

# EILS Update

**DSWG**

**April 18, 2008**

- **PRR 757 EILS Technical Correction**
- **PRR 760 EILS Alternate Baseline Clarifications**
- **NPRR 107 Brief Update**
- **Procurement Schedule Reminders**

- **Introduced by ERCOT Staff on March 7**
- **Corrects an oversight from PRR 746, which implemented changes to EILS ordered by PUC in project 34706**
- **PRR 746 eliminated references to ‘Business Hours’ and ‘Non-Business Hours’**
  - Replaced with more generic ‘Time Periods’
- **We missed two references**
- **PRR 757 makes this correction**
  
- **On the PRS Agenda today (April 18)**

- **Introduced by ERCOT Staff on March 24**
- **Clarifies settlement and compliance provisions relating to availability requirements for EILS Resources assigned to the alternate baseline:**
  - Revises 6.10.13.3(b) to clarify that the 95% availability factor requirement applies to EILS Resources on both baselines
  - Confirms that an availability factor  $\geq 95\%$  will not result in a reduction of an EILS Resource's capacity payment
  - Clarifies that any EILS Resource that fails to achieve 95% availability is deemed to have failed to meet its availability requirement, and is thus subject to a compliance violation and payment adjustment
  - Other clarifying, non-substantive changes
- **On the PRS Agenda today (April 18)**

# NPRR 107 Timeline (revised)

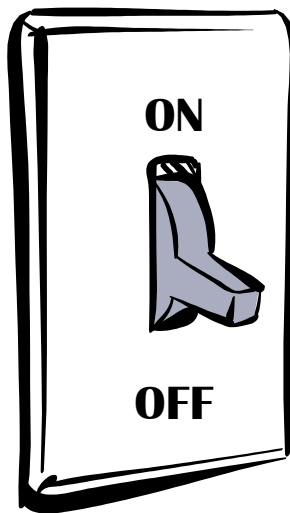

<i>Date (2008)</i>	<i>Action</i>
<b>March 4</b>	<b>TPTF introduction and initial review</b>
<b>March 7</b>	<b>DSWG discussion</b>
