The Honorable Eddie Lucio III Texas House of Representatives 1200 Congress Avenue Austin, Texas 78701

> Re: March 2, 2021 ERCOT Data Request

Dear Representative Lucio:

Your letter of March 2, 2021, requested that ERCOT provide certain information regarding generation weatherization standards, generator site visit procedures, and emergency communications. I am providing you the following information responsive to your request. For clarity, I have reproduced your questions below.

Please provide ERCOT's standards or policies for conducting audits of power generators' equipment to ensure compliance with weatherization standards. Please provide ERCOT's records for 2019 and 2020 related to audits concerning weatherization, emergency preparation compliance, or any other aspect that would impact generation capacity during adverse weather events.

Public Utility Commission of Texas (PUC) Rule 25.362(i)(2)(H) authorizes ERCOT, "upon reasonable notice, to conduct generator site visits to review compliance with weatherization plans." Accordingly, ERCOT's primary role in conducting generator site visits (also sometimes referred to as "spot checks") is to evaluate each generating facility's compliance with its weatherization plan. Under ERCOT Protocols, a generator owner's weatherization plan may be a standalone document, or it may be part of the entity's emergency operations plan. ERCOT Protocols § 3.21(1). An emergency operations plan is a broader set of plans and procedures that each power generation company is required to maintain under PUC Rule 25.53(c)(2). That rule requires a power generation company's emergency operations plan to include the following weatherization-related content:

- (A) A plan that addresses severely cold weather and severely hot weather.
- (B) A plan that addresses any known critical failure points, including any effects of weather design limits.
- (C) A plan that addresses an emergency shortage of water.
- (D) A plan for identification of potentially severe weather events, including but not limited to tornadoes, hurricanes, severely cold weather, severely hot weather, and flooding.
- (E) A plan for the inventory of pre-arranged supplies for emergencies.

- (F) A plan that addresses staffing during severe weather events.
- (G) Checklists for generating facility personnel to address emergency events.
- (H) A summary of alternative fuel and storage capacity.
- (I) A plan for alternative fuel testing if the facility has the ability to utilize alternative fuels.

\* \* \*

(M) An affidavit from an owner, partner, officer, manager, or other official with responsibility for the PGC's operations affirming that all relevant operating personnel of the PGC are familiar with the contents of the emergency operations plan; and such personnel are committed to following the plan except to the extent deviations are appropriate under the circumstances during the course of an emergency.

Beyond these weather-related requirements for emergency operations plans in the PUC's rule, weatherization plans typically describe weatherization equipment installed or available at a generating facility such as heat tracing, insulation, wind blocks, and supplies; practices addressing the maintenance and/or testing of that equipment; and training procedures for plant operations during cold and hot weather extremes. In conducting site visits each year, ERCOT assesses whether the generator owner has complied with all of the practices described in the plan, including, for example, verifying that any equipment reflected in the plan has been installed, that logs demonstrate that the required maintenance and testing has occurred in accordance with the plan, and that the operator can provide appropriate records of any personnel training required under the plan.

There are no mandatory standards for generator plant weatherization under state or federal law. However, ERCOT has developed a set of recommended weatherization practices based on generator site visits that it has conducted in the years following the 2011 cold weather event. These practices, along with various weather-related plan elements required under the PUC's rule, are reflected in ERCOT's checklist, which ERCOT uses during each site visit. A copy of that checklist is attached as Exhibit A. During each site visit, if ERCOT identifies any failures to comply with the weatherization plan or any recommended areas for improvement, ERCOT notes these on the checklist. The checklist also notes whether the plant owner has agreed to correct any deficiencies or address any recommendations identified. After the site visit, ERCOT follows up with an email to confirm the plant owner's commitment to addressing the deficiencies or recommendations. ERCOT's practice has been to follow up in the next winter season with each generator that had any deficiency or recommendation during the prior year's site visits.

Historically, ERCOT has conducted visits to approximately 40-50 sites (covering approximately 90-100 generators) each winter season. These site visits begin in November and finish in February each year. ERCOT determines which sites to visit based on the following criteria, in order:

- Generators that experienced freezing equipment during the previous winter
- Generators that made, or had previously agreed to make, weatherization-related improvements
- New generators
- Generators selected at random

The results of each of ERCOT's site visits conducted in 2019-20 and 2020-21 are attached as Confidential Exhibits B and C, respectively. ERCOT also maintains a spreadsheet reflecting the schedule for site visits each year. The spreadsheet for 2019-20 is attached as Confidential Exhibit D, and the spreadsheet for 2020-21 is attached as Confidential Exhibit E. Finally, ERCOT also maintains a spreadsheet that provides a high-level color-coded summary of its findings at each generating facility reviewed over the years. This spreadsheet is attached as Confidential Exhibit F.

• During the testimony before the committees, the PUC indicated that it had delegated the responsibility to review and audit Emergency Operations Plans to ERCOT. Please provide any records that indicate this delegation and when it was provided.

As noted above, PUC Rule 25.362(i)(2)(H) authorizes ERCOT to conduct site visits to review compliance with weatherization plans. The amendments that introduced this authority were adopted by the Public Utility Commission in an order signed on June 6, 2014. ERCOT agrees that this rule implies that ERCOT will review these plans in preparation for any site visits it conducts, and this is consistent with ERCOT's established practice. ERCOT notes that the emergency operations plans required under PUC Rule 25.53 are broader plans that address not only plant weatherization but also various other emergency situations, including pandemics and hurricanes. Generation owners are required by statute and by ERCOT Protocols to submit these full emergency operations plans to ERCOT. See Tex. Util. Code § 186.007(f); ERCOT Protocols § 3.21(1). However, other than the parts of emergency operations plans that address weatherization, ERCOT does not routinely review the content of generator emergency operations plans and is not required to do so.

 Was the decision to conduct audits of equipment virtually left to the discretion of the individual companies or ERCOT? Please provide your policy or rule governing audits and any accommodations that have been made in light of the COVID-19 pandemic.

After internal discussion at the director and executive level, ERCOT made the decision to conduct all site visits virtually for the 2020-21 season due to the COVID-19 pandemic. In March 2020, when COVID infection rates were about 1,000 new cases per day in Texas, ERCOT had encountered resistance from one generation owner about the risks of COVID transmission from allowing ERCOT personnel on site for purposes of black start testing. ERCOT ultimately agreed to defer the test to later in the year. By November 2020, COVID infection rates had risen above 10,000 new cases per day.

<sup>&</sup>lt;sup>1</sup> See Order Adopting Amendments to § 25.53 and § 25.362 as Approved at the May 30, 2014 Open Meeting, PUC Project 39160 (June 6, 2014), available at <a href="https://interchange.puc.texas.gov/Documents/39160">https://interchange.puc.texas.gov/Documents/39160</a> 38 794242.PDF.

The decision to conduct only virtual site visits during the 2020-21 winter season was ultimately made based on concerns about grid reliability. Generation facility owners must be vigilant about disease transmission because plant operations personnel are often in common rooms for extended periods of time together. Losing an entire shift of operators to illness can create a reliability hazard. In fact, some generation facilities have had to shut down entirely because of impacts on operator shifts.<sup>2</sup> For this same reason, ERCOT has required its own control room operators to strictly limit social interactions, and has further restricted access to its control center during the course of the pandemic.<sup>3</sup> Given the risks of having third-party personnel on site, ERCOT decided that the interests of reliability justified conducting the weatherization reviews remotely during the 2020-21 winter season. In all previous years, all site visits have been conducted in person, and ERCOT will resume in-person site visits when the pandemic has subsided.

# • Please provide records of all facilities that you inspected and reviewed Emergency Operations Plans for 2019 and 2020.

Several of the documents provided in response to your first question are also responsive to this request. The results of each of ERCOT's site visits conducted in 2019-20 and 2020-21 are respectively attached as Confidential Exhibits B and C. Second, ERCOT's spreadsheets reflecting the dates of each spot check and a summary of ERCOT's findings for each facility are attached as Confidential Exhibit D (2019-20) and Confidential Exhibit E (2020-21). Finally, ERCOT's spreadsheet that summarizes the results of its findings at each generating facility visited over the years is attached as Confidential Exhibit F. Per your clarification of your request yesterday afternoon, ERCOT also provides each of the weatherization plans for each of the generators it visited in 2019-20 and 2020-21. These plans are marked as Confidential Exhibits G and H, respectively.

• Please provide any records detailing standards for review of Emergency Operations Plans and any action taken by ERCOT to request compliance from market participants if plans were deemed to be inadequate.

As noted above, ERCOT reviews weatherization plans, but does not routinely review the other elements of the emergency operations plans and is not required to do so. ERCOT's standards for reviewing weatherization plans are contained in its checklist, attached as Exhibit A. In the 2019-20 review cycle, ERCOT identified nine generation facilities that had a deficiency or recommended area of improvement. See Confidential Exhibit I. In each case, ERCOT was able to secure the commitment of the plant owner during the site visit to address the deficiency or to adopt the recommended improvement. ERCOT determined that nearly all of the deficiencies had

<sup>&</sup>lt;sup>2</sup> See Power Industry Pleads for Priority COVID-19 Testing, PPE for Mission-Essential Workers (Apr. 7, 2020) <a href="https://www.powermag.com/power-industry-pleads-for-priority-covid-19-testing-ppe-for-mission-essential-workers/">https://www.powermag.com/power-industry-pleads-for-priority-covid-19-testing-ppe-for-mission-essential-workers/</a>.

<sup>&</sup>lt;sup>3</sup> See ERCOT Pandemic Plan Preparations for Coronavirus (COVID-19), http://www.ercot.com/content/wcm/lists/219693/ERCOT\_Pandemic\_Planning\_Actions\_for\_COVID19\_Revised\_1-22-2021.pdf

Hon. Eddie Lucio III March 11, 2021 Page 5

been addressed in its 2020-21 review of each of those nine facilities. See Confidential Exhibit J. In 2020-21, ERCOT identified three generating facilities with deficiencies or recommended areas of improvement. See Confidential Exhibit K.

#### **Request for Communications Timeline**

Finally, you have also requested "a timeline of communication between ERCOT, the Public Utility Commission, state officials, and other generators/providers leading up to and during the winter storm." We have compiled a log of approximately 1400 emails, phone calls, and text messages between ERCOT personnel and state officials and employees from February 8, 2021 through February 19, 2021. This log is attached as Exhibit L. It is possible that we may identify additional responsive communications in the future. If desired, I would be happy to provide a log of any additional communications that may be identified over time. I have also assembled a list of all ERCOT control room hotline calls during this period to the Qualified Scheduling Entities that communicate with ERCOT on behalf of each generator. This list is attached as Exhibit M.

Please do not hesitate to contact me if you have additional questions or need any additional information.

Respectfully,

/s/ Woody Rickerson

Woody Rickerson Vice President, Grid Operations & Planning woody.rickerson@ercot.com (512) 248-6501

#### Checklist for 2020-2021 Plant Winter Weatherization Spot Checks

QSE N	Name:
	rce Name:
On Sit	e Date:
On Sit	e Point of Contact:
Genera	ator minimum ambient design temperature:
Boiler	type:
	Did this unit trip or experience any equipment freeze issues due during the previous two winters? (Yes/No) if yes, explain:
✓	Was this a reoccurring event or did it occur during a previous winter? If yes, explain in detail the cause.
	Physically examine the element(s) which froze or forced the trip previously — what measures has the plant taken to protect the element from freezing?
	Were these measures in effect when the equipment froze? (Yes/No) if yes, explain:
	What physical or operational improvements has the plant made?
	Are lessons learned included in the weatherization plan?
	Has the resource identified all know critical components? (Yes/No) PUCT Order 39160 (2) (b)
	✓ How are the components identified?
	Does the resource have a plan to prepare for winter? (Yes/No)
	Does the resource have a severe cold weather checklist? (Yes/No)  Does the resource have evidence of completion from the last extreme cold weather event?
	PUCT Order 39160 (2)  ✓ If no, provide explanation
	ii no, provide explanation
	To what level of corporate management is the resource winter readiness communicated?  ✓ Explain
	✓ Explain Email contact information?
	✓ Plant managers email address?

	Is there a maintenance procedure for confirming heat tracing is functioning properly?(Yes/No)
	✓ Will that procedure detect if the heat tracing is interrupted mid-length? (Yes/No)
	✓ Are amperage readings compared to design documentation? (Yes/No)
	✓ Is there a maintenance record of all heat tracing checked this season? (Yes/No)
	• If no, explain  ✓ Do the heat trace records identify critical circuits?
	✓ How many <u>critical heat trace circuits</u> failed inspection?
	Have they been repaired?
	Is there a record of maintenance on instrument air? (Yes/No)
Ш	
	<ul> <li>✓ If yes, when was it last completed?</li> <li>✓ What does your PM schedule include? (compressors, heat exchangers, drain traps, dryer system)</li> </ul>
	what does your Fivi schedule include? (compressors, neat exchangers, drain traps, dryer system)
	✓ What is the last date your dew point analyzer was calibrated?
	✓ Is dew point monitored locally or in the control room?
	✓ How is moisture removed from instrument air?
	✓ Are blow downs automatic or manual?
	✓ How often are periodic blow downs opened?
	✓ What is logged by the operators during rounds related to instrument air?
	A no instrument oir love point during clearly monted throughout the plant?
	✓ Are instrument air low point drains clearly marked throughout the plant?
	✓ Are periodic blow downs part of the operator rounds?
	Is winter weather emergency supplies needed listed on the checklist or procedure? (Yes/No)
	PUCT Order 39160 (2) (e)
	Has the plant done a thorough inspection of all critical insulation? (Yes/No)
	Can the plant provide documentation of completion? (Yes/No)
	✓ If No, explain
	Is there a corporate or plant procedure for an extreme cold weather training?
	✓ Does the plant perform an annual extreme cold weather drill or training?
	✓ Are there viewable training records for plant personnel that attended extreme cold weather
	training this season? (Yes/No)
	How do the operators train for the loss of a drum level?
	✓ Explain
	Is manual operator action required to take critical transmitters out of scan or is it automatic due to
	deviation alarm?
	✓ Explain
	How many critical transmitters can the plant lose and still remain on line?
	✓ Explain drum level?
	Does the plant personnel perform any preparations for winter operations in the gas yard?
	(Yes/No)
	PUCT Order 39160 (2) (h) (i)
	✓ Explain:

Does the unit have the capability for fuel oil? (Yes/No) PUCT Order 39160 (2) (h) (i) ✓ Is there documentation on the last time fuel oil capability was tested? (Yes/No)
<ul> <li>□ For gas turbine plants: what measures have been taken for tuning and inlet air duct icing during an extreme cold weather event so the unit stays on line and is compliant with emission standards?</li> <li>• Explain</li></ul>
□ Provide plant feedback on spot check as follows:
<ul> <li>✓ Met goal of following weatherization plan (Yes/No)</li> <li>If no, explain what plant must do to meet weatherization plan</li> <li></li> </ul>
✓ Is plant willing to correct deficiencies? (Yes/No)  Have plant give date by which they will correct deficiencies
<ul> <li>As part pf mitigation, contact regional director or VP and notify of corrective actions needed, see page 2 for contact information</li> <li>If plant is unwilling to correct deficiencies contact plant regional director or VP for follow-up. See page 2 for contact information.</li> </ul>
DURING EXAMINATION OF RECORDS OR PHYSICAL EXAMINATION PROVIDE ADDITIONAL DETAILS BELOW AS NECESSARY.

Desk_Date_Time	Call Summary
RTD_02082021_093132	0930 ERCOT issuing OCN due to predicted freezing precipitation for Panhandle and north areas
	of the ERCOT region beginning 02/10-02/11. Notify ERCOT if you experience any issues.
RTD_02082021_171921	1715 ERCOT issuing OCN for an extreme cold weather system approaching 02/11 thru 02/15
	with temps anticipated to remain at 32 or below. QSEs instructed to update COPs & HSLs,
	review fuel supplies, prepare to preserve fuel to best serve peak load, notify ERCOT of any
	known/anticipated fuel restrictions, review planned/existing outages for possibility of
	restoring, review/implement winterization procedures, notify ERCOT of any changes or
	conditions that can affect reliability.
RTD_02102021_170602	1700 ERCOT issuing Advisory for an extreme cold weather system approaching 02/12 thru
	02/16 with temps anticipated to remain at 32 or below. QSEs instructed to update COPs &
	HSLs, review fuel supplies, prepare to preserve fuel to best serve peak load, notify ERCOT of
	any known/anticipated fuel restrictions, review planned/existing outages for possibility of
	restoring, review/implement winterization procedures, notify ERCOT of any changes or
	conditions that can affect reliability.
RTD_02112021_112307	1115 ERCOT issuing Watch for extreme cold weather.
RTD_02112021_161829	TCEQ Market Notice of enforcement discretion posted effective today.
RUC_02132021_042154	0420 ERCOT issuing Watch due to HRUC not completing for HE06 due to failure.
RUC_02132021_055002	0550 ERCOT issuing Watch due to HRUC not completing for HE07 due to failure.
RUC_02132021_061916	0620 ERCOT cancelling Watch for HRUC failures.
RTD_02132021_084439	0844 ERCOT issuing Advisory for PRC falling below 3,000 MW.
RTD_02132021_085223	0847 ERCOT issuing Emergency Notice for extreme cold weather having an affect on ERCOT
	system.
RTD_02132021_130026	1300 ERCOT cancelling Advisory for PRC falling below 3,000 MW.
RTD_02142021_084511	0830 ERCOT has issued appeal to media for voluntary conservation.
RUC_02142021_104733	1040 ERCOT issuing Watch for insufficient AS offers in DAM.
RUC_02142021_132935	1330 ERCOT issing an Advisory for timeline deviation of DAM; start of DRUC delayed.
RUC_02142021_145922	1500 ERCOT cancelling Advisory for delay of DAM.
RTD_02142021_151922	1515 ERCOT issuing Watch for projected reserve capacity shortage with no market solution for HE17-2100 causing high risk for EEA.
RTD_02142021_171531	1715 ERCOT issuing Watch for freezing precipitation event which has caused multiple forced
N1D_02142021_171331	transmission outages.
RTD 02142021 212936	2130 ERCOT notifying all QSE to contact AR to check email for invitation to Webex about DOE
	Sec. 2002C order allowing certain units to maximum output.
RTD_02142021_214921	2148 ERCOT cancelling Watch for projected reserve capacity shortage with no market solution
	for HE17-2100.
RTD_02142021_233245	2330 ERCOT issuing Advisory due to PRC falling below 3,000 MW.
RTD_02152021_000922	0010 ERCOT issuing Watch due to PRC falling below 2,500 MW.
RTD_02152021_001619	0015 ERCOT declaring EEA1; ERS has been deployed.
RTD_02152021_010734	0107 ERCOT declaring EEA2 and is issuing an appeal to media to conserve; all load resources
	have been deployed.
RTD_02152021_011925	0119 ERCOT declaring EEA2 and is issuing an appeal to media to conserve all ERS with
	obligations have been deployed. Implement all measures associated with EEA1.
RTD_02152021_012419	0120 ERCOT declaring EEA3 with firm load shed of 1,000 MW.
RTD_02152021_014913	0145 ERCOT declaring EEA3 with firm load shed of additional 1,000 MW for total of 2,000 MW.
RUC 02152021 015358	0150 ERCOT declaring EEA3 with firm load shed of additional 3,000 MW for total of 5,000 MW.
	, , ,

#### QSE Hotline Calls Feb. 8 - 19, 2021

RUC_02152021_015720	0155 ERCOT declaring EEA3 with firm load shed of additional 3,500 MW for total of 8,500 MW.
RTD_02152021_020158	0200 ERCOT declaring EEA3 with firm load shed of additional 2,000 MW for total of 10,500
	MW.
RTD_02152021_022757	0225 ERCOT restoring firm load.
RTD_02152021_024836	0245 ERCOT issuing Watch for projected reserve capacity shortage with no market solution for
	HE04-24 causing high risk for EEA.
RTD_02152021_043256	0430 ERCOT declaring EEA3 with firm load shed of additional 1,000 MW for total of 10,000 MW.
RTD_02152021_051441	0513 ERCOT declaring EEA3 with firm load shed of additional 1,000 MW for total of 12,500
NTD_02132021_031441	MW.
DTD 02152021 052142	
RTD_02152021_053143	0529 ERCOT declaring EEA3 with firm load shed of additional 1,000 MW for total of 13,500
DTD 00450004 050500	MW.
RTD_02152021_053538	0502 ERCOT in EEA3; all ERS w/obligation have been deployed.
RTD_02152021_054119	0540 ERCOT issuing Watch due to HRUC not completing for HE07 due to failure.
