

# **NDSWG Report to ROS January 2021**

**NDSWG last met on December 15, 2020 (Webex)**

## **Discussion/Review Items:**

### **MGRR 35/36 Update**

- Dynamic ratings can be added to transformers

### **Chronic Congestion Verification**

- Nodal Protocols 3.20 – equipment that causes active constraint on 3+ operating days within 30 day rolling period is experiencing chronic congestion
- Monthly list of equipment for TSPs to review and verify ratings, impedances, and nearby topology
- NOMCRs may be sent as DPC or 21-day

### **Contingency Workshop**

- Scheduled on January 26, 2021, 9:30am to 4:00pm
- Agenda sent to NDSWG members

**Future NDSWG meeting: January 19, 2020 (Webex)**
