What we have learned

- 30-Minute ERS product has attracted new providers and resources
 - ✓ 4 new QSE
 - ✓ 2 new DR providers represented by an existing QSE
 - ✓ 532 new sites
- Test deployments have allowed ERCOT to fine tune our deployment scripts
- Gain valuable experience with the new XML deployment application
- Use of Market Clearing Mechanism
 - ✓ See the existing of price takers (wide spread between lowest and highest offers)
 - ✓ Should result in more competitive offer behavior as market becomes more liquid and new procurement methodology is implemented
