## Detailed Description and Reason for Proposed Change(s):

Currently, after a customer selects the ROR, then clicks the "Previous/Back" button, the previously selected ROR is removed, thereby requiring the customer to re-enter/select the ROR.

The proposed solution is for the selected ROR to remain, regardless of where the customer navigates during the registration process.

**NOTE:** Requester must complete above fields and include a redlined example of modifications to each impacted implementation guide. This must be included at the time the request form is submitted.

Please submit this completed form via e-mail to [AMWG Leadership](#) and RMS Chair.
