

**Date:** June 8, 2009  
**To:** ERCOT Board of Directors  
**From:** Mark Bruce, Technical Advisory Committee (TAC) Chair  
**Subject:** Texas Renewables Integration Plan

**Issue for the ERCOT Board of Directors**

**ERCOT Board of Directors (ERCOT Board) Meeting Date:** June 16, 2009

**Agenda Item No.:** 12d

**Issue:**

TAC presents a draft of the Texas Renewables Integration Plan (TRIP) to the ERCOT Board for comment.

**Background/History:**

The rapid and significant introduction of renewable generation technologies in the ERCOT market presents numerous opportunities and challenges. The PUCT and ERCOT Board have directed TAC to develop a comprehensive plan to ensure successful integration of these technologies into the ERCOT system.

The attached draft TRIP is presented to the Board for review and comment. TAC specifically seeks Board input on the overall structure and key elements of the plan. While this is still very much a work in progress and many details remain to be developed, TAC thinks it useful at this point to gather input from stakeholders and other key parties to ensure the plan under development meets the expectations of policymakers. It is TAC's goal to present Version 1 of the TRIP for Board approval by 4Q09.

**Conclusion:**

TAC invites the Board to review the draft TRIP and provide comment.
