

II

Managing INRs as a TSP/DSP in RIOO Interconnection Services

Version 12.31.21

ERCOT RIOO Interconnection Services Release Notes

December, 2021

ERCOT has released the latest version of Resource Integration and Ongoing Operations - Interconnection Services (RIOO - IS).

The RIOO - IS online app enables an Interconnecting Entity (IE) or Resource Entity (RE) to create and manage requests that propose new generation resources to interconnect to the Texas power grid at new or existing sites. Transmission/Distribution Service Providers (TSPs) can view the Interconnection Requests (INRs) as well as review documents in support of the INRs and record/update project milestone dates as they occur.

For TSPs, ERCOT starts their RIOO – IS TSP user account using their email address from their Market Participant Identity Management (MPIM) profile as their RIOO - IS user name. Each TSP must request that their USA add the GINR_M_Operator role to the MPIM profile and then respond to the email to set their account password and enroll their smart phone in a multifactor authentication (MFA) app that validates login requests.

The [ERCOT RIOO Interconnection Services TSP Sign-Up Reference](#) that takes the TSP through finishing the account sign up is available from the Resource Integration page of the ERCOT website ([ercot.com](#) > **Services** > **Registration and Qualification** > **Resource Integration**).

About this Guide

This guide provides information to assist TSPs with performing tasks in RIOO - IS, such as viewing the INRs submitted by IEs/REs for new generation resource interconnection projects, reviewing drafts of required documents, and adding change requests to start various studies as well as recording specific milestone dates.

Supporting Documentation

RIOO Services documentation available from the *Resource Integration* page of the [ercot.com](#) website:

- *IE Sign Up Guide for RIOO Services*
- *RE Sign Up Guide for RIOO Services*
- *TSP/DSP Sign Up Guide for RIOO Services*
- *Managing Your RIOO Services User Account*

- *Creating an INR for a Generation Resource Under 10MW*
- *Creating an INR for a Generation Resource Over 10MW*
- *Managing Your INR as an IE/RE*
- *Managing INRs as a TSP/DSP*

Accessing RIOO - IS

Accessing RIOO – IS involves logging into your TSP account with the login credentials and the multifactor authentication (MFA) method you signed up with (such as Auth0 Guardian or Google Authenticator).

The **GINR_M_Operator** role must be in your MPIM profile. Refer to the *TSP Sign-Up Reference* (on the ercot.com website).

To change the MFA app associated with your account, you must submit a help ticket to the ERCOT help desk to have ERCOT Product Support reset your account and send you an email with instructions. Refer to *Changing to Google Authenticator MFA* on page 56.

Logging into Your Account

After launching the RIOO-IS app from the ERCOT website, log into your TSP user account and verify your login attempt.

Access the RIOO Interconnection Services App

About ERCOT Services Committees and Groups

Home > Services > Registration and Qualification > Resource Integration

Resource Integration

This section offers steps to guide Interconnecting Entities (IEs) and Resource Entities (REs) through the interconnection process for new or modified generation interconnections within the ERCOT system. Entities wishing to interconnect new generation or modify existing generation should refer to Planning Guide, Section 5.1.1 - Applicability, to determine if the proposed resource or modification must go through the Generation Resource Interconnection or Change Request (GINR) process.

Transmission-connected resources not subject to the requirements of Planning Guide Section 5 must still submit appropriate Resource Asset Registration Forms (RARF) found in the Models section below. Guidelines for Distributed Generation can be found on the [Distributed Generation](#) page. Any questions on resource integration can be directed to ResourceIntegrationDepartment@ercot.com.

IEs wishing to submit or modify a GINR application must do so through the online [Resource Integration and Operation](#) process.

Log Into Your Account

The screenshot shows the ERCOT Interconnection Services login page. At the top is the ERCOT logo and the text 'Interconnection Services'. Below this are two tabs: 'Log In' (selected) and 'Sign Up'. The login form has two input fields: the first is for an email address, with 'yours@example.com' entered; the second is for a password, with 'your password' entered. Below the password field is a link that says 'Don't remember your password?'. At the bottom of the form is a blue button labeled 'LOG IN >'. Three numbered callouts are present: 1. Points to the email input field with the text 'Type in your email address for the user name.' 2. Points to the password input field with the text 'Type in password you set this account.' 3. Points to the 'LOG IN >' button with the text 'Click LOG IN >.'

If you cannot log in after 10 tries, the YOUR ACCOUNT HAS BEEN BLOCKED AFTER MULTIPLE CONSECUTIVE LOGIN ATTEMPTS message displays. Open a Help Desk ticket that tells them you are blocked by your MFA and that Operations should unblock your ID.)

Verify Your Login On Your Smart Phone

For Guardian Auth0: Locate the Guardian Auth0 message, swipe right, and tap **Allow**.

For Google Authenticator: Open Authenticator to view the code, type the 6 numbers of your new code into the ERCOT verification code page, and click the continue arrow.

For SMS Authentication: Open the new message, type the 6 numbers of your new code into the ERCOT verification code page, and click the continue arrow.

Logging Out of Your Account

You should log out of your account when you are finished performing tasks.

The screenshot shows a dark grey header bar. On the left, it says 'Hello' followed by a blurred name. In the center, it says 'My Account' next to a user icon. On the right, it says 'Log Out' next to a right-pointing arrow icon. A numbered callout 1 points to the 'Log Out' button with the text 'On the right side of the Interconnection Serices title bar, click Log Out.'

Understanding the RIOO-IS TSP Dashboard

After you have finished signing up and logged in to RIOO-IS, your *Interconnection Request List* tab displays with the INR List of the appropriate submitted INRs as well as the tab to view the *TSP Key Milestones* information.

While working on a RIOO-IS page, you can click the  logo in the upper left to return to the main *Interconnection Requests List* page.

Working with the INR List

The left side of the INR List displays the resource details provided in the INR by the IE/RE.

The right side of the INR List displays the dates for the key milestones in the project.

The screenshot shows a web interface for the INR List. At the top, there is a header bar with "Hello," and "My Account" with a user icon, and a "Log Out" button. Below the header, there is a "Reset All" button. A search bar is present with the text "Search: Enter term to find..." and buttons for "Copy", "CSV", and "Excel". The main table has the following columns: Projected Sync, Projected Energization, FIS Study Scope, Stability Study Start, SSR Study Start, IA Signed, Notice to Proceed, and Financial Commitment. The table body is currently empty, showing only the column headers. At the bottom of the table, there is a pagination bar with links for "First", "Previous", "1" (selected), "2", "3", "4", "5", "6", "Next", and "Last".

Adjusting the INR Records Displayed

INR List

Show entries

Showing 1 to 10 of 11 entries

You can adjust the number of records that display in this list by changing the number of entries to show on each page of the list. Note that the more records you show, the more time it takes to display each page. Choosing **All** will cause a significant slow down.

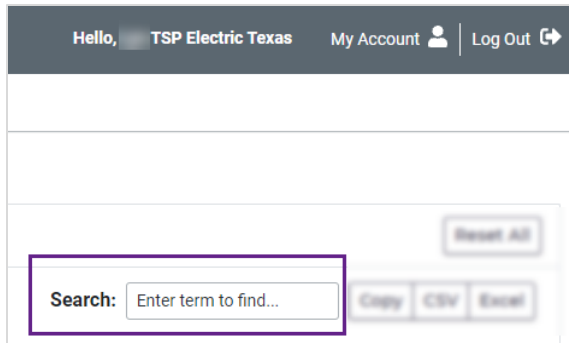

INR List

Show entries

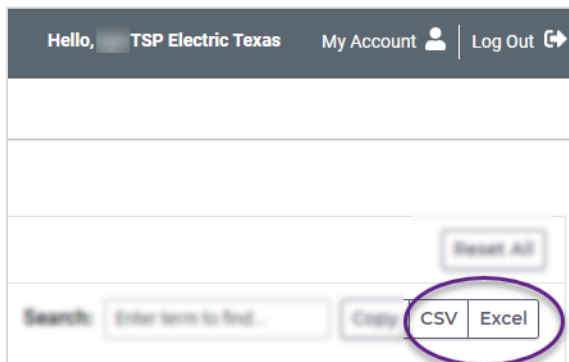

☐ Show Operational INR's ☐ Show Cancelled INR's

Showing 1 to 10 of 11 entries

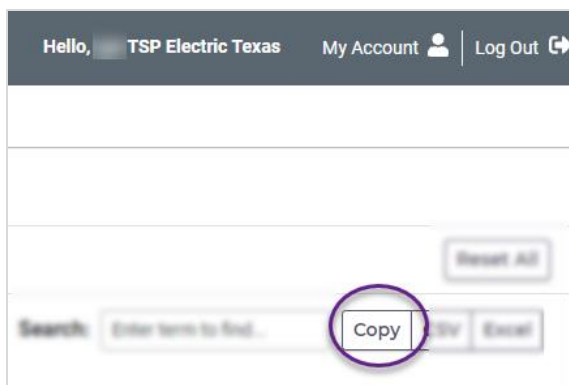

You can also adjust the number of records displayed by clicking either the **Show Operational** or **Show Canceled INRs** checkbox.

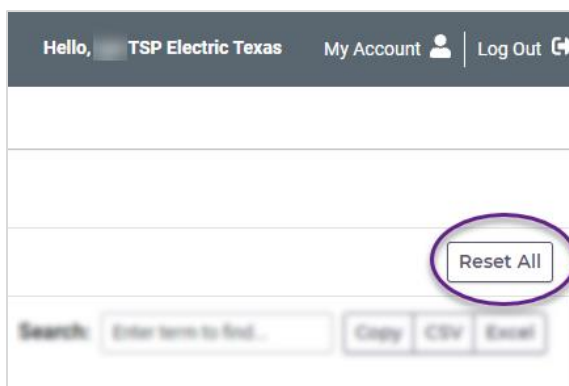

From the right side of the page, you can search for specific INRs using an INR Number or Project Name, or filter the list for subsets of INRs using the TSP name or the technology type.

To examine and work with the data displayed for the INRs in your list view, you can convert your view to an Excel spreadsheet or dump the contents into a comma separated values (CSV) file that you can view.

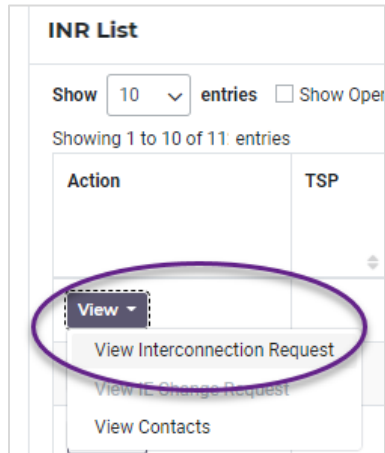

Although you can copy this list, it is not recommended because it may timeout before completing or have unpredictable results.

You can click the **Reset All** button to return to the default view of the list.

Viewing an INR

When you view an INR, the details of the project display in a *Review* page along with the tab for viewing the key milestones for the project.

- 1 Locate the INR and select **View Interconnection Request** from the **View** drop down.

Viewing TSP Milestones

From the top of this INR *Review*, you can click **TSP Key Milestones** to display project dates and when they were achieved (or, from the Interconnection Request List, click **Continue**).

The screenshot shows the 'Review' page for an Interconnection Request. The page has a dark header with the ERCOT logo and 'Interconnection Services'. On the right, it says 'Hello TSP Electric Texas', 'My Account', and 'Log Out'. Below the header, there are tabs for 'Home', 'Interconnection', 'Interconnection Request List', and 'Attachment List'. The 'Interconnection Request List' tab is active, and within it, the 'Review' sub-tab is selected. The main content area shows 'Interconnection Request' and a button for 'TSP Key Milestones', which is circled in purple. Below this, the 'View TSP Key Milestones' section lists several categories with their respective dates or documents:

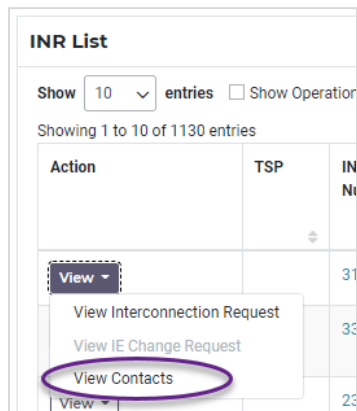

- FIS Study Scope Signed and Funded**
 - Signed Date
 - Funded Date
- Study Scopes**
 - No attachments to display
- FIS Study Start Dates**
 - Stability Study Start
 - SSR Start
- FIS Studies**
 - No attachments to display
- System Impact Study**
 - No attachments to display
- Interconnection Agreement Dates**
 - Original Date
 - Amended Date
- Interconnection Agreement Documents**
 - No attachments to display
- Other Key Milestones**
 - Notice to Proceed
 - Financial Commitment

At the bottom of the page, there are two buttons: 'Back' and 'Print Form'.

Viewing Project Contacts

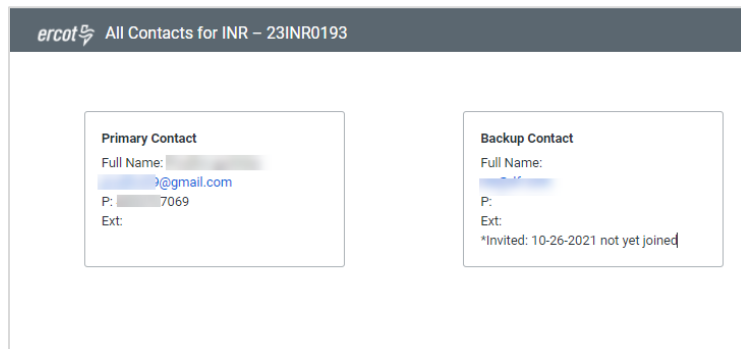

REs do not need to invite contacts to work on the project.

IEs invite contacts into the project and the people invited receive an email about the project and can respond to participate. At least one contact must accept the role to back up the primary contact to help with INR decisions. The other contacts can view the INR.

From the **Action** column of the INR List, locate the INR and select the **View Contacts** option from the **View** drop down (to the left).

The contact cards for Backup Contact and other Invited Contacts will display. The date on a contact card shows when they responded to the invitation from the primary contact.

Working with INR Attachments

The *Attachments List* displays the files that have been uploaded to support INRs (such as the one-line schematic, study results, or permits) as well as electronic signatures for the General Entity Information agreement and invoice payments.

Note that the **Version** column indicates if the attachment is a draft or in the Final version.

You can click the linked document to open it to gather history or information.

When you receive an email from an IE/RE, ERCOT or another TSP about reviewing a document, you can access the document in the *Attachments List* tab. If the attachment is not visible in your view of the list, you can search for it by filtering the list in different ways using the **Search Attachments** panel.

Locating Specific Attachments Using the Search Attachments Pane

The *Search* pane displays by default, but you can click the **Close Search** button to hide the pane from. You can click the **Open Search** tab to display the *Search* pane again.

You can search to locate attachments in several ways. You can combine several types of search criteria before scrolling down to click the **Search** button.

Locating Attachments by INR Number

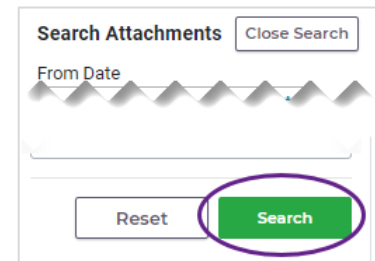

You can use the **INR Number** field to search for all INRs that have the same COD year (like 23), or specific range of INRs (like INR01), or a specific INR (all 8 characters in the YYINR#### format).

The screenshot shows the 'Search Attachments' form. The 'From Date' is set to 11-02-2021 and 'To Date' is 12-01-2021. The 'Phase of Study' and 'Attachment Type' are dropdown menus. The 'INR Number' field is highlighted with a red circle. Below it is the 'Project Name' field. At the bottom, there are 'Reset' and 'Search' buttons.

1 Locate the **INR Number** field and then type in either:

- At least two numbers representing the year (22 or 23) or for a range of INRs (10 or INR10)
- Or the full 8 characters of an INR number.

The screenshot shows the 'Search Attachments' form. The 'From Date' and 'To Date' fields are empty. The 'Reset' and 'Search' buttons are at the bottom. The 'Search' button is highlighted with a red circle.

2 Scroll to the bottom of the list and click **Search**.

Locating Attachments by the Name of the Parent or Holding Company

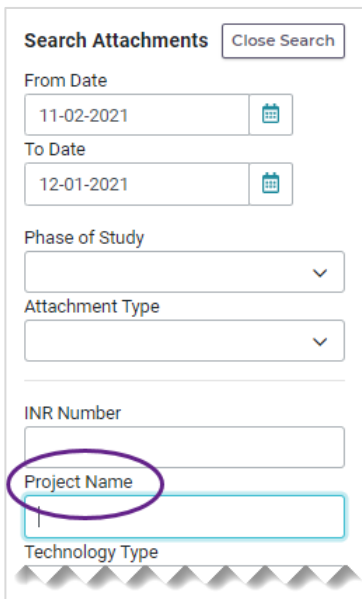

The screenshot shows the 'Search Attachments' form. The 'From Date' is set to 11-02-2021 and 'To Date' is empty. The 'TDSP Name' is a dropdown menu. The 'Parent or Holding Company' field is highlighted with a red circle. Below it is the 'IE Name' field. At the bottom, there are 'Reset' and 'Search' buttons.

1 Locate the **Parent or Holding Company** field, type in at least two characters of the company name.

2 Scroll to the bottom of the list and click **Search**.

Locating County Map Attachments

The screenshot shows the 'Search Attachments' form. The 'From Date' field is set to 11-02-2021 and the 'To Date' field is set to 12-01-2021. The 'Phase of Study' field is empty. The 'Attachment Type' dropdown menu is open, showing a list of options: 'Location Map', 'Electronic Signature', 'Air Permit', 'Greenhouse Gas Permit', and 'Declaration of Adequate Water Supplies'. The 'Location Map' option is highlighted with a purple oval. The 'Reset' button is to the left of the 'Search' button, which is highlighted with a purple oval.

1 Locate the **Attachment Type** drop down and click **Location Map** from the list.

The screenshot shows the 'Search Attachments' form. The 'From Date' field is set to 11-02-2021 and the 'To Date' field is set to 12-01-2021. The 'Phase of Study' field is empty. The 'Attachment Type' dropdown menu is empty. The 'Reset' button is to the left of the 'Search' button, which is highlighted with a purple oval.

2 Scroll to the bottom of the list and click **Search**.

Locating Electronic Signature Attachments

The system automatically uploads the required documents when they are signed online, including the Generation Entity Information Sheet required to submit an INR and the receipt for payment for the online application and for studies performed.

The screenshot shows the 'Search Attachments' form. The 'Attachment Type' dropdown menu is open, showing a list of options. The 'Electronic Signature' option is highlighted with a purple oval. Other options include Location Map, Air Permit, Greenhouse Gas Permit, Declaration of Adequate Water Supplies, RARF, One-line, Generation Entity Information Sheet, and Other.

1 Locate the **Attachment Type** drop down and click **Electronic Signature** from the list.

The screenshot shows the 'Search Attachments' form. The 'Search' button is highlighted with a purple oval. The 'Reset' button is also visible.

2 Scroll to the bottom of the list and click **Search**.

Locating FIS Attachments

You can located FIS attachments from a specific study phase or by their attachment type.

The screenshot shows the 'Search Attachments' form. The 'Phase of Study' dropdown menu is open, showing a list of options. The 'FIS' option is highlighted with a purple oval. Other options include IA, IA and FIS Pending, FIS Complete, FIS & SS Incomplete, SS Complete, SS, Unassigned, MRD Approved, No MRD, and Technology Type.

1 Locate the **Phase of Study** drop down and click the appropriate FIS option from the list.

The screenshot shows the 'Search Attachments' form. The 'Search' button is highlighted with a purple oval. The 'Reset' button is also visible.

2 Scroll to the bottom of the list and click **Search**.

3 Click **Send**.

Viewing TSP Milestones

From the top of this INR *Review* page, you can click **TSP Key Milestones** to display project dates and when they were achieved (or, from the *Interconnection Request List*, click **Continue**).

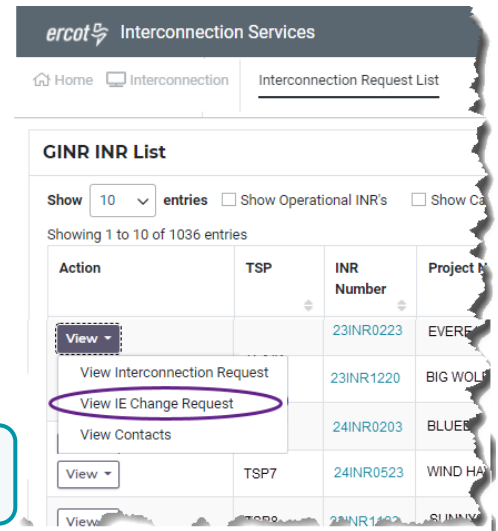

The screenshot shows the ERCOT Interconnection Services web application. The top navigation bar includes the ERCOT logo, 'Interconnection Services', and user information: 'Hello TSP Electric Texas', 'My Account', and 'Log Out'. Below this is a secondary navigation bar with 'Home', 'Interconnection', 'Interconnection Request List', and 'Attachment List'. The main content area is titled 'Interconnection Request List' and 'Review'. Under 'Interconnection Request', the 'TSP Key Milestones' link is circled in purple. The 'View TSP Key Milestones' section lists several milestones with their respective dates and documents:

- FIS Study Scope Signed and Funded**
 - Signed Date
 - Funded Date
- Study Scopes**
 - No attachments to display
- FIS Study Start Dates**
 - Stability Study Start
 - SSR Start
- FIS Studies**
 - No attachments to display
- System Impact Study**
 - No attachments to display
- Interconnection Agreement Dates**
 - Original Date
 - Amended Date
- Interconnection Agreement Documents**
 - No attachments to display
- Other Key Milestones**
 - Notice to Proceed
 - Financial Commitment

At the bottom of the page, there are 'Back' and 'Print Form' buttons.

Viewing INR Change Requests Submitted by IE/RE

To request changes and additions to the INR information, the IE/RE who submitted the INR can submit change requests and you can view these requests from the TSP Dashboard.

1. Locate the INR and click **View IE Change Request** from the **View** dropdown.

2.

Replace with TSP View

Requesting FIS Change Requests

As a TSP, you can add change requests to have a draft of the FIS Study Scope reviewed and then upload the Final FIS Study Scope document as well as request an FIS Study and Study Start Dates. You can add the change requests one at a time, or click on the three FIS options all at one time and move through tabs.

The screenshot shows the ERCOT Change Request interface for 23INR0376. The user is logged in as TSP Electric Texas. The interface has a top navigation bar with 'ercot' logo, 'Change Request for 23INR0376', and user information. Below the navigation bar are tabs for 'Home', 'Interconnection', 'Milestones', and 'Review'. The 'Review' tab is active, showing the 'Interconnection Agreement' section. In this section, there are two date fields: 'IA Signed Date Original' with the value '11-21-2021' and a calendar icon, and 'IA Signed Date Amended' with a 'Current:' field showing 'n/a' and an 'Update:' field showing '12-02-2021' with a calendar icon. A purple oval highlights the 'IA Signed Date Amended' section. A blue callout box with a '1' icon contains instructions: 'Type in the mm-dd-yyyy of the updated Inter Interconnection Agreement. Or, click the calendar. A Select the appropriate Month and Year from the drop downs. B Click the appropriate day on the calendar.' A blue callout box with a '2' icon contains the instruction: 'Click the Continue button.' The 'Continue' button is highlighted with a purple oval.

Record the date

Appendix A. Managing Your TSP User Account

Changing Your User Login Name

You cannot change your user name since it comes from your MPIM profile.

Updating Your Account Information

Your account contains your first and last name, email address, telephone number, and password.

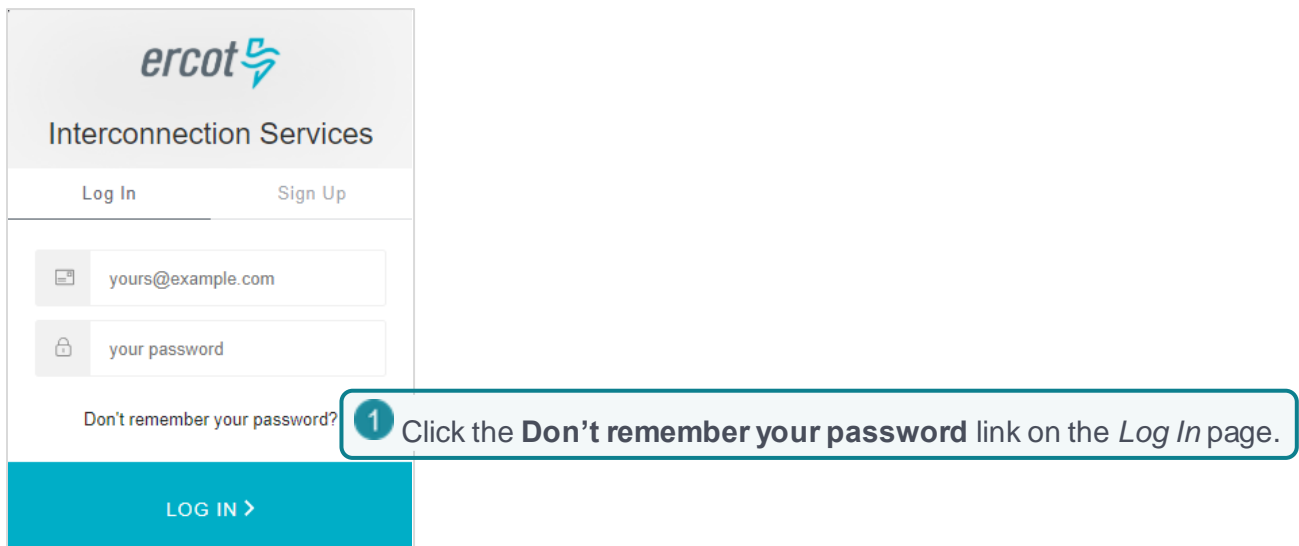

You can update your name and telephone number by clicking the My Account link at the top of the Interconnection Request List page.

You cannot change your email address since it serves as your login name.

Resetting Your Password

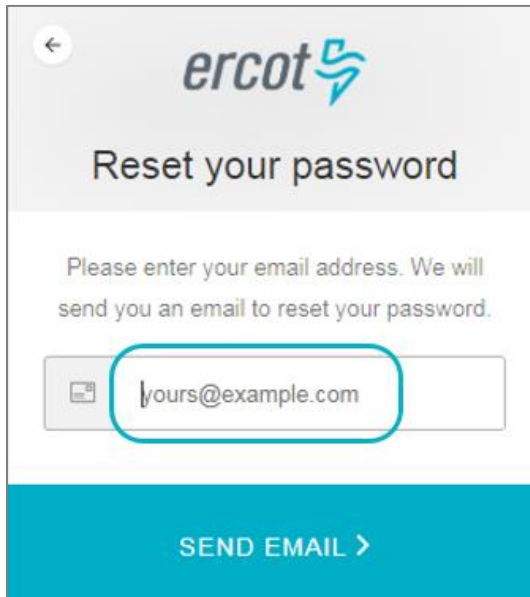

You can reset your password from the Interconnection Services Log In page.

Click the Link on the Interconnection Services Login Page

The screenshot shows the ERCOT Interconnection Services login page. At the top is the ERCOT logo and the text "Interconnection Services". Below this are two tabs: "Log In" (selected) and "Sign Up". The "Log In" tab contains a form with two input fields: "Email" (containing "yours@example.com") and "Password" (containing "your password"). Below the password field is a link that says "Don't remember your password?". A blue callout box with a white number "1" points to this link, containing the text: "Click the **Don't remember your password** link on the *Log In* page." At the bottom of the form is a large blue button labeled "LOG IN >".

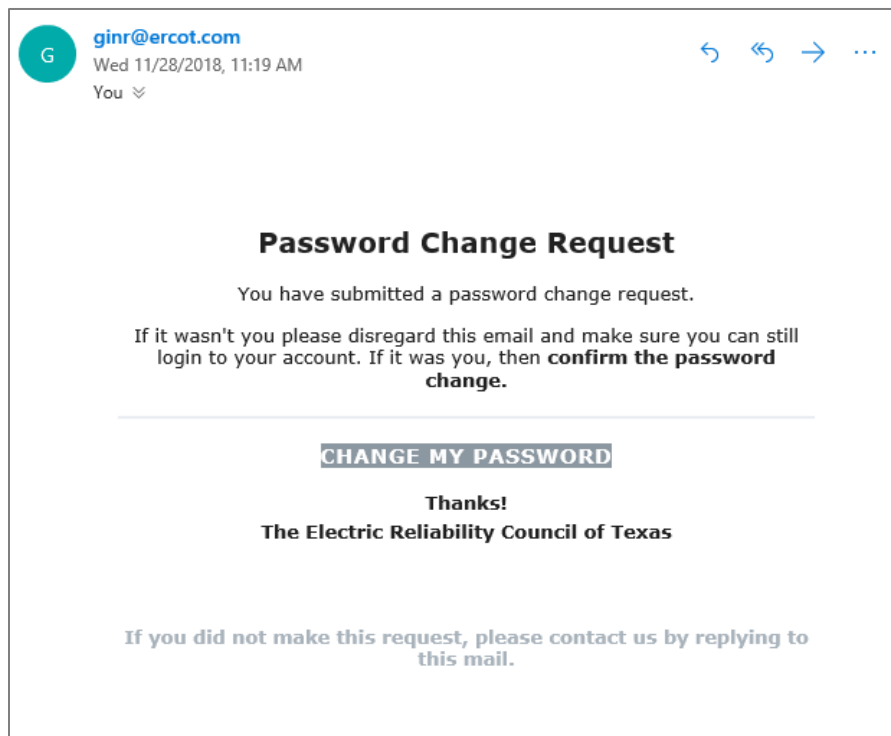

Reset Your Password Page

2 Type in the email address listed in your MPIM.

3 Click the **SEND EMAIL >** button.

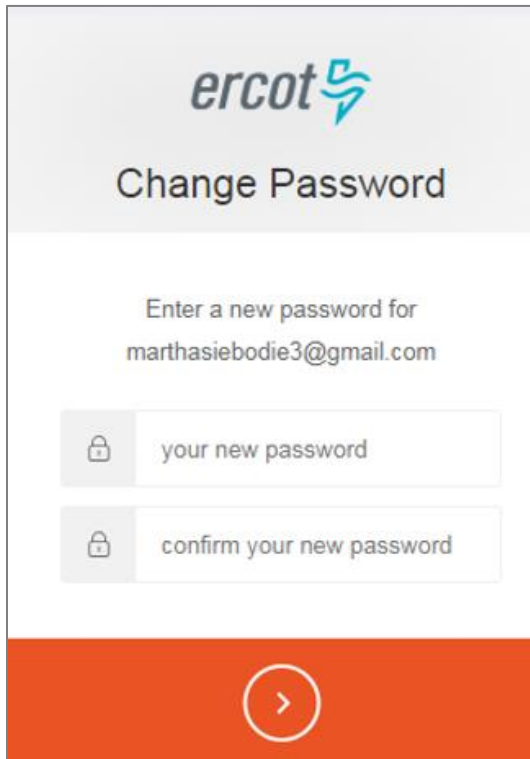

Confirmation Email

4 Go to your email and open the email message with **Reset your ERCOT Resource Interconnection Services Password** in the subject line.

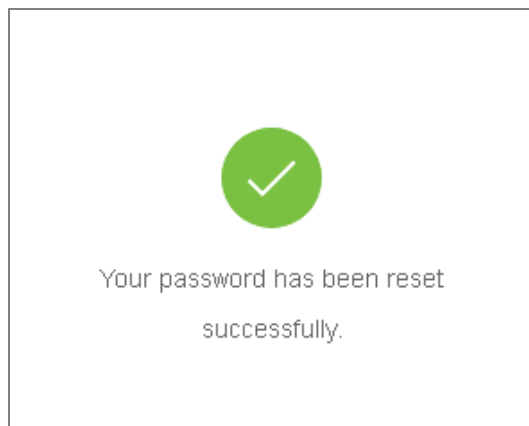

5 Click the **CHANGE MY PASSWORD** button.

Change Password Page

- 6 Type in a new password using the rules displayed as you type.
- 7 Type in your new password again.
- 8 Click the  **Continue** button.

Success Page

To close this page and return to the Interconnection Requests List, click the link in this message or the  logo in the upper left to return to the Interconnection Requests List.

Appendix B. Changing Your Multifactor Authentication Method

For login security, ERCOT Interconnection Services uses multi-factor authentication (MFA). This means that you must supply two types of identifying information when you log in - something you know and something that can be obtained from a device in your possession. ERCOT uses your email address and password from your MPIM profile as your login credentials. After you reset your password and specified which authentication method you will use, you scanned a barcode from the ERCOT Interconnection Services page into the authentication app installed on your phone (or manually typing in a special code if you do not have a smartphone).

Prior to sign up, you were asked to download either of the free apps (Auth0 Guardian or Google Authenticator) to your smartphone from the App Store or Google Play. Or, if you already use a third-party authentication app on your phone, you most likely can use that app. If you do not have a smartphone, you can use the SMS text message app (which is far less secure than the smartphone apps).

When you log in to Interconnection Services, ERCOT verifies that you correctly entered your username/password combination as the first authentication tier and then sends you a text message on your smartphone to verify your identity.

If you need to change the MFA application that associates your device with Interconnection Services, you must first submit a Help Desk ticket to ERCOT that requests your MFA to be reset. When ERCOT removes your MFA app setting, you will receive an email with the ENROLL YOUR DEVICE button that you click to display the ERCOT Authentication Method page and set up your MFA app and device again.

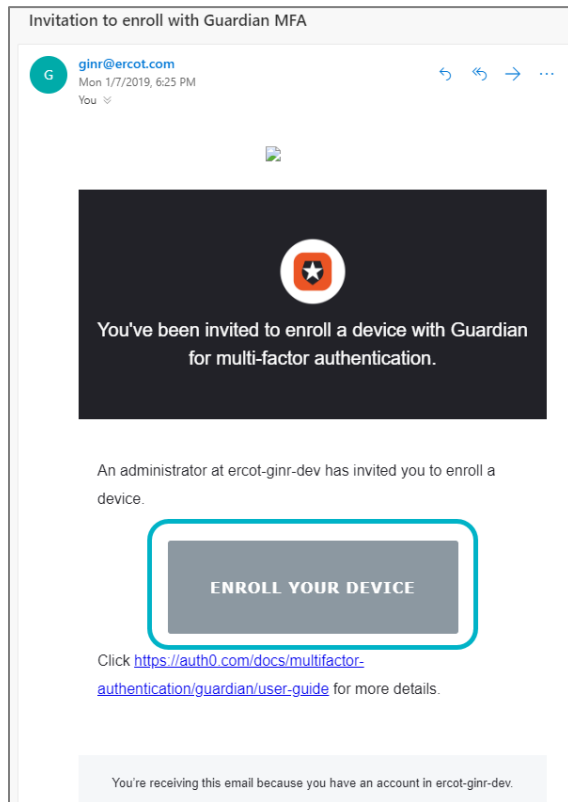

A link is provided in the email for more information on multifactor authentication.

If you plan to use the Auth0 Guardian or Google Authenticator app, you should download the appropriate app to your smartphone from the App Store or Google Play before you begin.

After scanning the app bar code, the ERCOT Recovery Code page displays with a string of 24 characters and numbers. You should have a text editor (such as Notepad open) so you can easily copy and paste the numbers, and then save it to a location on your computer where you keep this kind of information.

Changing to Auth0 Guardian MFA

Email Invitation to Enroll Your Device

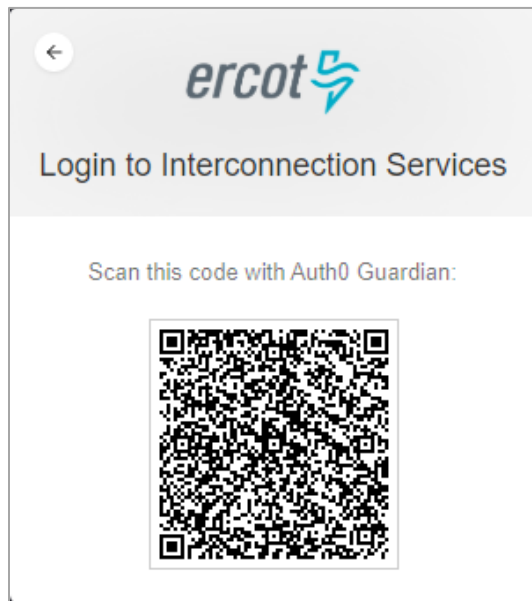

1 Click the **ENROLL YOUR DEVICE** button.

Authentication Method Page

2 Click the **I've already downloaded it** link.

Bar Code Page

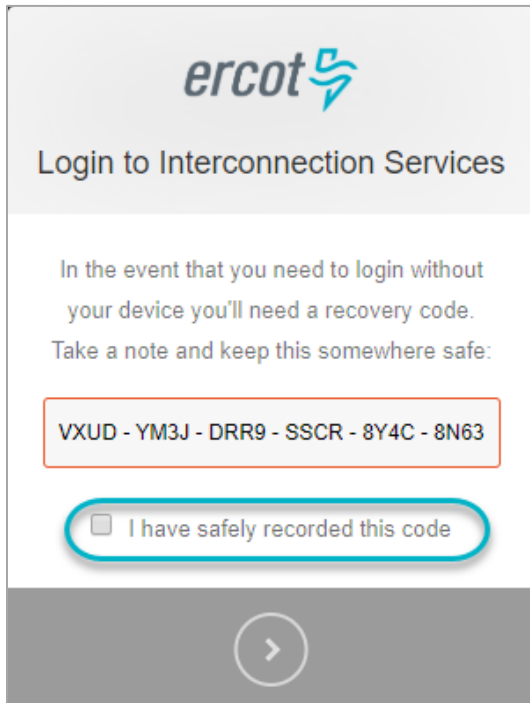

- 3 When this page displays, open your smartphone and click the  **Guardian** app to open the app, which opens to the scanner page.
Note: If the Auth0 Guardian app does not open to the scanner page, click the + at the top of the page to add your new account.

Scan Bar Code Page (On Phone)

- 4 Position your phone over the bar code until the bar code border turns green to indicate it was scanned.

Recovery Code Page

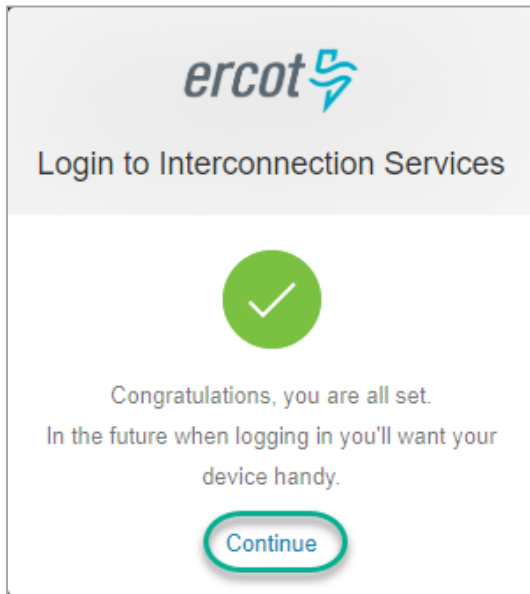

The screenshot shows the ERCOT logo at the top, followed by the heading "Login to Interconnection Services". Below this, a message states: "In the event that you need to login without your device you'll need a recovery code. Take a note and keep this somewhere safe:". A red rectangular box highlights the recovery code: "VXUD - YM3J - DRR9 - SSCR - 8Y4C - 8N63". Below the code is a checkbox with the text "I have safely recorded this code". At the bottom of the page is a grey bar with a white right-pointing arrow button.

5 On this page:

- A** Copy this code and paste it into the file you opened earlier for this purpose
- B** Click the checkbox.
- C** Click the  to continue.

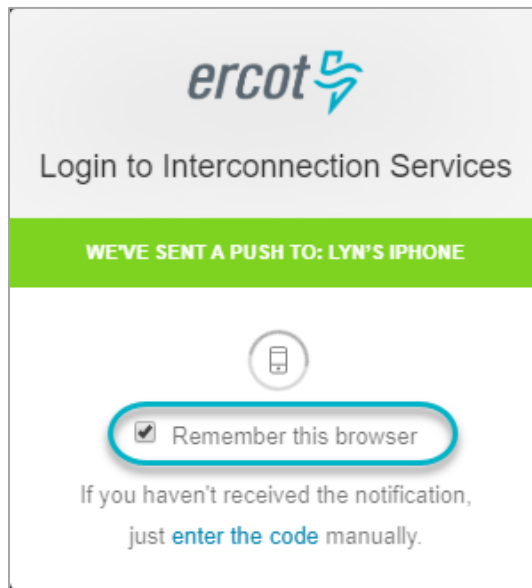

Congratulations Page

The screenshot shows the ERCOT logo at the top, followed by the heading "Login to Interconnection Services". Below this is a large green circle with a white checkmark. The text reads: "Congratulations, you are all set. In the future when logging in you'll want your device handy." At the bottom is a blue button with the text "Continue".

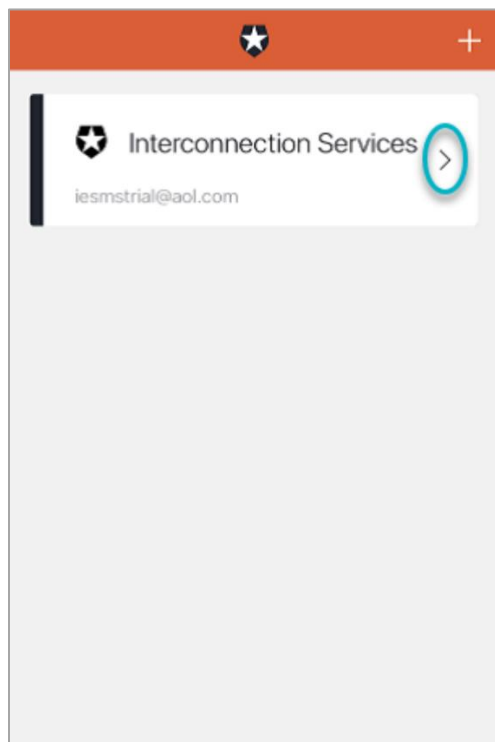

- 6** Click the **Continue** link.

Sent Push and Remember This Browser Page

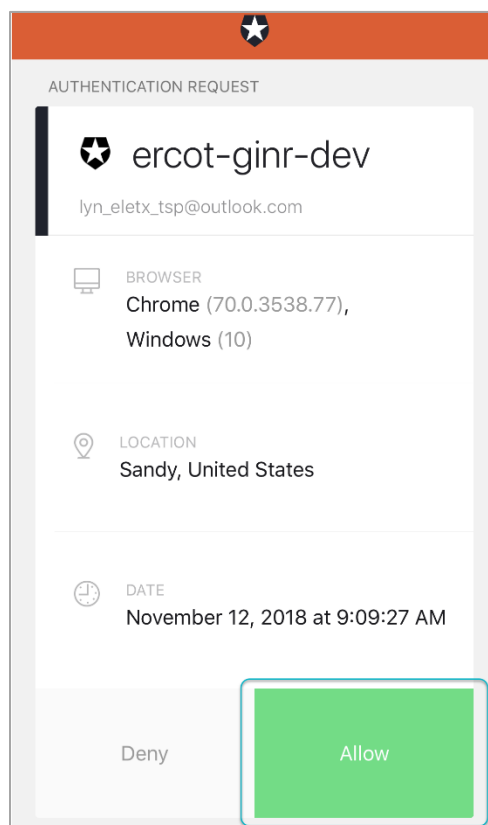

- 7 Before you go to your phone to get the Authenticator message, click the **Remember this browser** checkbox to avoid having to go to your phone to get the authentication message for the next 30 days.

Guardian Auth0 Notification (On Phone)

- 8 On your phone, locate the Interconnection Services message and click >.

Guardian Auth0 Push Message (On Phone)

9 And then, click the **Allow** button.

Changing to the Less Secure SMS Text Message App for Non-Smartphones

Email Invitation to Enroll Your Device

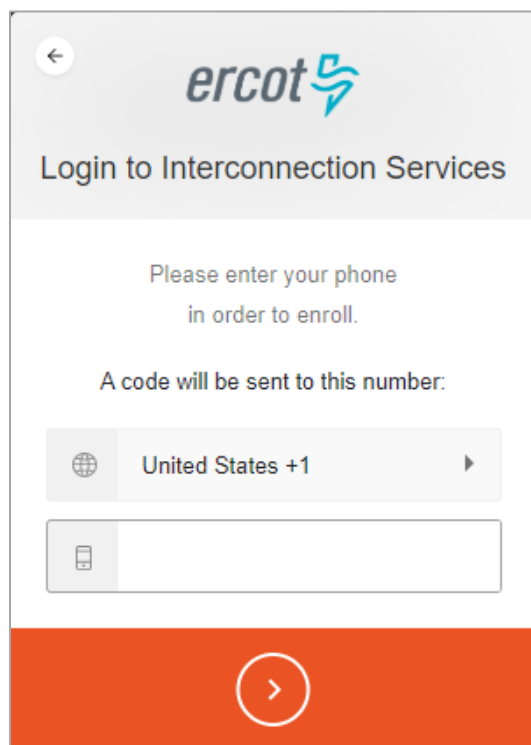

1 Click the **ENROLL YOUR DEVICE** button.

Authentication Method Page

2 Click the **SMS** link.

Phone Number Page

3 Type in a **valid mobile phone number** for ERCOT to send you an authentication code and then click the  button to continue to the next page.

SMS Message on Phone

- 4 Open your phone and look for the verification code message.

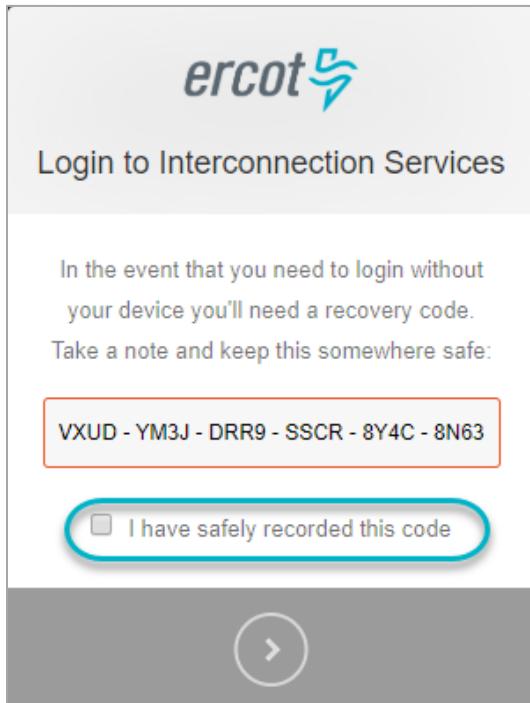

Enter the Authentication Code Page

A screenshot of the ERCOT "Login to Interconnection Services" page. The page has a light gray header with the ERCOT logo. Below the header is a green banner that says "WE'VE SENT AN SMS TO: 1 5126997764". The main content area has a light gray background and contains the text "In order to confirm enrollment we need to confirm your phone. Please enter the received code." Below this text is a login form with a text input field labeled "Enter the 6-digit code" (the label is inside the field and highlighted with a red oval), a checkbox labeled "Remember this browser" (highlighted with a red oval), and a red button with a white right arrow at the bottom.

- 5 On this page:

- A Type in the 6 numbers of the verification message displayed on your phone.
- B Click the **Remember this browser** checkbox to avoid having to do this for the next 7 days.
- C Click the  button to continue to the next page.

Recovery Code Page

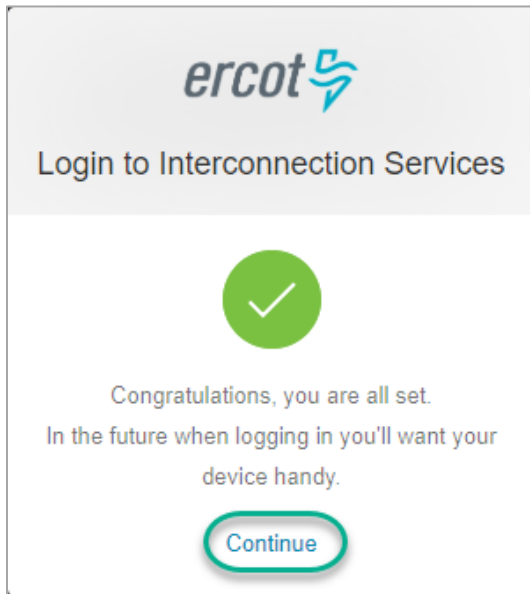

The screenshot shows the ERCOT logo at the top, followed by the heading "Login to Interconnection Services". Below this, a message states: "In the event that you need to login without your device you'll need a recovery code. Take a note and keep this somewhere safe:". A red rectangular box highlights the recovery code: "VXUD - YM3J - DRR9 - SSCR - 8Y4C - 8N63". Below the code is a checkbox with the text "I have safely recorded this code". At the bottom of the page is a grey bar with a white right-pointing arrow button.

6 **On this page:**

- A Copy this code and paste it into the file you opened earlier for this purpose.
- B Click the checkbox.
- C Click the  to continue.

Continue Page

The screenshot shows the ERCOT logo at the top, followed by the heading "Login to Interconnection Services". Below this is a large green circle with a white checkmark. The text reads: "Congratulations, you are all set. In the future when logging in you'll want your device handy." At the bottom is a green button with the text "Continue".

- 7 Click the **Continue** link.
