

## **NDSWG Report to ROS April 2021**

**NDSWG last met on March 16, 2021 (Webex)**

### **Discussion/Review Items:**

#### **NPRR 1064 – Chronic Congestion**

- Language revision to section 3.20 of Nodal Protocols
- No additional comments after discussion and ERCOT comments (032421), recommend to move forward

#### **NPRR 902 – Critical Energy Infrastructure Info**

- Allows Market Participants to grant access to ECEII
- When implemented, new subfolder called ECII requiring permissions in Digital Certificate to access
- Still pending market notice

#### **Combined Contingency Form**

- ERCOT working on new form for enabling/disabling contingencies, will follow-up next meeting

**Future NDSWG meeting: April 20, 2021 (Webex)**
