

WMS update

TAC MEETING

DAVID KEE

JUNE 24, 2020

Overview

- ❖ Previous meetings – Feb 5, Mar 4*, May 6*, Jun 3
 - ❖ Apr 1 meeting was cancelled
- ❖ WMS Activity
- ❖ Action item for discussion

* denotes information session by WebEx

WMS Activity

- ❖ Voted out 2 SCRs, 4 NPRRs, 1 VCMRR
- ❖ Approved MWG leadership
 - ❖ Chair - Gabriel Godinez (AEP)
 - ❖ Vice Chair – Doug Breshears (BEC)
- ❖ WMS plans to bring goals to the next TAC
- ❖ We continue to discuss market related issues including NPRRs 1025, 1017, 1023, 1024, as requested by PRS
- ❖ Reviewing NPRR 994 as requested by ROS

Action Item for discussion

- ❖ TAC consider removing the item “Transmission Loss Factors” from the action item list.
 - ❖ In order for ERCOT to analyze the system wide loss factors at a more granular level, a system change will be required in EMS. ERCOT will not be able to provide Resources to make those changes until after the 2024 go-live of the combined project schedule at that time.
 - ❖ If this is still an issue worth study/action, consider revisiting in 2024

<u>Open Action Items from Previous Meeting(s)</u>	<u>Responsible Party</u>
• <u>3/23/17 – Transmission Loss Factors – inclusion of Transmission Losses in Real-Time Settlement and in transmission planning criteria</u>	<u>WMS/ROS</u>

Questions or discussion

❖ Next meeting – July 8
