

Date: June 9, 2009
To: ERCOT Board of Directors
From: Mark Bruce, Technical Advisory Committee (TAC) Chair
Subject: PUCT Quarterly Report

Issue for the ERCOT Board of Directors

ERCOT Board of Directors (ERCOT Board) Meeting Date: June 16, 2009

Agenda Item No.: 12c

Issue:

TAC informs the Board it will file the attached Quarterly Report to the PUCT addressing wind integration issues as required by the Final Order in Docket No. 33672.

Background/History:

The Final Order designating Competitive Renewable Energy Zones (CREZs) required ERCOT, through the appropriate committee, to file quarterly reports with the Commission describing the wind integration and related system reliability issues under study and strategies for issue resolution. The attached quarterly report is the second in this series.

Highlights:

- 70 MW of new wind capacity was added in ERCOT since the last quarterly report.
- Six new renewable resources totaling 1,100 MW of capacity have signed interconnection agreements since the last quarterly report.
- Since the last quarterly report, 7 identified wind integration issues have been completed and 5 PRRs relating to renewable generation were adopted, including 2 new technical requirements and 2 new performance metrics.
- Five new integration issues have been identified and added to the Renewable Technologies Work Group issues tracking spreadsheet.
