Subject: Proposed 2015 ERCOT Key Performance Indicators (KPIs)

Issue for the ERCOT Board of Directors

ERCOT Board of Directors Meeting Date: December 9, 2014

Item No.: 10.1

Issue:

Whether the Board of Directors (Board) of Electric Reliability Council of Texas, Inc. (ERCOT) should approve the 2015 ERCOT KPIs as recommended by ERCOT staff.

Background/History:

The ERCOT leadership team annually develops specific key performance indicators and corresponding target metrics to drive performance of the organization. The indicators, along with their specific measurements are outlined in the 2015 KPIs. The KPIs are reviewed on a quarterly basis and are used to measure the successful performance of the organization. It is important that the leadership team and the ERCOT Board of Directors (Board) are aligned on the specific goals and focus of ERCOT for 2015.

The Human Resource and Governance (HR&G) Committee will be considering whether to recommend that the Board approve the 2014 KPIs as presented at its meeting on December 8, 2014. A copy of the proposed 2015 KPI Matrix is attached hereto as Attachment A.

Key Factors Influencing Issue:

The 2015 KPIs correlate to ERCOT’s strategic direction of the Board and provide performance measures to the Board and ERCOT leadership and staff.

Conclusion/Recommendation:

The ERCOT leadership team respectfully recommends that the HR&G Committee recommend approval and that the ERCOT Board approve the 2015 KPIs as presented.

KPI	Executive	Capability	KPI Description	Target	Stretch	Notes
RG_j 17	McIntyre, Kenneth	System Planning	Transmission planning projects initiated or significantly improved by ERCOT staff.	10 projects	15 projects	Recommend deletion per ERCOT discussion with task force.
RG_j 18	McIntyre, Kenneth	Transmission Connection Management	Generation Interconnection Request (GIR) screening studies completed on time without errors.	95% completed on time or no more than 1 late if less than 20 GIRs	100% 99% completed on time	Recommend revised stretch.

RG_j 21	Manning, Chuck	Compliance Monitoring & Reporting	Achieve compliance with ERCOT Protocols and Operating Guides by achieving acceptable operating-related exceptions from ERCOT Protocols and Operating Guides as found in Protocol Compliance Audit.	No more than 3	Zero	Recommend deletion. Metric is based on infrequent Texas RE audits of ERCOT. The most recent audit was in 2010 with no findings. Infrequent measurement not appropriate for quarterly metrics.
RG_j 22	Manning, Chuck	Compliance Monitoring & Reporting	Ensure ERCOT ISO compliance with protocol Section 8 and operating guide Section 9 requirements (include in aggregate above), excluding Self Reports.	95%	100%	Recommend deletion. Metric was created in support of ERCOT's 3-party compliance monitoring agreement (TRE/PUCT/ERCOT) to develop tools and processes to measure Market Participant compliance with Protocol Section 8 & 9. With nodal market compliance processes stabilized, this metric no longer has significant value and potentially creates confusion since it measures ERCOT's measurements of MPs, rather than ERCOT's performance (for example, a 95% value for this metric would reflect that ERCOT measures compliance of MPs 95% of the time).
EM 1	Jones, Brad	Bidding, Scheduling & Pricing	DAM quality of solution as measured with price corrections: percent of hourly prices requiring DAM price correction.	1-3 % of time	< 1 % of time

Total settlement includes all instances of the following: 1) DAM settlement for an operating day, 2) RTM settlement for an operating day, 3) Settlement Invoices issued, 4) CRR Auction Invoices for an operating month, 5) CRR Auction Distribution for an operating month, 6) CRR Balancing Account Invoices for an operating month, 7) Miscellaneous Invoices issued, and 8) Default Uplift Invoices issued

EM 6	Jones, Brad	CRR / FTR Management	Monthly de-ratings of CRRs are within acceptable tolerances	80%	95%	Recommend deletion to stop tracking the monthly de-rating of CRRs as the de-rating only applies to CRRs that source and sink at a resource node. It does not de-rate CRRs that sink at a Load zone or Hub which is the vast majority of the CRRs.

EM_i 19	Jones, Brad	Account Management	Create, distribute and post Market Notices per the COPS Communication Guide, Section 5, Appendix A.	95%	98%	Recommend deletion. It is a cumbersome measure to track and is not adding management value. Metrics have been 100% for the last year. Resources are spending time measuring quantity notices and how fast completed rather than the value added in crafting the market notice, getting it to the right audience etc. Propose new EM_i 19 (below) to replace this.
EM_i 20	Jones, Brad	Account Management Client Services	Achieve "Very Satisfied" or "Satisfied" ratings on annual survey of Account Management services Acknowledge Market Participant inquiries no later than COB the next Business Day of receipt	90% satisfied or highly satisfied 98%	95% satisfied or highly satisfied 100%	Recommend change to measure customer satisfaction in terms of timeliness and quality of customer service received.
