

NDSWG Report to ROS

June 2021

J-M Yatar, NDSWG Chair

NDSWG last met on May 18, 2021 (Webex)

Discussion/Review Items:

SCADA Corrections: Contacts and Process

- Request TSPs to provide contact person for SCADA issues
- Purpose is to contact if no resolution to issues (14 days)
- Please send info via e-mail to Stephen Solis

Chronic Congestion List Issues

- Additional discussion by TSPs on chronic congestion
- New format (July) to show newly added equipment to list
- Request by TSP to add ratings/impedances in the list

Discussion: SCR 813

- SCR 813 discussion by TSPs include:
 - Removal of checkbox
 - Implement Owner Share Impedance
 - Coordinate tie-lines outside of NOMCR process
 - Other TSP needs to respond for NOMCR approval
 - Coordinate with QSEs regarding SCR, via RIOO
- ERCOT to review SCR 813 internally

New Enable/Disable Contingency Form

- Final version sent out, already being implemented
- Request by TSP to add more space for contingencies

New Standard Contingency List

- Market notice sent out, will switch by end of June

Migrating ICCP Handbook to Operating Guides

- ERCOT to review internally for revisions

NPRR 902 ECEII Changes

- New role needed to access ECEII starting June 1, 2021
- This includes Standard Contingency List
- Please coordinate with USAs to update Digital Certificate

Future NDSWG meeting: June 15, 2021 (Webex)
