English	26-Jan-17	I've tried three times to get my monthly meter reports. The site says the reports have been generated, but I'm not receiving the email. I've even tried updating the email address to see if that was the issue. The reports have not been redirected to my spam folder, nor any other folder. I have done searches for the report numbers and for any email from smart meter.
English	24-Jan-17	Good morning. Is there a way to have a daily report emailed to me with my current usage? I was unable to location features like that. Thank you.
