

# AMWG Change Request Form

Change Control Number: 2015-026  
Implementation Version: Future

## This Section Is Completed by Submitter of Change Request Only:

<b>Submitter Name:</b> John Schatz	<b>Submitting Company Name:</b> TXU Energy	<b>Phone Number:</b> 972-868-3933
<b>Date of Submission:</b> 1/5/15	<b>Affected Business Process:</b> SMT functionality. Display portal message when report cannot be displayed in the SMT page.	<b>Submitter's E-Mail Address:</b> john.schatz@txu.com
<b>AMWG Issue cross-reference number:</b>		<b>Market Guide or other Market Impact (Y/N):</b> N

## Detailed Description and Reason for Proposed Change(s):

Existing: The "Update Report" button gives the impression that a user- requested usage report will be displayed on the SMT page. However, if the dates are set too far apart (i.e., outside the maximum allowed date range), and Order ID is generated instead of displaying the report in the current page.

Proposed: If the requested date range will not fit on the page when the "Update Report" button is clicked, display a message to inform the user that the report will be sent via email and provide a yes/no option:

Yes: the report will be sent to the customer (existing logic)

No/Cancel: will cancel the user's request and send them back to the Usage Report page where the user can enter a different date range

**NOTE:** Requester must complete above fields and include a redlined example of modifications to each impacted implementation guide. This must be included at the time the request form is submitted.

Please submit this completed form via e-mail to [AMWG Leadership](#) and RMS Chair.
