

## **Item 5: CEO Update**

*Pablo Vegas*

President and Chief Executive Officer

Board of Directors Meeting

ERCOT Public

October 18, 2022

## 100-Day Priorities

- Develop a clear remote work policy.
- Meet with key stakeholders, including non-traditional groups such as large flexible loads.
- Ensure the grid is ready for this winter by implementing and executing on new and existing efforts, including both the specifics and intent outlined in Senate Bill 3.

## 1-Year Priorities

 Position the grid to respond more effectively and rapidly to emerging technological, economic and social trends.

 Develop and communicate clear milestones for the effective / rapid implementation of Phase 2 market redesign.

 Prioritize a more innovative thought process and effective system to integrate DER / intermittent energy sources, and use load resources to support the grid in ways others will try to replicate.

# Employee Recognition – Website Dashboard

Thank you to the following ERCOT employees for their work in re-organizing our online Grid and Market Conditions Dashboard:

---

Julie House	Duc Qui	Angela Michelsen
