

## **NDSWG Report to ROS Febraury 2020**

### **NDSWG last met on January 21**

48 attendees (18 in-person, 30 by Webex)

### **Discussion/Review Items:**

Chair/ Vice Chair: JM Yatar from CNP volunteered to become the chair. Kenesha is still the vice chair.

Frequency of Meetings: Monthly webex, quarterly in person meetings. Third Tuesday every month. 9:30 to Noon.

NPRR953 Relay Loadability: ERCOT will be using this value to assess if we they can assess pre or post contingency values. Initial data collection will start by 4/2020. Webex scheduled to discuss this in detail.

ERCOT Process for Reporting RTU Maintenance: ERCOT is still working on it. ERCOT has a meeting internally Friday 01/24/2020.

NPRR979 and its Related NOGRR199: Isabel flores is the owner of this. Group decided to discuss in the next monthly WebEx in February 3 week.

Migrating the ICCP Handbook to the Operating Guides: Kevin M, doesn't have an update yet. He is working with Philip Bracy and it is work in progress. Moved it to April Meeting.

Modeling Expectation Updates for Contingencies, Feedback: Up for discussion next month.

NDSWG Scope Document and NDA: ERCOT legal is still working on this. Modeling group will work with legal and will bring this up in the next in person meeting in April.

DER Modeling Process: Presentation given by Bill Blevins about the modeling process. Still at the starting stage.

Savecases in SOTE EMS: ERCOT will check on the space requirements. TSP's wanted to check with ERCOT, if we can save savecases for 30 days.

**Future NDSWG meetings : February 2020 ( WebEx)**
