

WMS update

TAC MEETING

DAVID KEE

JULY 24, 2019

Agenda

- ❖ Previous meetings – June 5, July 10
- ❖ WMS Endorsements
- ❖ Items to note

WMS Endorsements – June & July

- ❖ NPRR826, Mitigated Offer Caps for RMR Resources
- ❖ NPRR948, Instrument Transformer Testing Schedule and Removal of Reference to Fiber-Optic Current Transformers
- ❖ NPRR949, January 1, 2023 Changes to EPS Meter Communications Path
- ❖ Resource Cost Working Group Leadership – Katie Rich GSEC
- ❖ NPRR936, CRR Account Holder Limits
 - ❖ Recommendation from WMS *that TAC review setting the new Counter-Party limit to be equal to the triple the current Congestion Revenue Right (CRR) Account Holder limit upon system implementation of NPRR936*

Items to note

- ❖ Discussions on outages related to CREZ lines
 - ❖ Updates and Q&A at both CMWG & WMS
 - ❖ Outages in outage scheduler are worst case and updated regularly
 - ❖ Notices to be sent to CMWG listserv

- ❖ We have begun working on energy storage action items
 - ❖ Similar process to RTC work: bring smaller policy groupings up for discussion/decision and draft NPRR when appropriate
 - ❖ Policy items will be introduced at WMS and issues vetted at working group level

Questions or discussion

❖ Next meeting – Aug 7
