

NDSWG Report to ROS
May 2021
J-M Yatar, NDSWG
Chair

NDSWG last met on April 20, 2021 (Webex)

Discussion/Review Items:

Chronic Congestion List

- TDSPs are requesting ERCOT to streamline the process to reduce repetition of verification for lines in the list
- ERCOT will be looking into ways to improve process

Pre-discussion on SCR 813

- New SCR (pending ROS referral) that will affect NMMS change requests for jointly rated equipment
- If jointly rated, a checkbox will prompt the submitting entity to coordinate with other entities before submission
- Also included is enhanced email notification for companies when modifying co-owned equipment
- Presentation available in NDSWG meeting 04/20 webpage

Combined Contingency Form

- ERCOT presented final draft, will send to members soon for implementation

New Standard Contingency List

- Final version to be uploaded to MIS soon, tentatively June
- Both old and new versions will be posted at first

Migrating ICCP Handbook to Operating Guides

- Initial draft has been posted in NDSWG meeting 04/20 webpage, TDSPs to review for discussion next meeting

Future NDSWG meeting: May 18, 2021 (Webex)
