NERC or FERC under the Delegation Agreement, the required
permission must be obtained before such amendment is effective.
Exhibit C – Regional Standard Development Procedure

COMMON ATTRIBUTE 1

Proposed regional reliability standards shall be subject to approval by NERC, as the electric reliability organization, and by FERC before becoming mandatory and enforceable under Section 215 of the FPA. No regional reliability standard shall be effective within the Texas Regional Entity – A Division of Electric Reliability Council of Texas, Inc. (“Texas RE”) area unless filed by NERC with FERC and approved by FERC.

ERCOT’s regional standard development procedure or other governing documents contain the following language relative to this Common Attribute:

See TRE Standards Development Process (Process) – Introduction, 4th ¶:

| Proposed ERCOT-Specific Standards shall be subject to approval by NERC, as the electric reliability organization, and by FERC before becoming mandatory and enforceable under Section 215 of the FPA. No Standard shall be effective within the Texas RE area unless filed by NERC with FERC and approved by FERC. |

COMMON ATTRIBUTE 2

Texas RE regional reliability standards shall provide for as much uniformity as possible with reliability standards across the interconnected bulk power system of the North American continent. A Texas RE reliability standard shall be more stringent than a continent-wide reliability standard, including a regional difference that addresses matters that the continent-wide reliability standard does not, or shall be a regional difference necessitated by a physical difference in the bulk power system. A regional reliability standard that satisfies the statutory and regulatory criteria for approval of proposed North American reliability standards, and that is more stringent than a continent-wide reliability standard, would generally be acceptable.

ERCOT’s regional standard development procedure or other governing documents contain the following language relative to this Common Attribute:

See TRE Process – Introduction, 5th ¶:

| ERCOT-Specific Standards shall provide for as much uniformity as possible with reliability standards across the interconnected bulk power system of the North American continent. An ERCOT-Specific Standard shall be more stringent than a continent-wide reliability standard, including a regional difference that addresses matters that the continent-wide reliability standard does not, or shall be a regional difference necessitated by a physical difference in the bulk power system. An |
COMMON ATTRIBUTE 3

Texas RE regional reliability standards, when approved by FERC, shall be made part of the body of NERC reliability standards and shall be enforced upon all applicable bulk power system owners, operators, and users within the Texas RE area, regardless of membership in the region.

ERCOT's regional standard development procedure or other governing documents contain the following language relative to this Common Attribute:

See TRE Process - Introduction, 6th ¶:

ERCOT-Specific Standards, when approved by FERC, shall be made part of the body of NERC reliability standards and shall be enforced upon all applicable bulk power system owners, operators, and users within the Texas RE area, regardless of membership in the region.

COMMON ATTRIBUTE 4

Requester — The requester is the sponsor of the regional reliability standard request may assist in the development of the standard. Any member of Texas RE, or group within Texas RE shall be allowed to request that a regional reliability standard be developed, modified, or withdrawn. Additionally, any entity (person, organization, company, government agency, individual, etc.) that is directly and materially affected by the reliability of the bulk power system in the Texas RE area shall be allowed to request a regional reliability standard be developed, modified, or withdrawn.

ERCOT’s regional standard development procedure or other governing documents contain the following language relative to this Common Attribute:

See TRE Process - Roles in the Texas RE Reliability Standards Development Process, 1st ¶ - Originator:

Originator — Any person, acting as a representative of an organization which is directly and materially affected by the operation of ERCOT's BPS, is allowed to request a Standard be developed or an existing Standard modified, or deleted, by creating a Standards Authorization Request (SAR) as described in Appendix B to this document.
COMMON ATTRIBUTE 5

[Standards or other named] committee — The Texas RE [standards] committee manages the standards development process. The [standards] committee will consider which requests for new or revised standards shall be assigned for development (or existing standards considered for deletion). The [standards] committee will advise the Texas RE board on standards presented for adoption.

ERCOT’s regional standard development procedure or other governing documents contain the following language relative to this Common Attribute:

See TRE Process – Roles in the Texas RE Reliability Standards Development Process – 5th ¶ - Reliability Standards:

Reliability Standards Committee (RSC) – A balanced committee comprised of the seven (7) ERCOT Market Participant Segments that will consider which requests for new or revised Standards shall be assigned for development (or existing Standards considered for deletion). The RSC will also vote to recommend whether proposed new or revised Standards should be presented for a vote to all ERCOT Market Participants.

COMMON ATTRIBUTE 6

[Registered ballot body — The registered ballot body comprises all entities or individuals that a) qualify for one of the stakeholder segments; are registered with Texas RE as potential ballot participants in the voting on standards; and are current with any designated fees. Each member of the registered ballot body is eligible to vote on standards. [Each standard action has its own ballot pool formed of interested members of the registered ballot body. Each ballot pool comprises those members of the registered ballot body that respond to a pre-ballot survey for that particular standard action indicating their desire to participate in such a ballot pool.] The representation model of the registered ballot body is provided in Appendix A.]

ERCOT’s regional standard development procedure or other governing documents contain the following language relative to this Common Attribute:

See TRE Process – Roles in the Texas RE Reliability Standards Development Process – 3rd ¶:

Registered ballot body — The registered ballot body comprises all entities or individuals that a) qualify for one of the stakeholder segments; are registered with ERCOT as potential ballot participants in the voting on standards; and are current.
COMMON ATTRIBUTE 7

Texas RE will coordinate with NERC such that the acknowledgement of receipt of a standard request identified in step 1, notice of comment posting period identified in step 4, and notice for vote identified in step 5 below are concurrently posted on both the Texas RE and NERC websites.

ERCOT’s regional standard development procedure or other governing documents contain the following language relative to this Common Attribute:

The Texas RE will coordinate with NERC such that the acknowledgement of receipt of a standard request identified in Step 1, notice of comment posting period identified in Step 4, and notice for vote identified in Step 5 below are concurrently posted on both the Texas RE and NERC websites.

COMMON ATTRIBUTE 8

An acceptable standard request shall contain a description of the proposed regional reliability standard subject matter containing sufficiently descriptive detail to clearly define the purpose, scope, impacted parties, and other relevant information of the proposed standard.

ERCOT’s regional standard development procedure or other governing documents contain the following language relative to this Common Attribute:

See TRE Process – Texas RE Reliability Standards Development Process, B. Regional Reliability Standards Development Process Steps, Step 1 – 3rd ¶ & Appendix C:

An acceptable SAR contains a description of the proposed Standard subject matter containing sufficiently descriptive detail to clearly define the purpose, scope, impacted parties, and other relevant information of the proposed Standard.

COMMON ATTRIBUTE 9
Within no greater than 60 days of receipt of a completed standard request, the standards committee shall determine the disposition of the standard request.

ERCOT's regional standard development procedure or other governing documents contain the following language relative to this Common Attribute:

The Reliability Standards Manager will forward all adequately completed SARs to the RSC. Within 60 days of receipt of an adequately completed SAR, the RSC shall determine the disposition of the SAR and post for review and possible comment.

**COMMON ATTRIBUTE 10**

The standards committee may take one of the following actions:

- Accept the standard request as a candidate for development of a new standard, revision of an existing standard, or deletion of an existing standard. The standards committee may, at its discretion, expand or narrow the scope of the standard request under consideration. The standards committee shall prioritize the development of standard in relation to other proposed standards, as may be required based on the volume of requests and resources.
- Reject the standard request. If the standards committee rejects a standard request, a written explanation for rejection will be delivered to the requester within no greater than 30 days of the decision.
- Remand the standard request back to the requester for additional work. The standards process manager will make reasonable efforts to assist the requester in addressing the deficiencies identified by the standards committee. The requester may then resubmit the modified standard request using the process above. The requester may choose to withdraw the standard request from further consideration prior to acceptance by the standards committee.

ERCOT's regional standard development procedure or other governing documents contain the following language relative to this Common Attribute:

The disposition decision and decision process shall use the normal "business rules and procedures" of the RSC then in effect. The RSC may take one of the following actions by motion and majority vote:
• Accept the SAR as a candidate for development of a new Standard, revision of an existing Standard, or deletion of an existing Standard. The RSC may, in its sole discretion, expand or narrow the scope of the SAR under consideration. The RSC shall prioritize the development of SARs as may be required based on the number of SARs under development at any time.

• Reject the SAR. If the RSC rejects a SAR, a written explanation for rejection will be delivered to the Originator within 30 days of the decision.

• Remand the SAR back to the Originator for additional work. The Reliability Standards Manager will make reasonable efforts to assist the Originator in addressing the deficiencies identified by the RSC. The Originator may then resubmit the modified SAR using the process above. The Originator may choose to withdraw the SAR from further consideration prior to re-submittal to the RSC.

**COMMON ATTRIBUTE 11**

Any standard request that is accepted by the [standards] committee for development of a standard (or modification or deletion of an existing standard) shall be posted for public viewing on the Texas RE website within [no greater than 30] days of acceptance by the committee.

ERCOT’s regional standard development procedure or other governing documents contain the following language relative to this Common Attribute:

**COMMON ATTRIBUTE 12**

The standards process manager shall submit the proposed members of the drafting team to the [standards] committee. The [standards] committee shall approve the drafting team membership within 60 days of accepting a standard request for development, modifying the recommendations of the standards process manager as the committee deems appropriate, and assign development of the proposed standard to the drafting team.
ERCOT's regional standard development procedure or other governing documents contain the following language relative to this Common Attribute:

The Reliability Standards Manager submits the proposed list of names of the SDT to the ROS. The ROS will either accept the recommendations of the Reliability Standards Manager or modify the SDT slate, as it deems appropriate within 60 days of accepting a SAR for development.

COMMON ATTRIBUTE 13

At the direction from the [standards] committee, the standards process manager shall facilitate the posting of the draft standard on the Texas RE website, along with a draft implementation plan and supporting documents, for a no less than a [30]-day comment period. The standards process manager shall provide notice to Texas RE stakeholders and other potentially interested entities, both within and outside of the Texas RE area, of the posting using communication procedures then currently in effect or by other means as deemed appropriate.

ERCOT's regional standard development procedure or other governing documents contain the following language relative to this Common Attribute:

At the direction from the RSC, the Reliability Standards Manager then facilitates the posting of the draft Standard on the Texas RE Website, along with a draft implementation plan and supporting documents, for a 30-day comment period. The Reliability Standards Manager shall also inform ERCOT Members and other potentially interested entities inside or outside of ERCOT of the posting using typical membership communication procedures then currently in effect or by other means as deemed appropriate.

COMMON ATTRIBUTE 14

The drafting team shall prepare a summary of the comments received and the changes made to the proposed standard as a result of these comments. The drafting team shall summarize comments that were rejected by the drafting team and the reason(s) that these comments were rejected, in part or whole. The summary, along with a response to each comment received will be posted on the Texas RE website no later than the next posting of the proposed standard.
ERCOT's regional standard development procedure or other governing documents contain the following language relative to this Common Attribute:

The SDT shall prepare a "modification report" summarizing the comments received and the changes made as a result of these comments. The modification report also summarizes comments that were rejected by the SDT and the reason(s) that these comments were rejected, in part or whole. Responses to all comments will be posted on the Texas RE Website no later than the next posting.

COMMON ATTRIBUTE 15

Upon recommendation of the drafting team, and if the [standards] committee concurs that all of the requirements for development of the standard have been met, the standards process manager shall post the proposed standard and implementation plan for ballot and shall announce the vote to approve the standard, including when the vote will be conducted and the method for voting. Once the notice for a vote has been issued, no substantive modifications may be made to the proposed standard unless the revisions are posted and a new notice of the vote is issued.

ERCOT's regional standard development procedure or other governing documents contain the following language relative to this Common Attribute:

Upon recommendation of the drafting team, and if the RSC concurs that all of the requirements for development of the standard have been met, the Reliability Standards Manager shall post the proposed standard and implementation plan for ballot on the Texas RE Website and shall announce the vote to approve the standard, including when the vote will be conducted and the method for voting. Once the notice for a vote has been issued, no substantive modifications may be made to the proposed standard unless the revisions are posted and a new notice of the vote is issued.

COMMON ATTRIBUTE 16

The standards process manager shall schedule a vote by the Texas RE [registered ballot body/[standards] committee]. The vote shall commence no sooner than [15] days and no later than [30] days following the issuance of the notice for the vote.
ERCOT’s regional standard development procedure or other governing documents contain the following language relative to this Common Attribute:

The Reliability Standards Manager will schedule a Vote by the ERCOT Membership which is to be scheduled to commence no sooner than 15 days and no later than 30 days following this posting.

COMMON ATTRIBUTE 17

The Texas RE registered ballot body shall be able to vote on the proposed standard during a period of [not less than 10] days.

ERCOT’s regional standard development procedure or other governing documents contain the following language relative to this Common Attribute:

The Texas RE registered ballot body shall be able to vote on the proposed standard during a 15-day period.

COMMON ATTRIBUTE 18

All members of Texas RE are eligible to participate in voting on proposed new standards, standard revisions or standard deletions. [Alternatively: Each standard action requires formation of a ballot pool of interested members of the registered ballot body.]

ERCOT’s regional standard development procedure or other governing documents contain the following language relative to this Common Attribute:

All members of ERCOT are eligible to participate in voting on proposed new standards, standard revisions, or standard deletions. There shall be one person designated as the primary representative of each entity.
COMMON ATTRIBUTE 19

Approval of the proposed regional reliability standard shall require a [two thirds] majority in the affirmative (affirmative votes divided by the sum of affirmative and negative votes). Abstentions and non-responses shall not count toward the results, except that abstentions may be used in the determination of a quorum. A quorum shall mean [XX%] of the members of the [registered ballot body/ballot pool] submitted a ballot.

ERCOT’s regional standard development procedure or other governing documents contain the following language relative to this Common Attribute:

At least one (1) ERCOT Member Representative from five (5) of the seven (7) ERCOT Market Participant Segments must vote to constitute a quorum. Each Segment shall have one (1) Segment Vote. The representative of each Voting ERCOT Member shall receive an equal fraction of its Segment Vote. If a draft Standard receives 4.67 or greater affirmative votes during the 15-day voting period, the RSC will forward the Standard to the ERCOT BOD for action (Step 7).

COMMON ATTRIBUTE 20

Under no circumstances may the board substantively modify the proposed regional reliability standard.

ERCOT’s regional standard development procedure or other governing documents contain the following language relative to this Common Attribute:

Under no circumstances may the board substantively modify the proposed ERCOT-Specific Reliability Standard.

COMMON ATTRIBUTE 21

Once a regional reliability standard is approved by the board, the standard will be submitted to NERC for approval and filing with FERC.

ERCOT’s regional standard development procedure or other governing documents contain the following language relative to this Common Attribute:
COMMON ATTRIBUTE 22

- **Open** - Participation in the development of a regional reliability standard shall be open to all organizations that are directly and materially affected by the Texas RE bulk power system reliability. There shall be no undue financial barriers to participation. Participation shall not be conditioned upon membership in Texas RE, and shall not be unreasonably restricted on the basis of technical qualifications or other such requirements. Meetings of drafting teams shall be open to the Texas RE members and others.

ERCOT’s regional standard development procedure or other governing documents contain the following language relative to this Common Attribute:

See TRE Process – Appendix B, I. Principles, – 3rd ¶ - Open:

- **Open** - Participation in the development of an ERCOT-Specific Reliability Standard shall be open to all organizations that are directly and materially affected by ERCOT bulk power system reliability. There shall be no undue financial barriers to participation. Participation shall not be conditioned upon membership in ERCOT, and shall not be unreasonably restricted on the basis of technical qualifications or other such requirements. Meetings of drafting teams shall be open to ERCOT members and others.

COMMON ATTRIBUTE 23

- **Balanced** - The Texas RE standards development process strives to have an appropriate balance of interests and shall not be dominated by any two interest categories and no single interest category shall be able to defeat a matter.

ERCOT’s regional standard development procedure or other governing documents contain the following language relative to this Common Attribute:

See TRE Process – Appendix B, I. Principles, – 3rd ¶ - Balanced:
• **Balanced** — The Texas RE Standards Development Process strives to have an appropriate balance of interests and shall not be dominated by any two interest categories and no single interest category shall be able to defeat a matter.

**COMMON ATTRIBUTE 24**

- **Inclusive** — Any entity (person, organization, company, government agency, individual, etc.) with a direct and material interest in the bulk power system in the Texas RE area shall have a right to participate by: a) expressing a position and its basis, b) having that position considered, and c) having the right to appeal.

ERCOT’s regional standard development procedure or other governing documents contain the following language relative to this Common Attribute:

See TRE Process – Appendix B, I. Principles, – 3rd ¶ - Inclusive:

- **Inclusive** — Any entity (person, organization, company, government agency, individual, etc.) with a direct and material interest in the ERCOT Bulk Power System in the Texas RE area shall have a right to participate by: a) expressing a position and its basis, b) having that position considered, and c) having the right to appeal.

**COMMON ATTRIBUTE 25**

- **Fair due process** — The regional reliability standards development procedure shall provide for reasonable notice and opportunity for public comment. At a minimum, the procedure shall include public notice of the intent to develop a standard, a public comment period on the proposed standard, due consideration of those public comments, and a ballot of interested stakeholders.

ERCOT’s regional standard development procedure or other governing documents contain the following language relative to this Common Attribute:

See TRE Process – Appendix B, I. Principles, – 3rd ¶ - Fair due process:

- **Fair due process** — The Texas RE Reliability Standards Development Process shall provide for reasonable notice and opportunity for public comment. At a minimum, the procedure shall include public notice of the intent to develop a standard, a public comment period on the proposed standard, due consideration of those public comments, and a ballot of interested stakeholders.
COMMON ATTRIBUTE 26

- **Transparent** — All actions material to the development of regional reliability standards shall be transparent. All standards development meetings shall be open and publicly noticed on the regional entity’s Web site.

ERCOT’s regional standard development procedure or other governing documents contain the following language relative to this Common Attribute:

See TRE Process – Appendix B, I. Principles, – 3rd ¶ - Transparent:

- **Transparent** — All actions material to the development of regional reliability standards shall be transparent. All standards development meetings shall be open and publicly noticed on the regional entity’s Web site.

COMMON ATTRIBUTE 27

- Does not unnecessarily delay development of the proposed reliability standard.

ERCOT’s regional standard development procedure or other governing documents contain the following language relative to this Common Attribute:

See TRE Process – Appendix B, I. Principles, – 3rd ¶ - Last bullet:

- Does not unnecessarily delay development of the proposed ERCOT-Specific Reliability Standard.

COMMON ATTRIBUTE 28

Each standard shall enable or support one or more of the reliability principles, thereby ensuring that each standard serves a purpose in support of the reliability of the regional bulk power system. Each standard shall also be consistent with all of the reliability principles, thereby ensuring that no standard undermines reliability through an unintended consequence.

ERCOT’s regional standard development procedure or other governing documents contain the following language relative to this Common Attribute:

See TRE Process – Appendix B, I. Principles, – 5th ¶:
COMMON ATTRIBUTE 29

While reliability standards are intended to promote reliability, they must at the same time accommodate competitive electricity markets. Reliability is a necessity for electricity markets, and robust electricity markets can support reliability. Recognizing that bulk power system reliability and electricity markets are inseparable and mutually interdependent, all regional reliability standards shall be consistent with NERC’s market interface principles. Consideration of the market interface principles is intended to ensure that standards are written such that they achieve their reliability objective without causing undue restrictions or adverse impacts on competitive electricity markets.

ERCOT’s regional standard development procedure or other governing documents contain the following language relative to this Common Attribute:

See TRE Process – Appendix B, I. Principles, – 6th ¶:

While reliability standards are intended to promote reliability, they must at the same time accommodate competitive electricity markets. Reliability is a necessity for electricity markets, and robust electricity markets can support reliability. Recognizing that bulk power system reliability and electricity markets are inseparable and mutually interdependent, all ERCOT-Specific Reliability Standards shall be consistent with NERC’s market interface principles. Consideration of the market interface principles is intended to ensure that standards are written such that they achieve their reliability objective without causing undue restrictions or adverse impacts on competitive electricity markets.

COMMON ATTRIBUTE 30

To ensure uniformity of regional reliability standards, a regional reliability standard shall consist of the elements identified in this section of the procedure. These elements are intended to apply a systematic discipline in the development and revision of standards. This discipline is necessary to achieving standards that are measurable, enforceable, and consistent.

ERCOT’s regional standard development procedure or other governing documents contain the following language relative to this Common Attribute:
See TRE Process – Appendix B, II. Regional Reliability Standard Characteristics and Elements, b. Elements of a Regional Reliability Standard – 1st ¶:

To ensure uniformity of regional reliability standards, an ERCOT-Specific Reliability Standard shall consist of the elements identified in this section of the procedure. These elements are intended to apply a systematic discipline in the development and revision of standards. This discipline is necessary to achieving standards that are measurable, enforceable, and consistent.

COMMON ATTRIBUTE 31

All mandatory requirements of a regional reliability standard shall be within the standard. Supporting documents to aid in the implementation of a standard may be referenced by the standard but are not part of the standard itself.

ERCOT’s regional standard development procedure or other governing documents contain the following language relative to this Common Attribute:

See TRE Process – Appendix B, II. Regional Reliability Standard Characteristics and Elements, b. Elements of a Regional Reliability Standard – 2nd ¶:

| Applicability | Clear identification of the functional classes of entities responsible for complying with the standard, noting any specific additions or exceptions. If not applicable to the entire Texas RE area, then a clear identification of the portion of the bulk power system to which the standard applies. Any limitation on the applicability of the standard based on electric facility requirements should be described. |

ERCOT’s regional standard development procedure or other governing documents contain the following language relative to this Common Attribute:

See TRE Process – Appendix B, II. Regional Reliability Standard Characteristics and Elements, b. Elements of a Regional Reliability Standard – Table 1 – Applicability:
COMMON ATTRIBUTE 33

| Measure(s) | Each requirement shall be addressed by one or more measures. Measures are used to assess performance and outcomes for the purpose of determining compliance with the requirements stated above. Each measure will identify to whom the measure applies and the expected level of performance or outcomes required demonstrating compliance. Each measure shall be tangible, practical, and as objective as is practical. It is important to realize that measures are proxies to assess required performance or outcomes. Achieving the measure should be a necessary and sufficient indicator that the requirement was met. Each measure shall clearly refer to the requirement(s) to which it applies. |

ERCOT’s regional standard development procedure or other governing documents contain the following language relative to this Common Attribute:

See TRE Process – Appendix B, II. Regional Reliability Standard Characteristics and Elements, b. Elements of a Regional Reliability Standard –Table 1 - Measures(s):

I. Introduction

This document defines the fair and open process for adoption, approval, revision, reaffirmation, and deletion of an ERCOT-Specific Reliability Standard (Standard) by the Texas Regional Entity, a division of Electric Reliability Council of Texas, Inc. ("Texas RE"). Standards provide for the reliable regional and sub-regional planning and operation of the Bulk Power System (BPS), consistent with Good Utility Practice within a Regional Entity's ("RE's") geographical footprint.

Due process is the key to ensuring that Standards are developed in an environment that is equitable, accessible and responsive to the requirements of all interested and affected parties. An open and fair process ensures that all interested and affected parties have an opportunity to participate in a Standard's development.

Any entity (person, organization, company, government agency, individual, etc.) with a direct and material interest in the bulk power system has a right to participate by: a) expressing a position and its basis, b) having that position considered, and c) having the right to appeal.

Proposed ERCOT-Specific Standards shall be subject to approval by NERC, as the electric reliability organization, and by FERC before becoming mandatory and enforceable under Section 215 of the FPA. No Standard shall be effective within the Texas RE area unless filed by NERC with FERC and approved by FERC.

ERCOT-Specific Standards shall provide for as much uniformity as possible with reliability standards across the interconnected bulk power system of the North American continent. An ERCOT-Specific Standard shall be more stringent than a continent-wide reliability standard, including a regional difference that addresses matters that the continent-wide reliability standard does not, or shall be a regional difference necessitated by a physical difference in the bulk power system. An ERCOT-Specific Standard that satisfies the statutory and regulatory criteria for approval of proposed North American reliability standards, and that is more stringent than a continent-wide reliability standard, would generally be acceptable.

ERCOT-Specific Standards, when approved by FERC, shall be made part of the body of NERC reliability standards and shall be enforced upon all applicable bulk power system owners, operators, and users within the Texas RE area, regardless of membership in the region.

II. Background

The Texas RE may develop, through their own processes, separate Standards that go beyond, add detail to, or implement NERC Reliability Standards; obtain a Regional Variance; or otherwise address issues that are not addressed in NERC Reliability Standards.

NERC Reliability Standards and ERCOT-Specific Standards are all to be included within the Texas RE's Compliance Program.
Standards are developed consistent with the following philosophies according to the process defined within this document:

- Developed in a fair and open process that provides an opportunity for all interested parties to participate;
- Does not have an adverse impact on commerce that is not necessary for reliability;
- Provides a level of BPS reliability that is adequate to protect public health, safety, welfare, and national security and does not have a significant adverse impact on reliability; and
- Based on a justifiable difference between regions or between sub-regions within the Regional geographic area.

The NERC Board of Trustees has adopted reliability principles and market interface principles to define the purpose, scope, and nature of reliability standards. As these principles are fundamental to reliability and the market interface, these principles provide a constant beacon to guide the development of reliability standards. The NERC Board of Trustees may modify these principles from time to time, as necessary, to adapt its vision for reliability standards. Persons and committees that are responsible for the Texas RE Standards Process shall consider these NERC Principles in the execution of those duties.

NERC Reliability Standards are based on certain reliability principles that define the foundation of reliability for the North American BPS. Each Standard shall enable or support one or more of the reliability principles, thereby ensuring that each Standard serves a purpose in support of reliability of the North American BPS. Each Standard shall also be consistent with all of the reliability principles, thereby ensuring that no Standard undermines reliability through an unintended consequence.

While NERC Reliability Standards are intended to promote reliability, they must at the same time accommodate competitive electricity markets. Reliability is a necessity for electricity markets, and robust electricity markets can support reliability. Recognizing that BPS reliability and electricity markets are inseparable and mutually interdependent, all Standards shall be consistent with the market interface principles. Consideration of the market interface principles is intended to ensure that Standards are written such that they achieve their reliability objective without causing undue restrictions or adverse impacts on competitive electricity markets.

III. Regional Reliability Standards Definition

A NERC Reliability Standard defines certain obligations or requirements of entities that operate, plan, and use the Bulk Power Systems of North America. The obligations or requirements must be material to reliability and measurable. Each obligation and requirement shall support one or more of the stated reliability principles and shall be consistent with all of the stated reliability and market interface principles.
The Texas RE may develop, through its own processes, separate Standards that go beyond, add detail to, or implement NERC Reliability Standards; obtain a Regional Variance; or that cover matters not addressed in NERC Reliability Standards. Regional Criteria may be developed and exist in ERCOT Protocols, Operating Guides, and/or Procedures separately from NERC Reliability Standards, or may be proposed as NERC Reliability Standards. Regional Criteria that exist separately from NERC Reliability Standards shall not be inconsistent with or less stringent than NERC Reliability Standards.

IV. Roles in the Texas Regional Entity (RE) Reliability Standards Development Process

Originator - Any person, acting as a representative of an organization which is directly and materially affected by the operation of ERCOT's BPS, is allowed to request a Standard be developed or an existing Standard modified, or deleted, by creating a Standards Authorization Request (SAR) as described in Appendix B to this document.

Board of Directors (BOD) – The ERCOT Board of Directors shall act on any proposed Standard that has gone through the process. Once the Standard is approved by the Federal Energy Regulatory Commission (FERC), compliance with the Standard will be enforced consistent with the terms of the Standard.

Registered ballot body — The registered ballot body comprises all entities or individuals that a) qualify for one of the stakeholder segments; are registered with ERCOT as potential ballot participants in the voting on standards; and are current with any designated fees. Each member of the registered ballot body is eligible to vote on standards. Each standard action has its own ballot pool formed of interested members of the registered ballot body.

Reliability and Operations Subcommittee (ROS) — A balanced subcommittee comprised of the seven (7) ERCOT Market Participant Segments responsible for reviewing events and issues as they may impact ERCOT system reliability and operations.

Reliability Standards Committee (RSC) – A balanced committee comprised of the seven (7) ERCOT Market Participant Segments that will consider which requests for new or revised Standards shall be assigned for development (or existing Standards considered for deletion). The RSC will also vote to recommend whether proposed new or revised Standards should be presented for a vote to all ERCOT Market Participants.

Reliability Standards Manager (RSM) – A person or persons on the Texas RE staff assigned the task of ensuring that the development, revision or deletion of Standards is in accordance with this document. The RSM works to ensure the integrity of the process and consistency of quality and completeness of the Standards. The RSM manages the Standards Development Process, and coordinates and facilitates all actions contained in all steps in the process.
Reliability Standards Staff – Employees of the Texas RE that work with or for the Reliability Standards Manager.

Standard Drafting Team (SDT) – A team of technical experts, assigned by the ERCOT Reliability and Operations Subcommittee (ROS), and typically includes a member of the Texas RE staff and the Originator, assigned the task of developing a proposed Standard based upon an approved SAR using the Standard Development Process contained in this document.

V. Texas RE Reliability Standards Development Process

A. Assumptions and Prerequisites

The process for developing and approving Standards is generally based on the procedures of the American National Standards Institute (ANSI) and other standards-setting organizations in the United States and Canada. The Standards development process has the following characteristics:

- **Due process** – Any person representing an organization with a direct and material interest has a right to participate by:
  a) Expressing an opinion and its basis,
  b) Having that position considered, and
  c) Appealing any negative decision

- **Openness** – Participation is open to all organizations that are directly and materially affected by ERCOT’s BPS reliability. There shall be no undue financial barriers to participation. Participation shall not be conditioned upon membership in ERCOT, and shall not be unreasonably restricted on the basis of technical qualifications or other such requirements. Meetings of SDTs are open to ERCOT’s Membership and to others and all proposed SARs and Standards are posted for comment on the Texas RE Website.

- **Balance** – The Texas RE Standards Development Process strives to have an appropriate balance of interests and shall not be dominated by any single interest category.

B. Regional Reliability Standards Development Process Steps

Note: The term “days” below refers to calendar days.

The Texas RE will coordinate with NERC such that the acknowledgement of receipt of a standard request identified in Step 1, notice of comment posting period identified in Step 4, and notice for vote identified in Step 5 below are concurrently posted on both the Texas RE and NERC websites.
Step 1 - Development of a Standards Authorization Request (SAR) to Develop, Revise or Delete a Regional Reliability Standard

Any entity (Originator) which is directly or materially impacted by the operation of the BPS within the geographical footprint of the Texas RE may request, via a submittal of a Standard Authorization Request (SAR) form, for the development, modification, or deletion of an ERCOT Standard or Regional Variance. The following entities may submit a SAR:

- Any market participant,
- Any entity that is an ERCOT Member,
- PUCT Staff,
- ERCOT Staff,
- TRE Staff, and
- Any entity that resides (or represents residents) in Texas or operates in the Texas electricity market.

Any such request shall be submitted to the Texas RE Reliability Standards Manager, or his/her designee. The SAR form may be downloaded from the Texas RE Website.

An acceptable SAR contains a description of the proposed Standard subject matter containing sufficiently descriptive detail to clearly define the purpose, scope, impacted parties, and other relevant information of the proposed Standard.

The Reliability Standards Manager will verify that the submitted SAR form has been adequately completed. The Reliability Standards Manager may offer the Originator suggestions regarding changes and/or improvements to enhance clarity and assist the ERCOT community to understand the Originator’s intent and objectives. The Originator is free to accept or reject these suggestions. Within 15 days the Reliability Standards Manager will electronically acknowledge receipt of the SAR.

The Reliability Standards Manager will forward all adequately completed SARs to the RSC. Within 60 days of receipt of an adequately completed SAR, the RSC shall determine the disposition of the SAR and post for review and possible comment.

The disposition decision and decision process shall use the normal “business rules and procedures” of the RSC then in effect. The RSC may take one of the following actions by motion and majority vote:

- Accept the SAR as a candidate for: development of a new Standard, revision of an existing Standard, or deletion of an existing Standard. The RSC may, in its sole discretion, expand or narrow the scope of the SAR under consideration. The RSC shall prioritize the development of SARs as may be required based on the number of SARs under development at any time.

- Reject the SAR. If the RSC rejects a SAR, a written explanation for rejection will be delivered to the Originator within 30 days of the decision.
• Remand the SAR back to the Originator for additional work. The Reliability Standards Manager will make reasonable efforts to assist the Originator in addressing the deficiencies identified by the RSC. The Originator may then resubmit the modified SAR using the process above. The Originator may choose to withdraw the SAR from further consideration prior to re-submittal to the RSC.

Any SAR that is accepted by the RSC for development of a Standard (or modification or deletion of an existing Standard) shall be posted for public viewing on the Texas RE Website. SARs will be posted and the status publicly noted at regularly scheduled (appropriately two weeks) intervals.

Any documentation of the deliberations of the RSC concerning SARs shall be made available according to normal “business rules and procedures” of the RSC then in effect.

Texas RE Staff shall submit a written report to the ERCOT BOD on a periodic basis (at least quarterly at regularly scheduled ERCOT BOD Meetings) showing the status of all SARs that have been brought to the RSC for consideration.

Step 2 – Formation of the Standard Drafting Team and Declaration of Milestone Date

Upon acceptance by the RSC of a SAR for development of a new Standard (or modification or deletion of an existing Standard), the RSC shall direct the ROS to assemble a qualified balanced slate for the SDT. The Reliability Standards Manager will solicit drafting team nominees. The SDT will consist of a group of people (members of ERCOT and, as appropriate, non-members) who collectively have the necessary technical expertise and work process skills. The Reliability Standards Manager will recommend a slate of ad-hoc individuals or a pre-existing task force, work group, or similar for the SDT based upon the ROS’ desired team capabilities.

The Reliability Standards Manager will insure that team membership receives all necessary administrative support. This support typically includes a Texas RE staff member and the Originator if he/she chooses to participate. The ROS appoints the interim chair (should not be a staff person) of the SDT. The SDT will elect the permanent Chair and Vice-chair at its first meeting.

The Reliability Standards Manager submits the proposed list of names of the SDT to the ROS. The ROS will either accept the recommendations of the Reliability Standards Manager or modify the SDT slate, as it deems appropriate within 60 days of accepting a SAR for development.

Upon approval of the SDT slate by the ROS, the RSC will declare a preliminary date on which the SDT is expected to have ready a completed draft Standard and associated supporting documentation available for consideration by the ERCOT Membership.

Step 3 – Work and Work Product of the Standard Drafting Team
The Reliability Standards Manager will then develop a work plan for completing the Standard development work, including the establishment of milestones for completing critical elements of the work in sufficient detail to ensure that the SDT will meet the date objective established by the RSC or the SDT shall propose an alternative date. This plan is then delivered to the RSC for its concurrence.

The SDT is to meet, either in person or via electronic means as necessary, establish sub-work teams (made up of members of the SDT) as necessary, and performs other activities to address the parameters of the SAR and the milestone date(s) established by the RSC.

The work product of the SDT will consist of the following:

- A draft Standard consistent with the SAR on which it was based.
- An assessment of the impact of the SAR on neighboring regions, and appropriate input from the neighboring regions if the SAR is determined to impact any neighboring region.
- An implementation plan, including the nature, extent and duration of field-testing, if any.
- Identification of any existing Standard that will be deleted, in part or whole, or otherwise impacted by the implementation of the draft Standard
- Technical reports and/or work papers that provide technical support for the draft Standard under consideration.
- Document the perceived reliability impact should the Standard be approved.

Upon completion of these tasks, the SDT submits these documents to the RSC, which will verify that the proposed Standard is consistent with the SAR on which it was developed.

The SDT regularly (at least once each month) informs the RSC of its progress in meeting a timely completion of the draft Standard. The SDT may request RSC scope changes of the SAR at any point in the Standard Development Process.

The RSC may, at any time, exercise its authority over the Standards Development Process by directing the SDT to move to Step 4 (below) and post for comment the current work product. If there are competing drafts, the RSC may, at its sole discretion, have posted the version(s) of the draft Standard for comment on the Texas RE Website. The RSC may take this step at any time after a SDT has been commissioned to develop the Standard.

Step 4 – Comment Posting Period

At the direction from the RSC, the Reliability Standards Manager then facilitates the posting of the draft Standard on the Texas RE Website, along with a draft implementation plan and supporting documents, for a 30-day comment period. The Reliability Standards Manager shall also inform ERCOT Members and other potentially interested entities inside or outside of ERCOT of the posting using typical membership communication procedures then currently in effect or by other means as deemed appropriate.
Within 30 days of the conclusion of the 30-day comment posting period the SDT shall convene and consider changes to the draft Standard, the implementation plan and/or supporting technical documents based upon comments received. Based upon these comments, the SDT may elect to return to Step 3 to revise the draft Standard, implementation plan, and/or supporting technical documentation.

The SDT shall prepare a "modification report" summarizing the comments received and the changes made as a result of these comments. The modification report also summarizes comments that were rejected by the SDT and the reason(s) that these comments were rejected, in part or whole. Responses to all comments will be posted on the Texas RE Website no later than the next posting.

**Step 5 – Posting for Voting by ERCOT Membership**

Upon recommendation of the drafting team, and if the RSC concurs that all of the requirements for development of the standard have been met, the Reliability Standards Manager shall post the proposed standard and implementation plan for ballot on the Texas RE Website and shall announce the vote to approve the standard, including when the vote will be conducted and the method for voting. Once the notice for a vote has been issued, no substantive modifications may be made to the proposed standard unless the revisions are posted and a new notice of the vote is issued.

The Reliability Standards Manager will schedule a Vote by the ERCOT Membership which is to be scheduled to commence no sooner than 15 days and no later than 30 days following this posting.

The ERCOT Membership shall be allowed to vote over a period of 15 days. It is expected that votes will be submitted electronically, but may be submitted through other means as approved by the RSC. All members of ERCOT are eligible to participate in voting on proposed new Standards, Standard revisions, or Standard deletions. Each member company shall have one vote. The contact designated as primary representative to the Texas RE is the voting member with the secondary contact as the backup.

Voting is an advisory to the ERCOT BOD. The voting results will be composed of only the votes from ERCOT Members responding within the 15-day voting period. Votes may be accompanied by comments explaining the vote, but are not required. All comments shall be responded to and posted to the Texas RE Website prior to going to the RSC or ERCOT BOD.

**Step 6A – Membership Voting Receives 4.67 Affirmative Votes**

The Texas RE registered ballot body shall be able to vote on the proposed standard during a 15-day period.

Votes shall be submitted electronically, or through other means as approved by the RSC.
All members of ERCOT are eligible to participate in voting on proposed new standards, standard revisions, or standard deletions. There shall be one person designated as the primary representative of each entity.

At least one (1) ERCOT Member Representative from five (5) of the seven (7) ERCOT Market Participant Segments must vote to constitute a quorum. Each Segment shall have one (1) Segment Vote. The representative of each Voting ERCOT Member shall receive an equal fraction of its Segment Vote. If a draft Standard receives 4.67 or greater affirmative votes during the 15-day voting period, the RSC will forward the Standard to the ERCOT BOD for action (Step 7).

**Step 6B – Membership Voting Does Not Receive 4.67 Affirmative Votes**

If a draft Standard does not receive 4.67 or greater affirmative votes during the 15-day voting period, the RSC may:

- Revise the SAR on which the draft Standard was based and remand the development work back to the original SDT or a newly appointed SDT. The resulting draft Standard and/or implementation plan will be posted for a second voting period. The RSC may require a second comment period prior to a second voting period. The second posting of the draft Standard, implementation plan, and supporting documentation shall be within 60 days of the RSC action.
  - If a draft Standard receives 4.67 or greater affirmative votes during the second voting period, the RSC will forward to the ERCOT BOD for action (Step 7).
  - If a draft Standard does not receive 4.67 or greater affirmative votes during the second voting period, the RSC will refer the draft Standard and implementation plan to the ERCOT BOD. The RSC may also submit an assessment, opinion, and recommendations to the ERCOT BOD (Step 7).

- Direct the existing SDT to reconsider or modify certain aspects of the draft Standard and/or implementation plan. The resulting draft Standard and/or implementation plan will be posted for a second voting period. The RSC may require a second comment period prior to the second voting period. The second posting of the draft Standard, implementation plan, and supporting documentation shall be within 60 days of the RSC action.
  - If a draft Standard receives 4.67 or greater affirmative votes on the second voting period, the RSC will forward it to the ERCOT BOD for action (Step 7).
  - If a draft Standard does not receive 4.67 or greater affirmative votes on the second voting period, the RSC will refer the draft Standard and implementation plan to the ERCOT BOD. The RSC may also submit an assessment, opinion, and recommendations to the ERCOT BOD (Step 7).
• Recommend termination of all work on the development of the Standard action under consideration and so notify the ERCOT BOD.

**Step 7 – Action by the RE Board of Directors**

A proposed Regional Reliability Standard submitted to the ERCOT BOD for action shall be publicly posted at least 10 days prior to action by the BOD. At a regular or special meeting, the ERCOT BOD shall consider adoption of the draft Standard. The BOD shall be provided with an “informational package” which includes:

- The draft Standard and any modification or deletion of other related existing Standard(s)
- Implementation Plan (including recommending field testing and effective dates)
- Technical Documentation supporting the draft Standard
- A summary of the vote and summary of the comments and responses that accompanied the votes.

The BOD will consider the results of the voting and dissenting opinions. The BOD will consider any advice offered by the RSC and may:

- Approve the proposed Regional Reliability Standard;
- Remand the proposed Regional Reliability Standard to the RSC with comments and instructions; or
- Disapprove the proposed Regional Reliability Standard action without recourse.

Under no circumstances may the board substantively modify the proposed ERCOT-Specific Reliability Standard.

Once an ERCOT-Specific Reliability Standard is approved by the BOD, the standard will be submitted to NERC for approval and filing with FERC.

**Step 8 - Implementation of Regional Reliability Standard**

Upon approval of a draft Standard action by the ERCOT BOD, the Reliability Standards Manager will notify the membership of such action of the BOD through the normal and customary membership communication procedures and processes then in effect. The Reliability Standards Manager will take whatever steps are necessary to have a Standard reviewed and/or approved by NERC or any successor organization.

**C. Regional Reliability Standards Integration**

Once the regional reliability standard is approved by FERC the Reliability Standards Manager shall notify the stakeholders of the effective date. The Reliability Standards Manager will also notify the Texas RE Compliance Staff for integration into the Texas RE Compliance Program.
Appendix A – Stakeholder Representation

The Texas RE stakeholder representation for ERCOT-Specific Reliability Standards development is as follows:

I. Balanced Decision-Making in Committees

A Reliability Standards Committee (RSC), comprised of representatives from all market segments (Independent Generators, Investor-Owned Utilities, Power Marketers, Retail Electric Providers, Municipally-Owned Utilities, Cooperatives, and Consumers), to provide balanced decision-making and due process for ERCOT-Specific Reliability Standards and Regional Variances. The RSC will receive, consider, and vote upon requests for new or revised ERCOT-Specific Reliability Standards and Regional Variances.

The RSC will consider any requests for ERCOT-Specific Reliability Standards or Regional Variances from parties that are directly and materially affected by the operation of the ERCOT Bulk Power System.

II. ERCOT Board of Directors (BOD)

The Texas RE is a division of the Electric Reliability Council of Texas (ERCOT), a Texas non-profit corporation that is the Independent System Operator for the ERCOT Region, and is governed by a combination independent and balanced stakeholder board, as required by Section 39.151 of the Texas Public Utility Regulatory Act (PURA). The BOD includes the following individuals:

- Five independent individuals who are unaffiliated with any electric market participant who are each approved by the Texas Public Utility Commission (PUCT) for a three-year term;
- Six electric market participant representatives from each of the following market segments: Independent Generators, Investor-Owned Utilities, Power Marketers, Retail Electric Providers, Municipally-Owned Utilities, and Cooperatives;
- Three Consumer representatives;
- CEO of ERCOT (as ex officio voting Director); and
- Chairman of the PUCT (as ex officio non-voting Director).

Although the ERCOT BOD will have the final vote on proposed ERCOT-Specific Reliability Standards and Regional Variances, the ERCOT BOD will not have involvement in Reliability Standard compliance and enforcement activities. The PUCT will provide due process (a hearing).

III. Ballot Body

A Ballot Body will be comprised of representatives from all market segments (Independent Generators, Investor-Owned Utilities, Power Marketers, Retail Electric Providers,
Municipally-Owned Utilities, Cooperatives, and Consumers), to provide balanced decision-making on ERCOT-Specific Reliability Standards and Regional Variances. The Ballot Body will vote on all proposed new or revised ERCOT-Specific Reliability Standards and Regional Variances.

At all meetings, each Segment shall have one (1) Segment Vote. The representative of each Voting Entity, present at the meeting and participating in the vote, shall receive an equal fraction of its Segment’s Vote, except for the Consumer Segment which shall be divided into three sub-segments (Residential, Commercial, and Industrial) that receive one third of the Consumer Segment Vote. For the Consumer Segment, if no representative from a sub-segment is present at a meeting, such sub-segment’s fractional vote is allocated equally to the sub-segment(s) that are present. If a representative from a sub-segment abstains from a vote, the fraction of the Consumer Segment Vote allocated to such representative is not included in the vote tally.

Entities entitled to vote (Voting Entities) are ERCOT Corporate Members, ERCOT Associate Members, and ERCOT Adjunct Members. Voting Entities must align themselves each calendar year with a Segment for which they qualify or, for Adjunct Members, a Segment to which they are similar. Voting Entities that align themselves with a Segment must be aligned with that same Segment for all ERCOT subcommittees, and remain aligned with that Segment for the entire calendar year. For the Residential sub-segment of the Consumer Segment, Voting Entities are limited to the Standing Representative or their designated Alternate Representative. Only one representative of each Voting Entity present at the meeting may vote. In the event that a representative of a Voting Entity abstains from a vote, the Segment Vote is allocated among the members casting a vote; except for the Consumer Segment.

In the majority of cases, e-mail votes for the purpose of approving an ERCOT-Specific Reliability Standard will be conducted. For e-mail votes, a representative of each Voting Entity shall have one (1) vote. Each Segment shall have one (1) Segment Vote and participation requires casting a vote or abstaining. The same rules apply to e-mail voting as voting at a meeting.
Appendix B — Principles, Characteristics, and Special Procedures

I. Principles

Due process is the key to ensuring that regional reliability standards are developed in an environment that is equitable, accessible and responsive to the requirements of all interested and affected parties. An open and fair process ensures that all interested and affected parties have an opportunity to participate in the development of a standard.

The Texas RE develops ERCOT-Specific Reliability Standards with due consideration of the following principles, in accordance with the steps outlined in this procedure. The process must ensure that any ERCOT-Specific Reliability Standard is technically sound and the technical specifications proposed would achieve a valuable reliability objective.

The standards development process has the following characteristics:

- **Open** - Participation in the development of an ERCOT-Specific Reliability Standard shall be open to all organizations that are directly and materially affected by ERCOT bulk power system reliability. There shall be no undue financial barriers to participation. Participation shall not be conditioned upon membership in ERCOT, and shall not be unreasonably restricted on the basis of technical qualifications or other such requirements. Meetings of drafting teams shall be open to ERCOT members and others.

- **Balanced** - The Texas RE Standards Development Process strives to have an appropriate balance of interests and shall not be dominated by any two interest categories and no single interest category shall be able to defeat a matter.

- **Inclusive** — Any entity (person, organization, company, government agency, individual, etc.) with a direct and material interest in the ERCOT Bulk Power System in the Texas RE area shall have a right to participate by: a) expressing a position and its basis, b) having that position considered, and c) having the right to appeal.

- **Fair due process** — The Texas RE Reliability Standards Development Process shall provide for reasonable notice and opportunity for public comment. At a minimum, the procedure shall include public notice of the intent to develop a standard, a public comment period on the proposed standard, due consideration of those public comments, and a ballot of interested stakeholders.

- **Transparent** — All actions material to the development of regional reliability standards shall be transparent. All standards development meetings shall be open and publicly noticed on the regional entity’s Web site.

- **Does not unnecessarily delay development of the proposed ERCOT-Specific Reliability Standard.**
NERC has adopted reliability principles and market interface principles to define the purpose, scope, and nature of reliability standards. These principles are to be used to guide the development of reliability standards, including regional reliability standards. The NERC Board of Trustees may modify these principles from time to time, as necessary, to adapt its vision for reliability standards.

Each ERCOT-Specific Reliability Standard shall enable or support one or more of the reliability principles, thereby ensuring that each Standard serves a purpose in support of the reliability of the ERCOT bulk power system. Each Standard shall also be consistent with all of the reliability principles, thereby ensuring that no Standard undermines reliability through an unintended consequence.

While reliability standards are intended to promote reliability, they must at the same time accommodate competitive electricity markets. Reliability is a necessity for electricity markets, and robust electricity markets can support reliability. Recognizing that bulk power system reliability and electricity markets are inseparable and mutually interdependent, all ERCOT-Specific Reliability Standards shall be consistent with NERC’s market interface principles. Consideration of the market interface principles is intended to ensure that standards are written such that they achieve their reliability objective without causing undue restrictions or adverse impacts on competitive electricity markets.

II. Regional Reliability Standard Characteristics and Elements

a. Characteristics of a Regional Reliability Standard

The following characteristics describe objectives to be considered in the development of ERCOT-Specific Reliability Standards:

1. **Applicability** — Each ERCOT-Specific Reliability Standard clearly identifies the functional classes of entities responsible for complying with the standard, with any specific additions or exceptions noted. Such functional classes include: Reliability Coordinators, Balancing Authorities, Transmission Operators, Transmission Owners, Generator Operators, Generator Owners, Interchange Authorities, Transmission Service Providers, Market Operators, Planning Authorities, Transmission Planners, Resource Planners, Load-Serving Entities, Purchasing-Selling Entities, and Distribution Providers. Each ERCOT-Specific Reliability Standard identifies the geographic applicability of the standard. A standard may also identify any limitations on the applicability of the standard based on electric facility characteristics.

2. **Reliability Objectives** — Each ERCOT-Specific Reliability Standard has a clear statement of purpose that describes how the standard contributes to the reliability of the ERCOT bulk power system.

3. **Requirement or Outcome** — Each ERCOT-Specific Reliability Standard states one or more requirements, which if achieved by the applicable entities, will provide for a
reliable bulk power system, consistent with good utility practices and the public interest.

4. **Measurability** — Each performance requirement is stated so as to be objectively measurable by a third party with knowledge or expertise in the area addressed by that requirement. Each performance requirement has one or more associated measures used to objectively evaluate compliance with the requirement. If performance can be practically measured quantitatively, metrics are provided to determine satisfactory performance.

5. **Technical Basis in Engineering and Operations** — Each ERCOT-Specific Reliability Standard is based upon sound engineering and operating judgment, analysis, or experience, as determined by expert practitioners in that particular field.

6. **Completeness** — Each ERCOT-Specific Reliability Standard is complete and self-contained. Supporting references may be provided with standards, but they are not part of the standard and do not impose mandatory requirements.

7. **Clear Language** - Each ERCOT-Specific Reliability Standard is stated using clear and unambiguous language. Responsible entities, using reasonable judgment and in keeping with good utility practice, are able to arrive at a consistent understanding of the required performance.

8. **Practicality** — Each ERCOT-Specific Reliability Standard establishes requirements that can be practically implemented by the assigned responsible entities within the specified effective date and thereafter.

9. **Consistent Terminology** — To the extent possible, ERCOT-Specific Reliability Standards use a set of standard terms and definitions that are approved through the regional standards development procedure.

Although ERCOT-Specific Reliability Standards have a common format and process, several types of standards may exist, each with a different approach to measurement:

- **Technical standards** are related to the provision, maintenance, operation, or state of electric systems, and will likely contain measures of physical parameters that are technical in nature.

- **Performance standards** are related to the actions of entities providing for or impacting the reliability of the bulk power system, and will likely contain measures of the results of such actions or qualities of performance of such actions.

- **Preparedness standards** are related to the actions of entities to be prepared for conditions that are unlikely to occur, but are nonetheless critical to reliability,
and will likely contain measures of such preparations or the state of preparedness.

b. Elements of a Regional Reliability Standard

To ensure uniformity of regional reliability standards, an ERCOT-Specific Reliability Standard shall consist of the elements identified in this section of the procedure. These elements are intended to apply a systematic discipline in the development and revision of standards. This discipline is necessary to achieving standards that are measurable, enforceable, and consistent.

All mandatory requirements of a regional reliability standard shall be within the standard. Supporting documents to aid in the implementation of a standard may be referenced by the standard but are not part of the standard itself.

Table 1 — Performance Elements of a Regional Reliability Standard

<table>
<thead>
<tr>
<th>Identification Number</th>
<th>A unique identification number assigned in accordance with an administrative classification system to facilitate tracking and reference.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Title</td>
<td>A brief, descriptive phrase identifying the topic of the standard.</td>
</tr>
<tr>
<td>Applicability</td>
<td>Clear identification of the functional classes of entities responsible for complying with the standard, noting any specific additions or exceptions. If not applicable to the entire Texas RE area, then a clear identification of the portion of the bulk power system to which the standard applies. Any limitation on the applicability of the standard based on electric facility requirements should be described.</td>
</tr>
<tr>
<td>Effective Date and Status</td>
<td>The effective date of the standard or, prior to approval of the standard, the proposed effective date.</td>
</tr>
<tr>
<td>Purpose</td>
<td>The purpose of the standard. The purpose shall explicitly state what outcome will be achieved or is expected by this standard.</td>
</tr>
<tr>
<td>Requirement(s)</td>
<td>Explicitly stated technical, performance, and preparedness requirements. Each requirement identifies what entity is responsible and what action is to be performed or what outcome is to be achieved. Each statement in the requirements section shall be a statement for which compliance is mandatory.</td>
</tr>
<tr>
<td>Risk Factor(s)</td>
<td>The potential reliability significance of each requirement, designated as a High, Medium, or Lower Risk Factor in accordance with the criteria listed below: A High Risk Factor requirement (a) is one that, if violated, could directly cause or contribute to bulk power system instability, separation, or a cascading sequence of failures, or could place the bulk power system at an unacceptable risk of instability, separation, or cascading failures; or (b) is a requirement in a planning timeframe that, if violated, could, under emergency, abnormal, or restorative conditions anticipated by the preparations, directly cause or contribute to bulk power system instability,</td>
</tr>
</tbody>
</table>
separation, or a cascading sequence of failures, or could place the bulk power system at an unacceptable risk of instability, separation, or cascading failures, or could hinder restoration to normal condition.

A Medium Risk Factor requirement (a) is a requirement that, if violated, could directly affect the electrical state or the capability of the bulk power system, or the ability to effectively monitor and control the bulk power system, but is unlikely to lead to bulk power system instability, separation, or cascading failures; or (b) is a requirement in a planning timeframe that, if violated, could, under emergency, abnormal, or restorative conditions anticipated by the preparations, directly affect the electrical state or capability of the bulk power system, or the ability to effectively monitor, control, or restore the bulk power system, but is unlikely, under emergency, abnormal, or restoration conditions anticipated by the preparations, to lead to bulk power system instability, separation, or cascading failures, nor to hinder restoration to a normal condition.

A Lower Risk Factor requirement is administrative in nature and (a) is a requirement that, if violated, would not be expected to affect the electrical state or capability of the bulk power system, or the ability to effectively monitor and control the bulk power system; or (b) is a requirement in a planning timeframe that, if violated, would not, under the emergency, abnormal, or restorative conditions anticipated by the preparations, be expected to affect the electrical state or capability of the bulk power system, or the ability to effectively monitor, control, or restore the bulk power system.

Each requirement shall be addressed by one or more measures. Measures are used to assess performance and outcomes for the purpose of determining compliance with the requirements stated above. Each measure will identify to whom the measure applies and the expected level of performance or outcomes required demonstrating compliance. Each measure shall be tangible, practical, and as objective as is practical. It is important to realize that measures are proxies to assess required performance or outcomes. Achieving the measure should be a necessary and sufficient indicator that the requirement was met. Each measure shall clearly refer to the requirement(s) to which it applies.

| Measure(s) | Each requirement shall be addressed by one or more measures. III. Maintenance of the Texas RE Reliability Standards Development Process

Significant changes to this process shall begin with the preparation of a SAR and be addressed using the same procedure as a request to add, modify, or delete an ERCOT-Specific Reliability Standard.
The RSC has the authority to make 'minor' changes to this process as deemed appropriate by the RSC and subject to the RSC voting practices and procedures then in effect. The Reliability Standards Manager, on behalf of the RSC, shall promptly notify the ERCOT BOD of such 'minor' changes to this process for their review and concurrence at the next ERCOT BOD meeting.

IV. Maintenance of Regional Reliability Standards

The Reliability Standards Manager shall ensure that each Standard is reviewed at least once every five years from the effective date of the Standard or the latest revision to the Standard, whichever is the later. The review process shall be conducted by soliciting comments from the stakeholders. If no changes are warranted, the Reliability Standards Manager shall recommend to the ERCOT BOD that the Standard be reaffirmed. If the review indicates a need to revise or delete a Standard, a SAR shall be prepared and submitted in accordance with the standards development process contained in this process.

V. Urgent Action

Under certain conditions, the RSC may designate a proposed ERCOT-Specific Reliability Standard or revision to a standard as requiring urgent action. Urgent action may be appropriate when a delay in implementing a proposed standard or revision could materially impact reliability of the bulk power systems. The RSC must use its judgment carefully to ensure an urgent action is truly necessary and not simply an expedient way to change or implement a Standard.

A requester prepares a SAR and a draft of the proposed standard and submits both to the Reliability Standards Manager. The standard request must include a justification for urgent action. The Reliability Standards Manager submits the request to the RSC for its consideration. If the RSC designates the requested standard or revision as an urgent action item, then the Reliability Standards Manager shall immediately post the draft for pre-ballot review. This posting requires a minimum 30-day posting period before the ballot and applies the same voting procedure as detailed in Step 6.

Any ERCOT-Specific Reliability Standard approved as an urgent action shall have a termination date specified that shall not exceed one year from the approval date. Should there be a need to make the standard permanent the standard would be required to go through the full Standard Development Process. All urgent action standards require BOD, NERC, and FERC approval, as outlined for standards in the regular process.

Urgent actions that expire may be renewed using the urgent action process again, in the event a permanent standard is not adopted. In determining whether to authorize an urgent action standard for a renewal ballot, the RSC shall consider the impact of the standard on the reliability of the bulk power system and whether expeditious progress is being made toward a permanent replacement standard. The RSC shall not authorize a renewal ballot if there is insufficient progress toward adopting a permanent replacement standard or if the RSC lacks
confidence that a reasonable completion date is achievable. The intent is to ensure that an 
urgent action standard does not in effect take on a degree of permanence due to the lack of an 
expeditious effort to develop a permanent replacement standard. With these principles, there 
is no predetermined limit on the number of times an urgent action may be renewed. However, 
each urgent action standard renewal shall be effective only upon approval by the ERCOT 
BOD, and approval by applicable governmental authorities.

Any person or entity, including the drafting team working on a permanent replacement 
standard, may at any time submit a standard request proposing that an urgent action standard 
become a permanent standard by following the full standards process.

VI. Interpretations of Standards

All persons who are directly and materially affected by ERCOT’s Bulk Power System 
reliability shall be permitted to request an interpretation of a Standard. The person requesting 
an interpretation will send a request to the Reliability Standards Manager explaining the 
specific circumstances surrounding the request and what clarifications are required as applied 
to those circumstances. The request should indicate the material impact to the requesting 
party or others caused by the lack of clarity or a possibly incorrect interpretation of the 
standard.

The Reliability Standards Manager will assemble a team with the relevant expertise to address 
the clarification. The Interpretation Drafting Team (IDT) typically consists of members from 
the original SDT. The Reliability Standards Manager submits the proposed list of names of 
the IDT to the ROS. The ROS will either accept the recommendations of the Reliability 
Standards Manager or modify the IDT slate.

As soon as practical (not more than 45 days), the team will draft a written interpretation to the 
Standard addressing the issues raised. Once the IDT has completed a draft interpretation to 
the Standard addressing only the issues raised, the team will forward the draft interpretation to 
the Reliability Standards Manager. The Reliability Standards Manager will forward the draft 
interpretation to the Texas RE Director of Compliance. The Director of Compliance is to 
assess if the inclusion of the interpretation lessens the measurability of the Standard. In 
addition the Reliability Standards Manager will forward the interpretation to the ROS. Barring receipt of an opinion from either the Director of Compliance or ROS within 21 days, 
that the interpretation lessens measurability or is not technically appropriate for the Standard, 
respectively, the Reliability Standards Manager will forward the interpretation to the RSC. 
The RSC will determine if the interpretation is consistent with the Standard. The Reliability 
Standards Manager, on behalf of the RSC, will forward the interpretation to the ERCOT BOD 
for informational purposes as being appended to the approved Standard.

Note: In the event that the Director of Compliance determines that measurability is lessened, 
the Director of Compliance shall provide an explanation of his/her reasoning to the Reliability 
Standards Manager and IDT for inclusion in a subsequent reversion. The ROS shall in a 
similar manner provide an explanation of its reasoning if it determines that the interpretation
makes the standard technically inappropriate. In either case, the IDT and Reliability Standards Manager will continue to re-circulate the interpretation as stated above.

The interpretation will stand until such time as the Standard is revised through the normal process, at which time the Standard will be modified to incorporate the clarifications provided by the interpretation.

VII. Appeals

Persons who have directly and materially affected interests and who have been or will be adversely affected by any substantive or procedural action or inaction related to the development, approval, revision, reaffirmation, or withdrawal of an ERCOT-Specific Reliability Standard shall have the right to appeal. This Appeals Process applies only to this Standards Process.

The burden of proof to show adverse effect shall be on the appellant. Appeals shall be made within 30 days of the date of the action purported to cause the adverse effect, except appeals for inaction, which may be made at any time. In all cases, the request for appeal must be made prior to the next step in the process.

The final decisions of any appeal shall be documented in writing and made public.

The Appeals Process provides two levels, with the goal of expeditiously resolving the issue to the satisfaction of the participants:

Level 1 Appeal

Level 1 is the required first step in the appeals process. The appellant submits a complaint in writing to the Reliability Standards Manager that describes the substantive or procedural action or inaction associated with a Reliability Standard or the Standards Process. The appellant describes in the complaint the actual or potential adverse impact to the appellant. Assisted by any necessary staff and committee resources, the Reliability Standards Manager shall prepare a written response addressed to the appellant as soon as practical, but not more than 45-days after receipt of the complaint. If the appellant accepts the response as a satisfactory resolution of the issue, both the complaint and response will be made a part of the public record associated with the Standard.

Level 2 Appeal

If after the Level 1 Appeal the appellant remains unsatisfied with the resolution, as indicated by the appellant in writing to the Reliability Standards Manager, the Reliability Standards Manager shall convene a Level 2 Appeals Panel. This panel shall consist of five members total appointed by ERCOT’s BOD. In all cases, Level 2 Appeals Panel Members shall have no direct affiliation with the participants in the appeal.
The Reliability Standards Manager shall post the complaint and other relevant materials and provide at least 30-days notice of the meeting of the Level 2 Appeals Panel. In addition to the appellant, any person that is directly and materially affected by the substantive or procedural action or inaction referenced in the complaint shall be heard by the panel. The panel shall not consider any expansion of the scope of the appeal that was not presented in the Level 1 Appeal. The panel may in its decision find for the appellant and remand the issue to the RSC with a statement of the issues and facts in regard to which fair and equitable action was not taken. The panel may find against the appellant with a specific statement of the facts that demonstrate fair and equitable treatment of the appellant and the appellant’s objections. The panel may not, however, revise, approve, disapprove, or adopt a Reliability Standard. The actions of the Level 2 Appeals Panel shall be publicly posted.

In addition to the foregoing, a procedural objection that has not been resolved may be submitted to ERCOT’s BOD for consideration at the time the BOD decides whether to adopt a particular Reliability Standard. The objection must be in writing, signed by an officer of the objecting entity, and contain a concise statement of the relief requested and a clear demonstration of the facts that justify that relief. The objection must be filed no later than 30-days after the announcement of the vote on the Standard in question.
Appendix C – Sample Standard Request Form

ERCOT-Specific Reliability Standard Authorization Request

The tables below provide a representative example of information in a Regional Reliability Standard Authorization Request. The Reliability Standards Manager shall be responsible for implementing and maintaining the applicable form as needed to support the information requirements of the Texas RE Standards Process. The latest version of the form will be downloadable from the Texas RE’s Standards Development Web page.

Texas RE Standards Development Process 11.17.06
Page 29 of 30
EXHIBIT D – COMPLIANCE MONITORING AND ENFORCEMENT PROGRAM

1.0 REGIONAL COMPLIANCE MONITORING AND ENFORCEMENT PROGRAM

1.1 Obligations of Texas Regional Entity

The Texas Regional Entity division of Electric Reliability Council of Texas, Inc. (TRE) will implement the NERC Compliance Monitoring and Enforcement Program (Appendix 4C to the NERC Rules of Procedure) to monitor and enforce compliance with Reliability Standards by the owners, operators, and users within TRE’s geographic boundaries set forth on Exhibit A of this Agreement, subject to any deviations from the NERC Compliance Monitoring and Enforcement Program described in Section 1.2 below (the “Compliance Program”).

1.2 Deviations from the NERC Compliance Monitoring and Enforcement Program

A. Hearing Body. TRE will normally use the Public Utility Commission of Texas (PUCT) as its Hearing Body, and the PUCT (as Hearing Body) will issue recommendations to the TRE Chief Compliance Officer (CCO) who will make final decisions following regional hearings of compliance matters. The PUCT has extensive experience in conducting contested case hearings and other adjudicatory proceedings in a manner that assures due process of law to all participants. TRE intends to rely upon the PUCT’s experience and expertise in conducting the hearing process under the Delegation Agreement. TRE believes that it is more efficient and cost-effective to use existing PUCT procedures than to attempt to establish a redundant hearing process within TRE. The PUCT is uniquely well-positioned to perform this function for the ERCOT Region since electric utilities operating in the ERCOT Region do not synchronously interconnect with electric utilities operating outside of Texas, and ERCOT market participants have experience in participating in PUCT proceedings.

B. Public Hearings. TRE requests that it be allowed to have public hearings by the PUCT as its Hearing Body. Having the PUCT act as Hearing Body is fully consistent with the NERC Rules of Procedure and with Section 39.7 of FERC Order 672, with the exception of Section 39.7(b)(4), which requires "[e]ach violation or alleged violation [to] be treated as nonpublic until the matter is filed with [FERC] as a notice of penalty or resolved by an admission ... or by a settlement or other negotiated disposition." Because the PUCT is a “governmental body” under the Texas Open Meetings Act (Texas Government Code Section 551.002), the PUCT is required to conduct any deliberations and render a decision in a meeting that is open to the public. The Texas Open Meetings Act also requires that any evidence or other submissions concerning a PUCT hearing, except for information that is confidential or privileged under law, be publicly available. Decisions by the Texas Attorney General have held that the need to consider confidential information does not justify conducting a closed meeting or executive session. Although PUCT hearings are conducted as open meetings, steps are taken to prevent the disclosure of confidential information during the hearing process. Direct testimony in such cases is generally presented in written question and answer format, with any confidential information redacted, filed under seal and provided to parties pursuant to a protective order.

Under the Texas Public Utilities Regulatory Act (PUR) §39.151(j), market participants in the ERCOT market are required to comply with all scheduling, operating, planning, reliability, and settlement policies, rules, guidelines, and procedures established by ERCOT. The PUCT is
given authority to enforce this obligation through the imposition of penalties, revocation of
certifications or other means. In any enforcement proceeding under PURA, deliberations by the
PUCT are held as an open meeting in accordance with the procedures outlined above. ERCOT
is thus unlike other power regions that may be implementing an enforcement mechanism for the
first time. The history of public availability of this information in the ERCOT power region argues
in favor of the continued public availability of information considered in PUCT enforcement
hearings.

Moreover, elsewhere in Order 672, FERC stated that: "If the ERO or a Regional Entity wishes to
conduct a public investigation, enforcement audit or permit interventions when determining
whether to impose a penalty, the ERO or the Regional Entity must receive advance
authorization from the Commission."¹ In order to allow the PUCT to conduct enforcement
hearings as TRE's Hearing Body, TRE seeks authorization from NERC and FERC to conduct
the enforcement hearings as public proceedings. The revision requested here is intended to
reflect that, pursuant to the FERC's declaration in Order 672, the obligation contained in Section
6(c) may be excused by express authorization from FERC.

D. Hearing Administration. TRE requests that PUCT, as Hearing Body, be authorized to hear
cases and render its recommendations through the PUCT Commissioners. TRE also requests
that the Hearing Body be authorized to use the PUCT staff of Administrative Law Judges (ALJs)
and other trained employees to establish the procedures and timelines that will be followed in
the regional hearings. These individuals would not, however, have any authority to issue a
recommendation on any alleged violation. The ALJs and staff have presided over hearings
before the PUCT and are well qualified to establish the procedural schedule for these
proceedings. In its own proceedings, the PUCT generally delegates authority to such ALJs to
make rulings on preliminary matters, such as schedules, while retaining ultimate authority to
decide the merits of the case. The PUCT has found this procedure to be very effective in
establishing an orderly and expeditious schedule for the resolution of contested matters. TRE
believes the same structure would be helpful in conducting hearings concerning alleged
violations of reliability standards.

E. Detailed Hearing Procedures. The details of the proposed Texas Regional Entity Regional
Hearing Process is attached hereto as Appendix A. Appendix A reflects the NERC
Compliance Monitoring and Enforcement Program ("CMEP") procedures that must be altered to
accommodate TRE's request to have the PUCT act as its Hearing Body. Appendix A is a
revised version of Attachment 2 of the CMEP, and provides the details of the proposed regional
hearing process by TRE.

In addition to the requested modifications to procedures set forth in Attachment 2 of the CMEP,
TRE also requests that it be allowed to vary from Section 5.5 of the main body of the CMEP, to
allow the CCO's decision (instead of the hearing body's decision) to be appealed to NERC. This
language is contained as subsection 9.2 in Appendix A: "The Registered Entity may appeal the
CCO's decision to NERC, as provided for in NERC Rules of Procedure, Sections 407.3 and 410
¹ Order 672, ¶511.
2.0 REGIONAL HEARING OF COMPLIANCE MATTERS

TRE shall establish and maintain a hearing body with authority to conduct compliance hearings in which a Registered Entity may contest a finding of alleged violation, proposed penalty or sanction, or a proposed mitigation plan. As described above, TRE's hearing body is the PUCT, and the PUCT will issue recommendations to the CCO rather than final decisions.

3.0 OTHER DECISION-MAKING BODIES

Other than the PUCT, TRE does not plan to use other decision-making bodies within its compliance program.
Appendix A to Exhibit D – COMPLIANCE MONITORING AND ENFORCEMENT PROGRAM

Texas Regional Entity Regional Hearing Process

1.0 Designation of Hearing Body

All formal compliance hearings shall be held before the Compliance Enforcement Authority’s hearing body. The hearing body shall normally be the Public Utility Commission of Texas. The Compliance Enforcement Authority shall initiate the hearing process in accordance with Section 5.1 of the Compliance Program by issuing a written notice to the Registered Entity and the members of the hearing body convening the hearing body for a formal compliance hearing on the matter in dispute. The written notice shall state the name of the Compliance Enforcement Authority’s designated representative for purposes of the formal compliance hearing.

Following the convening of the hearing body, no person shall engage in ex parte communications with the hearing body concerning the matter in dispute until the Chief Compliance Officer’s written decision issued pursuant to Section 9.1 is appealed or the deadline for filing an appeal has past.

The hearing body may rule on all procedural and discovery matters. By agreement of the parties and with the approval of the hearing body, any documents may be submitted or exchanged via e-mail.

The hearing body may delegate to one or more of its employees the authority to establish the procedures and dates for the presentation of all materials concerning the alleged violation, but the Hearing Body may not delegate its authority to issue a recommendation on the alleged violation.

The hearing body may provide for additional procedures as it deems necessary to effectively carry out a compliance hearing.

2.0 Recusal of Member of Hearing Body

A hearing body member shall decline appointment to a hearing body or recuse himself or herself after appointment if participation on the hearing body would violate the Compliance Enforcement Authority’s Conflict of Interest or Code of Conduct policy.

The Registered Entity may raise an objection to any member of the hearing body on grounds of a conflict of interest or the existence of other circumstances that could interfere with the member’s impartial performance of his or her duties. Such objections must be provided in writing to the hearing body member reasonably in advance of the start of the hearing and the member shall make a decision on the objection promptly. Upon request of the Registered Entity,

1If the dispute involves a proposed Mitigation Plan which has not been accepted by the Compliance Enforcement Authority, the Registered Entity may initiate the hearing process by filing a request for hearing with the Compliance Enforcement Authority.
the hearing body (without participation of the hearing body member) may review the member's
determination and, if so, shall issue a decision on the objection promptly.

3.0 Authorized Representatives

Both the Compliance Enforcement Authority and the Registered Entity shall submit to the
hearing body the names of the persons authorized to represent them in the Hearing Process. Such persons shall be officers or equivalents of the Regional Entity and the Registered Entity that have the authority to act on behalf of the Regional Entity and the Registered Entity, respectively. In addition, a party shall advise the hearing body and the other party if the party will be represented by legal counsel.

4.0 Statement of Alleged Violation and Response by Registered Entity

The Compliance Enforcement Authority shall initiate the hearing process in accordance with
Section 5.1 of the Compliance Program by issuing a written notice to the Registered Entity and the members of the hearing body convening the hearing body for a compliance hearing on the matter in dispute. If the dispute involves a proposed Mitigation Plan that has not been accepted by the Compliance Enforcement Authority, the Registered Entity may initiate the hearing process by filing a request for hearing with the Compliance Enforcement Authority.

Within five (5) business days after the date the hearing body is convened, the Compliance Enforcement Authority’s designated representative shall file with the hearing body (with copies to the Registered Entity) a copy of the written notice of the Alleged Violation and sanction that was originally provided to the Registered Entity, along with copies of any documents gathered and reviewed by the Compliance Enforcement Authority in the course of determining an Alleged Violation has occurred and in determining the proposed sanction or penalty. Within twenty (20) days after the date the hearing body is convened, the Registered Entity shall file with the hearing body (with copies to the Compliance Enforcement Authority’s designated representative) a written statement of reasons why the Alleged Violation is in error and/or a written statement of reasons why the proposed penalty or sanction is inappropriate (if applicable in the particular case), along with copies of all documents relied on by the Registered Entity to support its position.

If the hearing involves a Mitigation Plan, within twenty (20) days after the hearing body is convened, the Compliance Enforcement Authority shall file a report stating why the Registered Entity’s proposed Mitigation Plan was not accepted.  

5.0 Setting of Hearings and Conferences

The hearing body shall set a date for an initial conference within thirty (30) days after the date the hearing body is convened. At the initial conference, the hearing body shall establish specific procedures for the hearing including (i) any procedures for exchange of additional documents, (ii) any written testimony, (iii) the hearing date(s), and (iv) dates for any briefs. Subject to Sections 6.1 and 6.2 of this hearing process, each party shall be entitled to (i) present the

---

2If the hearing involves a Mitigation Plan, at this point in the process the Registered Entity shall file its proposed Mitigation Plan and supporting information stating why the Mitigation Plan should be accepted.
testimony of witnesses, (ii) make an oral presentation of position, and (iii) file a written post-hearing brief.

The hearing body may hold additional conferences. All notices of conferences and hearings shall set forth the date, time and place of hearing. The hearing body shall issue a written memorandum setting forth the agreements and rulings made at each conference.

By agreement of the hearing body and the parties, any conference or hearing may be conducted via teleconference, except that, subject to section 6.0 of this hearing process, witnesses shall personally appear at the hearing.

All conferences and hearings shall be open to the public, except when the use of a closed session is authorized by Texas law.

6.0 Conduct of Hearing

The hearing will be conducted under the provisions of this section 6.0 or under shortened procedures specified in section 6.1. Unless the Registered Entity or the Compliance Enforcement Authority requests a hearing under section 6.0 no later than ten (10) business days after the Register Entity files its response requesting a hearing, the hearing will be conducted under the shortened procedures specified in section 6.1.

The hearing need not be held on consecutive days, and shall be held at the executive offices of the Compliance Enforcement Authority or the hearing body unless the hearing body decides on a different location after consulting with the parties.

The party requesting transcription of the hearing, the Registered Entity or Compliance Enforcement Authority, will arrange and pay for transcription of the hearing.

The hearing body shall direct either (1) that the direct testimony of any witnesses be in written form, supported by affidavit, or (2) that a list of the names and addresses of the witnesses each party intends to present and a brief statement of the expected testimony of each witness be served on the other party and the hearing body no less than ten (10) business days prior to the first day of the hearing in which the witness will be testifying. All witnesses shall be required to appear in person, unless waived by the parties and the hearing body. Copies of exhibits shall be served on the other party and the hearing body at least ten (10) business days and at least five (5) business days, respectively, prior to the date of the hearing in which the exhibit is introduced or cross-examination takes place.

The hearing body shall determine the order of presentation of evidence. All witnesses shall testify under oath or affirmation administered by a court reporter or notary public.

The hearing body may exclude evidence that is immaterial or unduly repetitious or prejudicial. Evidence not otherwise admissible under generally-recognized rules of evidence may be admitted if it is of a type commonly relied on by reasonably prudent persons in the conduct of their affairs. Any written or documentary evidence excluded by the hearing body shall be retained, and any proposed oral testimony may be documented by an offer of proof.

At the request of a party or the hearing body, each party may make an opening and closing statement.
6.1 Shortened Procedure

By agreement of the parties and with the approval of the hearing body, the hearing may be conducted pursuant to a shortened procedure, in which (1) the requirements that testimony be under oath and transcribed shall not apply, (2) the prohibition against ex parte communications shall not apply, and (3) the hearing body may consider evidence that would otherwise be excludable.

6.2 Disposition without Evidentiary Hearing

If it appears to the hearing body, based on a review of the Notice of Alleged Violation and Response, that there are no genuine issues of material fact, it may request the parties to identify in writing any such issues. Unless the parties' responses, supported by sworn affidavits, demonstrate that there are genuine issues of material fact, the hearing body may proceed without any evidentiary hearing and render its decision based on the written filings and any oral presentation.

7.0 Submission of Post-Hearing Briefs

The parties may submit post-hearing briefs on a schedule established by the hearing body. The parties may, and on request of the hearing body shall, submit proposed findings of fact and conclusions of law.

8.0 Record of the Compliance Hearing

If applicable, copies of the following documents shall be maintained by the hearing body as the record of the hearing process:

- The written notice that the hearing body has been convened.
- The notice of Alleged Violation and sanction issued by the Compliance Enforcement Authority and the response filed by the Registered Entity, including in each case all attachments thereto and documents provided therewith.
- If the hearing involves a Mitigation Plan, (i) the Registered Entity's proposed Mitigation Plan and supporting information as to why the mitigation plan should be accepted and (ii) the report of the Compliance Enforcement Authority stating why the Mitigation Plan was not accepted.
- Any requests for recusal of a member of the hearing body and any responses to such requests.
- All motions, notices and responses filed by the parties during the hearing process.
- All documents that set forth or that summarize any ex parte communications.
- All notices and rulings issued by the hearing body during the hearing process.
- The report issued by the hearing body following each conference.
- All written testimony and all exhibits received into evidence.
- All written testimony and documentary exhibits that were proffered but not admitted into
evidence.

- Any transcript(s) and minutes.
- The parties’ post-hearing briefs.
- The written decision of the hearing body.

9.0 Written Recommendation by the Hearing Body

The hearing body shall issue its written recommendation normally within thirty (30) days following the submission of post-hearing briefs, or, if waived, following the conclusion of the hearing. The written recommendation shall state the opinion of the hearing body with respect to Alleged Violations of Reliability Standards and proposed penalties or sanctions at issue in the hearing. If the hearing involves a Mitigation Plan, the written recommendation shall either propose acceptance or rejection of the Registered Entity's proposed Mitigation Plan. If the proposed Mitigation Plan is recommended for rejection, the hearing body may specify the provisions of the Mitigation Plan that the Registered Entity should be required to implement. The written recommendation shall explain the reasons for the hearing body's conclusions and cite the testimony and exhibits relied on by the hearing body in reaching its opinions. Copies of the written recommendation shall be served electronically and by certified mail on the Registered Entity and on the Compliance Enforcement Authority's designated representative.

9.1 Written Decision by the CCO

The CCO shall issue its written decision accepting, rejecting or modifying the hearing body's recommendation, normally within ten (10) business days following the issuance of the hearing body's written recommendation. The written decision shall state the conclusion of the CCO with respect to Alleged Violations of Reliability Standards and proposed penalties or sanctions at issue in the hearing. If the hearing involves a Mitigation Plan, the written decision shall either accept or reject the Registered Entity's proposed Mitigation Plan. If the proposed Mitigation Plan is rejected, the CCO may specify the provisions of the Mitigation Plan that the Registered Entity should be required to implement. The written decision shall explain the reasons for the CCO's conclusions and cite the testimony and exhibits relied on by the CCO in reaching its conclusions. Copies of the written decision shall be served electronically and by certified mail on the Registered Entity, on the Compliance Enforcement Authority's designated representative, and on the hearing body.

9.2 NERC Appeal Process

The Registered Entity may appeal the CCO's decision to NERC, as provided for in NERC Rules of Procedure, Sections 407.3 and 410.

10.0 Expedited Hearing Process for Disputes Concerning Remedial Action Directives

A Registered Entity that disputes a Remedial Action Directive issued by a Compliance Enforcement Authority may request an expedited hearing. To facilitate the expedited hearing, the Compliance Enforcement Authority may establish a hearing body for purposes of the expedited hearing process consisting of three or more members of the Compliance
Enforcement Authority's governing board or other designated hearing body. The following expedited procedures shall be followed:

- The Registered Entity shall provide its request for hearing to the Compliance Enforcement Authority's designated representative in writing within two (2) business days after receipt of the Remedial Action Directive.

- The hearing body shall be convened within two (2) business days after receipt of the Registered Entity's request for a hearing.

- The hearing body shall conduct a hearing on the matter, in person or by teleconference, within seven (7) business days after the hearing body is convened. At the hearing, the Compliance Enforcement Authority shall explain why the Remedial Action Directive should be complied with, and the Registered Entity shall explain why the Remedial Action Directive is not necessary or should be modified.

- The hearing body shall issue a summary written recommendation within ten (10) business days following the hearing, stating whether the Registered Entity should or should not be required to comply with the Remedial Action Directive and identifying any modifications to the directive that it finds appropriate.

- The CCO shall issue a summary written recommendation within five (5) business days following the hearing body's issuance of its summary written recommendation, stating whether the Registered Entity shall or shall not be required to comply with the Remedial Action Directive and identifying any modifications to the directive that it finds appropriate.

- If the CCO's summary written decision concludes that the Registered Entity is required to comply with the Remedial Action Directive or any modification to such directive (including adjustments to the timetable for implementation), the Registered Entity shall be required to begin implementing the Remedial Action Directive upon receipt of the summary written decision, if it has not already implemented the Remedial Action Directive.

- Within thirty (30) days following issuance of its summary written decision, the CCO shall issue a full written decision conforming to the requirements of Section 9.0, above.
Exhibit E — Funding

1. Scope of activities funded through the ERO funding mechanism

The Texas Regional Entity Division of Electric Reliability Council of Texas, Inc. ("Texas RE") shall include in its annual budget submission to NERC amounts for costs it will incur in support of delegated activities and activities that are in furtherance of NERC’s responsibilities as the ERO under the Act, as specified in the NERC Rules. These activities shall include:
   - Reliability Standard Development (Section 300)
   - Compliance Enforcement (Section 400)
   - Organization Registration and Certification (Section 500)
   - Reliability Readiness Audit and Improvement (Section 700)
   - Reliability Assessment and Performance Analysis (Section 800) (including necessary data gathering activities)
   - Training and Education (Section 900)
   - Situational Awareness and Infrastructure Security (Section 1000)

2. Allocation of Costs

Texas RE shall allocate its dues, fees, and other charges for its activities pursuant to the delegation agreement among all load-serving entities on the basis of net-energy-for load. Texas RE shall submit to NERC annually at the same time it submits its budget request a list of the load-serving entities within its geographic boundaries and their proportionate net energy for load.

3. Collection of Funding

Electric Reliability Council of Texas, Inc. or Texas RE shall submit weekly or monthly invoices to the load-serving entities identified by Texas RE, covering the NERC and Texas RE budgets approved for collection.

Texas RE will notify NERC of any non-payments by load serving entities.

NERC shall pursue any non-payments and shall request assistance from applicable governmental authorities as necessary to secure collection.

Upon approval of the annual funding requirements by applicable governmental authorities, Texas RE will remit the funds collected to NERC on a quarterly basis.

Upon approval of the annual funding requirements by applicable governmental authorities, NERC shall fund Texas REs' costs for statutory functions, as identified in the approved budget attached hereto, on a quarterly basis, within two (2) business days after receiving the remittance from Texas RE.

4. Application of Penalties

All penalty monies received by Texas RE shall be applied as a general offset to the entity’s budget requirements for U.S.-related activities under this Agreement for the subsequent fiscal year. Funds from financial penalties shall not be directly applied to any program maintained by the investigating entity.
ATTACHMENT 2

EXHIBIT B TO DELEGATION AGREEMENT – REDLINED
Exhibit B – Governance

Note: Significant portions of the ERCOT bylaw provisions quoted in this Exhibit B still require final approval by the ERCOT membership and the Public Utility Commission of Texas. These provisions were approved by the ERCOT Board on May 16, 2007, and NERC and Texas RE will inform the Commission when all required approvals have been obtained.

CRITERION 1: The Regional Entity shall be governed by an independent board, a balanced stakeholder board, or a combination independent and balanced stakeholder board. (Federal Power Act § 215(e)(4)(A), 18 C.F.R. § 39.8(c)(1), Order No. 672 at ¶ 727.)

A. Texas RE is governed by a combination independent and balanced stakeholder board.

B. Section 4.2 of Texas RE’s bylaws (the bylaws of Electric Reliability Council of Texas, Inc.) specify that its board shall have 16 members, as follows:

   A. Five (5) independent individuals who are unaffiliated with any electric market participant (“Unaffiliated Directors”) who are each approved by the Public Utility Commission of Texas (“PUCT”) for a three-year term;

   B. Six (6) electric market participant representatives (plus a segment alternate for each such representative) from each of the following market segments: independent generators, investor-owned utilities; power marketers; retail electric providers, municipally owned utilities, and cooperatives;

   C. Three (3) consumer representatives;

   D. CEO of ERCOT (as ex officio voting Director); and

   E. Chairman of the PUCT, as an ex officio non-voting Director.

C. Subsection 4.3 (b)(2) ii of Texas RE’s bylaws define the requirements of “independence” as follows:

   a. Unaffiliated Directors or family members (any spouse, parent, spouse of a parent, child or sibling, including step and adoptive relatives, and household member) shall not have current or recent ties (within the last two years) as a director, officer or employee of a Market Participant or its Affiliates.

   b. Unaffiliated Directors or family members (any spouse, parent, spouse of a parent, child or sibling, including step and adoptive relatives and any household member) shall not have direct business relationships, other than retail customer relationships, with a Market Participant or its Affiliates.

   c. To the extent that an Unaffiliated Director or family member (any spouse, parent, spouse of a parent, child or sibling, including step and adoptive relatives) living in the same household or any other household member owns stocks or bonds of Market Participants, these must be divested or placed in a blind trust prior to being seated on the Board.”
d. Unaffiliated Directors shall not have any relationship that would interfere with the exercise of independent judgment in carrying out the responsibilities of an ERCOT board member, including the Delegated Authority.

D. Texas RE's bylaws achieve balance on the board because the board has representation from seven (7) segments (six (6) market segments plus consumer representatives) and five (5) independent directors, and Section 4.7 of the bylaws contains the following quorum and voting requirements:

Except as may be otherwise specifically provided by law, the Articles of Incorporation or these Bylaws, at all meetings of the Board, fifty percent (50%) of the seated Directors shall constitute a quorum for the transaction of business. The act of at least sixty-seven percent (67%) affirmative votes of the eligible voting Directors shall be the act of the Board, unless the act of a greater number is otherwise required by law, the Articles of Incorporation, or these Bylaws. If a quorum shall not be present at any meeting of the Board, the Directors present may adjourn the meeting.

CRITERION 2: The Regional Entity has established rules that assure its independence of the users and owners and operators of the bulk power system, while assuring fair stakeholder representation in the selection of its directors. Federal Power Act § 215(c)(2)(A) and (e)(4), 18 C.F.R. § 39.8(c)(2), Order No. 672 at ¶¶ 699, 700.

A. Texas RE or its affiliate is an RTO or ISO and therefore a user, owner, or operator of bulk power system facilities. Article 6 and Section 7.2 of Texas RE's bylaws establish a strong separation between Texas RE's oversight and operations functions, as follows:

Section 6.1 TRE Responsibilities and Duties. The TRE shall be a functionally independent division within ERCOT which shall be responsible for proposing, developing, implementing and enforcing Reliability Standards in accordance with the Delegated Authority. The TRE shall also be responsible for investigating compliance with and enforcing violations of the ERCOT Protocols ("ERCOT Compliance"), so long as the ERCOT Compliance activities do not conflict with the Delegated Authority. The TRE shall develop policies, processes, standards, and procedures to implement the Delegated Authority and the ERCOT Compliance activities. The TRE shall form a Reliability Standards Committee ("RSC"), comprised of members from all ERCOT Segments, to propose, receive, consider, authorize, and vote on Reliability Standards and Reliability Variances, in accordance with the Texas Regional Entity Standards Development Process and procedures. All proposed ERCOT-specific Reliability Standards and Reliability Variances requests must be approved by the Board, prior to being submitted to NERC.

Section 6.2 TRE Independence. The TRE and its employees shall function independently of the other divisions, departments and employees of ERCOT. TRE employees shall be responsible for creating and
monitoring a separate budget to be submitted to the Board for approval and then to the North American Electric Reliability Corporation ("NERC") for approval, pursuant to a Delegation Agreement ("TRE Budget"). The portion of the TRE Budget which is for activities that are not related to the Delegated Authority but are for ERCOT Compliance activities will be approved by the PUCT. Except for ERCOT Compliance activities and any extraordinary activities that are specifically approved by NERC in the TRE Budget, the TRE shall be funded separately by NERC. The TRE shall (i) maintain separate books and records to account for its finances, separating income and expenditures for the Delegated Authority and the ERCOT Compliance Activities and (ii) pay a fair market rate for any goods and services obtained from ERCOT, or if a fair market rate is not readily determinable without undue effort or expense, at least the out-of-pocket cost incurred by ERCOT in respect thereof. The ERCOT acknowledges that the TRE Chief Compliance Officer and the TRE staff will conduct investigations into and will prosecute enforcement actions regarding the matters within the scope of the TRE’s responsibilities and duties, including investigations and prosecutions of ERCOT.

Section 6.3 TRE Management. The business and affairs of the TRE shall be managed directly by the Board, or a subcommittee thereof, to insure independence of the TRE from the other ERCOT operations and activities, including the ERCOT Independent System Operator functions. The Board shall hire a Chief Compliance Officer ("CCO") who, under its supervision and direction, shall carry on the general affairs of the TRE as the chief executive officer. The CCO shall be independent of any market participant and shall be an independent member of the staff of ERCOT, reporting exclusively to the Board. The Board shall only hire a CCO after consulting the PUCT Commissioners and Executive Director, and obtaining the approval of the PUCT Executive Director. The Board may also appoint a financial director who will report to the CCO, with responsibility for overseeing the budgeting, finance and accounting functions necessary for the independent operation of the TRE. The TRE may retain outside advisors as it deems necessary. The CCO shall have the sole authority to retain or terminate such outside counsel and other advisors as the CCO may deem appropriate in his or her sole discretion. The CCO shall have the sole authority to approve related fees and retention terms for such advisors, in accordance with the TRE Budget. The CCO shall make an annual report and periodic reports to the Board concerning the activities and expenditures of the TRE, and the TRE shall have its separate financial statements reviewed or audited annually. The CCO shall ensure that the TRE files all required reports with NERC. CCO shall, in cooperation with the financial director of the TRE, monitor the expenditure of the monies received by the TRE to ensure that such are deployed in accordance with the TRE Budget, as approved by the Board and NERC.

Section 6.4 TRE Employees. To the fullest extent practicable under applicable law, the TRE and the CCO shall be responsible for hiring, firing and compensating all TRE employees. TRE employees shall be compensated from the TRE budget. If permissible, and consistent with the Board’s and CCO’s compensation policies for the TRE employees,
such employees may participate in insurance and other benefits extended to ERCOT employees, provided that the TRE reimburses ERCOT for the full cost of providing such benefits. The TRE is authorized to employ attorneys, and all such attorneys shall report to the CCO and shall have ethical and other obligations solely to the TRE and not to ERCOT. Such attorneys are expressly authorized and required to provide advice to the CCO and TRE regarding the Delegated Authority and ERCOT Compliance activities, including investigations and enforcement actions involving ERCOT. Such attorneys are specifically authorized to assist with the prosecution of enforcement actions relating to the Delegated Authority or ERCOT Compliance activities.

Section 6.5 Evaluation of TRE Performance. The Board shall monitor the TRE and CCO’s performance, establish and review the CCO’s compensation and provide annual, or at its election, more frequent, evaluations. The Board may receive and will consider input from the PUCT regarding the compliance and enforcement activities of the CCO and the TRE. It shall be the CCO’s duty, in cooperation with the financial director of the TRE, to monitor the expenditure of the monies received by the TRE to ensure that such are deployed in accordance with the TRE Budget, as approved by the Board, PUCT and NERC. The Board will consider input from the PUCT regarding the compliance and enforcement activities and performance of the CCO and TRE. Neither the CCO nor any TRE employee may be retaliated against by ERCOT or its Board for investigating or participating in any enforcement activities pursuant to the Delegated Authority. The Board may not terminate, discipline, or demote the CCO or any TRE employees, advisors or contractors because of compliance or enforcement activities conducted in good faith.

Section 7.2 CCO. The Board shall hire a Chief Compliance Officer (“CCO”) who, under the Board’s supervision and direction shall carry on the affairs of the TRE. The CCO shall comply with all orders of the Board and will coordinate with the NERC regarding activities relating to the Delegated Authority and with PUCT regarding ERCOT Compliance activities. All employees and contractors of the TRE shall report and be responsible, to the CCO. The CCO shall be responsible for employment-related decisions for all employees of the TRE that are not appointed by the Board and shall provide input to the Board with respect to TRE employees appointed by the Board. The CCO shall perform such other duties as may be determined from time to time by the Board, for the benefit of the TRE. The Board may only terminate, discipline, not renew, or demote the CCO after consulting the PUCT Commissioners and Executive Director, and obtaining the approval of the PUCT Executive Director.

CRITERION 3: If the Regional Entity has members, the Regional Entity has established rules that assure that its membership is open, that it charges no more than a nominal membership fee and agrees to waive the fee for good cause shown, and that membership is not a condition for participating in the development of or voting on proposed Regional...
Reliability Standards. (Federal Power Act § 215(c)(2)(A) and (e)(4), 18 C.F.R. § 39.8(c)(2), Order No. 672 at ¶¶ 170-173.)

A. Texas RE has an open membership policy that permits full and fair participation of all stakeholders through their representatives, including in the development and voting on Regional Reliability Standards.

1. Membership Categories. Section 3.1 (a) of the Texas RE bylaws provides that members may qualify in one of the six market segments, if they have an actual financial interest in and are able to business in the ERCOT Region, or in the Consumer segment. Section 3.2 of the bylaws provides that members may qualify in one of three membership categories:

   (a) Corporate Members – shall have the rights and obligations as described in these Bylaws including the right to vote on all matters submitted to the general membership (such as election of Directors, election of TAC Representatives and amendments to the Articles of Incorporation and these Bylaws).

   (b) Associate Members – shall have the rights and obligations as described in these Bylaws excluding the right to vote on any matter submitted to the general Membership (such as election of Directors, election of TAC Representatives and amendments to the Articles of Incorporation and these Bylaws).

   (c) Adjunct Members – may be approved for Adjunct Membership by the Board if such entity does not meet the definitions and requirements to join as a Corporate or Associate Member. Adjunct Members shall have no right to vote on any matter submitted to the general Membership nor any right to be elected or appointed to the ERCOT Board, TAC or any subcommittee of the Board or TAC. Adjunct Members shall be bound by the same obligations as other Members of ERCOT.

2. Membership Obligations. Section 3.3 of the bylaws provides that, (a) each Member must comply with any applicable planning and operating criteria, procedures and guides adopted by or under the direction of the Board to maintain electric system reliability, coordinate planning and promote comparable access to the transmission system by all users, and (b) consistent with applicable laws and regulations, Members must share information at ERCOT’s or TRE’s request as necessary for the furtherance of ERCOT or TRE’s activity and consistent with PUCT and NERC rules relating to confidentiality.

3. Full and Fair Participation. Section 3.6 of the bylaws provides that no Entity may simultaneously hold more than one Corporate Membership or more than one seat on the Board, TAC, or RSC and that members may join as a Corporate member in only one segment. Subsection 3.6(c) provides that each Corporate member in good standing is entitled to one vote on each matter submitted to a vote of the Corporate members.

The Texas Regional Entity Standards Development Process ("TRE SDP," see Exhibit D) provides for due process, openness, and balance in Standards development and modification. Section IV of the TRE SDP provides that any person, acting as a representative of an organization which is directly and materially affected by the operation of ERCOT’s Bulk Power System ("BPS") is allowed to request a Standard be developed or an existing Standard modified or deleted by creating a Standards Authorization Request (SAR). Section V of the TRE SDP provides that (1) any person representing an organization with a direct and material interest in
the bulk power system has a right to participate in the standards development process by: a) expressing an opinion and its basis, b) having that position considered, and c) appealing any negative decision. Section V specifically provides that, "Participation is open to all organizations that are directly and materially affected by ERCOT's BPS [Bulk Power System] reliability. There shall be no undue financial barriers to participation. Participation shall not be conditioned upon membership in ERCOT, and shall not be unreasonably restricted on the basis of technical qualifications or other such requirements. Meetings of SDTs [Standards Drafting Teams] are open to ERCOT's Membership and to others and all proposed SARs and Standards are posted for comment on the Texas RE Website."

B. Texas RE charges no more than a nominal membership fee and agrees to waive the fee for good cause shown. Section 3.4 of the bylaws provides for the following fees:

Annual Member Service Fees for Corporate Members shall be $2,000.
Annual Member Service Fees for Associate Members shall be $500.
Annual Member Service Fees for Adjunct Members shall be $500. The Annual Member Service Fees for Residential and Commercial Consumer Members shall be $100 for Corporate Membership and $50 for Associate Membership; provided that there will be no charge for Annual Member Service Fees for associations that qualify for Commercial Consumer Membership or for other associations or persons, upon good cause shown.
Office of Public Utility Counsel ("OPUC") and the appointed Residential Consumer TAC Representative(s) shall be eligible to be Corporate Members without the payment of Annual Member Service Fees. Any Member may request that the Member's Annual Member Service Fees be waived for good cause shown.

CRITERION 4: The Regional Entity has established rules that assure balance in its decision-making committees and subordinate organizational structures and assure no two industry sectors can control any action and no one industry sector can veto any action. (Federal Power Act § 215(c)(2)(A) and (e)(4), 18 C.F.R. § 39.8(c)(2), Order No. 672 at ¶ 728.)

A. Texas RE's bylaws, procedural rules, and protocols assure balance in decision-making committees and subordinate organizational structures in how such groups are structured.

Section 6.1 of the bylaws provides that the Texas RE shall form a Reliability Standards Committee ("RSC"), comprised of members from all ERCOT Segments, to propose, consider and vote on Reliability Standards and Reliability Variances, in accordance with the Texas Regional Entity Standards Development Process and procedures. All proposed ERCOT-specific Reliability Standards and Reliability Variances requests and must be approved by the Board, prior to being submitted to NERC.

B. Texas RE's bylaws, procedural rules, and protocols assure balance in decision-making committees and subordinate organizational structures in how such groups make decisions.

Step 1 of the TRE SDP provides that any entity that is directly or materially impacted by the operation of the Bulk Power System within the geographical footprint of the ERCOT Region may request the development, modification, or deletion of an ERCOT Standard or Regional
Variance. The RSC, comprised of the seven Segments, will consider and determine which requests will be assigned for development, modification, or deletion (Article II and Step 1 of the TRE SDP). Step 6A of the TRE SDP provides that all members may vote on proposed new standards, standard revisions, or standard deletions ("Standards" herein), and at least one member from five of the seven segments must vote to constitute a quorum. Step 6A further provides that each Segment shall receive one Segment Vote, the representative of each voting member shall receive an equal fraction of its Segment Vote, and if a draft Standard receives 4.67 affirmative votes during the 15 day voting period, the RSC will forward the Standard to the board for a vote. Step 6B of the TRE SDP provides that, if a Standard does not timely receive 4.67 affirmative votes, the Standard may be remanded for further work and reposted for a second comment period before a second vote. The board may approve, remand to RSC or disapprove a proposed Standard.

C. Texas RE's bylaws, procedural rules, and protocols assure no two industry sectors can control any action and no one industry sector can veto any action. The RSC is comprised of representatives from each Segment. The TRE SDP requires five (5) of the seven (7) Segments to constitute a quorum for a vote on a proposed Standard. (Step 6A of TRE SDP). Even if a proposed Standard does not receive a 4.67 or greater affirmative vote during a second voting period, the RSC will forward the Standard and implementation plan to the board.

CRITERION 5: The Regional Entity has established rules that provide reasonable notice and opportunity for public comment, due process, openness, and balance of interests in exercising its duties. (Federal Power Act § 215(c)(2)(D) and (e)(4), 18 C.F.R. § 39.8(c)(2).)

Texas RE's bylaws, procedural rules, and protocols provide reasonable notice and opportunity for public comment, due process, openness, and balance of interests in exercising its duties, as follows:

A. Notice of Meetings. Section 4.6(a) of the bylaws requires the board to meet at least quarterly, with at least one meeting occurring in conjunction with the annual meeting of the members. Section 4.6(b) requires notice of any meeting of the board or any board subcommittee where at least one board director is present be given to each Director and made available electronically to the public on the Internet not less than one week before the date of the meeting; provided, however, the board may meet on urgent matters on such shorter notice, not less than 2 hours, as the person or persons calling such meeting reasonably may deem necessary or appropriate for urgent matters (emergency conditions threatening public health or safety, or a reasonably unforeseen situation). Section 4.6 (e) also provides that notice of the agenda, place, date, and hour of any meeting of the RSC be made available electronically to the public on the Internet not less than one week before the date of the meeting; provided that, RSC may meet on urgent matters on such shorter notice, not less than 2 hours, in the event of urgent matters.

B. Public Meetings. Section 4.6(e) of the bylaws requires that meetings of the board or board subcommittees be open to the public, although they, at their discretion, exclude any persons who are not directors from any meeting or portion of any meeting held in Executive Session, including for purposes of voting. Executive session is limited to matters involving sensitive matters including, but, confidential personnel information, contracts, lawsuits, deliberation of purchase of real property, competitively sensitive information, deployment or implementation of security devices or other information related to the security of ERCOT's regional electrical network and discussion of any matters on which the Board receives legal advice from its attorneys. Section 4.6(d) of the bylaws requires the board to promulgate procedures allowing
public access to meetings of the board and board subcommittees and allowing for members of the public to provide comment on the matters under discussion at public portions of meetings of the board and subcommittees.

C. **Available Minutes.** Section 4.6(f) of the bylaws requires the Secretary to keep minutes for all Board meetings.

D. **Bylaws Amendment.** Section 13.1 (d) (4) of the bylaws provides that an affirmative vote by at least four of the seven Segments is necessary to amend the bylaws, and, if permission for any amendment is required by NERC or FERC under the Delegation Agreement, the required permission must be obtained before such amendment is effective.
