

ERCOT
SYSTEM PROTECTION WORKING GROUP
REPORT TO ROS
October 11, 2007

The last meeting of the ERCOT System Protection Working Group was held in Fort Worth on July 26-27, 2007. Of significance to this ROS meeting are the following items:

Short Circuit Data Cases: The seventh pass of the Future Years Cases has been sent to members by ERCOT. Members are to respond by October 5. Our case schedule will be a major topic in our next meeting. ERCOT input has been solicited.

Discussion and Recommendation of Low Voltage Ride Through (LVRT)

Our group is working on wording based on Appendix G of the document for the groups review.

Revisions to Nodal Operating Guide sec. 6

Various changes will be recommended for the Nodal guide through the proper ERCOT channels.

Next Meeting: The next scheduled Working Group meeting will be held in Nursery, Texas in November, 2007.
