## Introduction of Alex Machoka

- Alex Machoka joined Oncor Electric Delivery in May 2005 after completing his BS in Electronics Engineering Technology from Texas Southern University in Houston. In 2009, he obtained his MBA from University of Dallas.
- Machoka started his career at Oncor as a Protection and Control technician and has since held a number of management and leadership positions at Oncor spanning such areas as vegetation management, distribution control center operations, system protection, transmission district operations, distribution region director, and current position as senior director transmission Operations.
- Machoka has served as the senior director transmission operations since March 2021. In this role, Alex oversees all transmission operations and construction workgroup that is responsible for construction, testing, and maintenance of the Oncor transmission grid.
