Your organization will be planning, integrating, executing, or developing cyber technology for the Smart Grid, and we encourage you to attend to learn about the content and purpose of the *Guidelines*. This session will give you the opportunity to ask members of the team that developed the guidelines any questions that you may have formulated after reviewing the 700+ page document. The agenda for the briefing is attached.

If you cannot attend in person, the briefing will also be transmitted through WebEx. Please indicate if you prefer to attend by WebEx, and you will be provided with the login information when it becomes available.
