# NDSWG Report to ROS
## July 2021
### NDSWG Chair: J-M Yatar

## NDSWG last met on June 15, 2021 (Webex)

## Discussion/Review Items:

### ECEII

-Changes to NMMS_POSTINGS already active, must have assigned role in digital certificate to access new folder

-Models moved to ECEII – Market, Production, "Raw"

### Relay Loadability Rating Reminder

-Please perform review of RLR, criteria can be seen in Modeling Expectations

### SCR 813

-NDSWG Members agree to move forward with SCR

-Details will be discussed closer to implementation

### Updated Enable/Disable Contingency Form

-Updated form to include more lines for contingencies

**Chronic Congestion List**

-New format to be implemented will reduce number of items and indicate if equipment was in previous reports

**Migrating ICCP Handbook to Operating Guides**

-Possible workshop to examine document and determine binding language, also referred to EMSWG for guidance

**Future NDSWG meeting: July 20, 2021 (Webex)**
