

**Updated Market Notice M-A062118-06  
Operations Response Statistics**

Phung Nguyen  
March 3, 2020  
PGDTF Meeting

# Background

- Market Notice M-A062118-06 Operations requested Resource Entities (REs) and Transmission Service Providers (TSPs) to provide a list of potential equipment that maybe removed from service as a result of Protection System operation or misoperation due to harmonics that could result from the benchmark GMD event
- This list of potential equipment outages will be incorporated into the ERCOT benchmark GMD Vulnerability Assessment
- PGDTF produced a document titled “Methodology for Assessing GMD Impacts on ERCOT Power Systems” in August, 2019
- The final deadline for REs and TSPs to submit the list of potential equipment outages was set for October 1, 2019

## Updated Statistics on Response to the Equipment Outage Request for the Benchmark GMD Event

- One TSP has not submitted any response to the Market Notice
- 83% of Resource Entities have responded to the Market Notice
- 17% of Resource Entities have not responded to the Market Notice
- ERCOT is contacting 22% of Resource Entities for clarification on their responses
