

Model Quality Improvement PGRR

Jonathan Rose / John Schmall
ERCOT Dynamic Studies

RI Workshop August 25, 2020

Recap: Proposed Model Quality Improvements

- As presented at previous RI workshops:
 - Proposals:
 - PSCAD Model Testing
 - Parameter Verification
 - Benchmark PSS/E and PSCAD Response
 - Goal to help ensure model confidence
 - Models critical for success operating an increasingly complex grid with high penetrations of IRRs and with high power transfers

Start PGRR Process in September

- Thank you everyone for feedback
- Draft language posted on RI Workshop meeting page
 - Since last RI workshop, update language to add a similar requirement for TSP-owned dynamic equipment

Comments are welcome
