

PRR 830 ISSUES

- “VIRTUAL” UNITS DO NOT MAKE SENSE

“VIRTUAL” UNITS DO NOT MAKE SENSE

- NEW WGR DEFINITION CREATES AGGREGATIONS OF ACTUAL WIND-POWERED TURBINES OF THE SAME TYPE FOR MODELING PURPOSES
 - THE WIND COALITION SUPPORTS THE MODELING
 - BUT THE REDEFINITION WILL MAKE WGRs “UNITS” FOR ALL PURPOSES
 - NO METER POINT
 - ALL PROTOCOL AND GUIDE PROVISIONS APPLYING TO “UNITS” AND TO “RESOURCES” NOW APPLY TO THIS VIRTUAL POINT

MODELING DATA MUST BE PROVIDED

- THE WIND COALITION STRONGLY SUPPORTS SUPPLYING THE NEEDED MODELING DATA
- ALTERNATIVE WORDING HAS BEEN PROVIDED
 - PROVIDES 100% OF THE DATA PROPOSED BY ERCOT
 - DOES NOT REQUIRE THE REDEFINITION OF “WGR”
