Detailed Description and Reason for Proposed Change(s):

Allow SMT user to toggle between 15-Minute Reads and Daily Reads without having to reset the date range.

Currently, when an SMT user initially selects a date range, then realizes that daily usage is the preference instead of 15 minute usage, the date range reverts back to the default date range and must be reset to the specific customer-selected date range.

NOTE: Requester must complete above fields and include a redlined example of modifications to each impacted implementation guide. This must be included at the time the request form is submitted.
