

Inverter-Based Resource Workshop Follow Up Update

ROS
July 09, 2020

Inverter-Based Resource Workshop Follow Up Status Dashboard

Issues	Status	Workgroups	Schedule
Better Communication of Existing Requirements	Consider a NPRR on IBR definition. (NPRR1016)		
Voltage Ride Through and Momentary Cessation	Voltage ride through near series capacitors	RIW	RIW (June, 2020, July 2020)
Dynamic Models	To strengthen the model validation requirements	DWG, RIW	RIW/DWG (March~June, 2020) PGRR (3Q, 2020)
Advanced Features and Others	Damping support from IBRs	DWG, RIW	RIW/DWG (March~June, 2020) Revision Request (3Q, 2020)
Impact on Transmission Protection	Existing practice in the high IBR penetration area in ERCOT (SPWG is currently conducted a survey to TSPs, and expects to provide updates to ROS in the future)	SPWG, TSPs	TBD
