

Texas Synchrophasor Network Event Update, April 08, 2014
Prof. Mack Grady, Baylor Univ., and Prof. Jaime Ramos, U.T. Pan American

Unusual Event - Sudden Loss of 927 MW, 59.774 Hz., April 06, 2014
This event could be easily explained if the time period between 9 and 35 seconds had never happened. Cut and paste?
