

# **PRR 830 ISSUES**

- “VIRTUAL” UNITS DO NOT MAKE SENSE

# **“VIRTUAL” UNITS DO NOT MAKE SENSE**

- NEW WGR DEFINITION CREATES AGGREGATIONS OF ACTUAL WIND-POWERED TURBINES OF THE SAME TYPE FOR MODELING PURPOSES
  - THE WIND COALITION SUPPORTS THE MODELING
  - BUT THE REDEFINITION WILL MAKE WGRs “UNITS” FOR ALL PURPOSES
    - NO METER POINT
    - ALL PROTOCOL AND GUIDE PROVISIONS APPLYING TO “UNITS” AND TO “RESOURCES” NOW APPLY TO THIS VIRTUAL POINT

# MODELING DATA MUST BE PROVIDED

- THE WIND COALITION STRONGLY SUPPORTS SUPPLYING THE NEEDED MODELING DATA
- ALTERNATIVE WORDING HAS BEEN PROVIDED
  - PROVIDES 100% OF THE DATA PROPOSED BY ERCOT
  - DOES NOT REQUIRE THE REDEFINITION OF “WGR”
