To: Reliability and Operations Subcommittee
Re: Time Extension for Compliance Analysis of System Events

As stipulated in the PUCT Compliance Process approved on July 6, 2006, Texas Regional Entity (Texas RE) is providing notification that additional time is needed for further compliance analysis related to the below listed event(s). This is due to the need for information beyond what has been supplied in (a) the preliminary event analysis and (b) other documents furnished by ERCOT ISO. The additional information is needed to help us determine whether possible violations of ERCOT Protocols may have occurred.

<u>Date(s)</u>	<u>Event Analysis</u>
01-04-2008	SPS activation in North West Texas
01-15-2008	SPS activation in West Texas
01-21-2008	SPS activation in North West Texas
02-19-2008	Loss of Multiple Elements in North West Texas
02-24-2008	SPS activation in North Texas

If you have any questions, feel free to contact me at Mark.Henry@TexasRE.org or (512) 225-7021.

Sincerely,

Mark Henry
