

AMWG Change Request Form

Change Control Number: 2013-16
Implementation Version: Future

This Section Is Completed by Submitter of Change Request Only:

Submitter Name: Kyle Miller	Submitting Company Name: Big Data Energy	Phone Number: 832-257-5160
Date of Submission: 06/012/2013	Affected Business Process: Billing and HAN APIs	Submitter's E-Mail Address: Kyle.miller@bigdataenergy.co
AMWG Issue cross-reference number:		Market Guide or other Market Impact (Y/N): N
Detailed Description and Reason for Proposed Change(s): Many REPs use multiple service providers for billing, EDI, and now Demand Response. The REP, Billing, and demand response providers need access to the APIs and FTPS. Currently only one IP address is allowed to access the API. This should be unlimited with proper approval from the REP.		
<p>NOTE: Requester must complete above fields and include a redlined example of modifications to each impacted implementation guide. This must be included at the time the request form is submitted.</p> <p>Please submit this completed form via e-mail to AMWG Leadership and RMS Chair.</p>		

For AMWG Leadership Use Only:

AMWG Recommendation: Approve	Recommendation for Emergency (Y/N): N	Date of AMWG Recommendation: 6/18/2013
Detailed Description and Reason for Revision: Current each REP is allowed one security certificate per DUNS to access each API. This certificate can only be used by one IP Address at a time so if the REP wants to allow a billing provider access to the API on their behalf the REP will no longer be able to use the API themselves. REPs should be able to grant access to a vendor to access any of the APIs on their behalf without giving up their own access. Look at each API (HAN Messaging, HAN Provisioning, Energy Usage). The REP would grant permission to access the API on their behalf, similar to how they can provide access to ERCOT systems through Digital Certificates today.		
RMS Decision: Approved	Emergency (Y/N): N	Date of RMS Decision: 06/19/13
Summary of RMS Discussion: Approved as recommended by AMWG during the June 19, 2013 RMS meeting
